Conservative Millenarians The Romantic Experience In Bavaria:

Conservative Millenarians Paul Gottfried, 1979 *Conservative Millenarians The Romantic Experience in Bavaria* by Paul Gottfried is an account of the various individuals in early nineteenth century Bavaria whose thinking may be described as conservative romantic and utopian. These individuals were often part of a revival in Catholicism and expressed admiration for the Middle Ages and Christian mysticism. They were utopian yet reactionary, seeking to restore a lost past from which the modern age was believed to have fallen. They may be described as counter revolutionaries opposing the French Revolution defined by the Catholic traditionalist and reactionary Joseph de Maistre as not a contrary revolution but the contrary of revolution. Gottfried begins his book by discussing the Catholic revival, the rise of millenarianism and romanticism. Prime among the figures involved in the Catholic romantic revival include Novalis (pen name of Friedrich von Hardenberg), poet, scientist and philosopher; Adam Müller, Protestant convert to Catholicism and romantic economic theorist advocating a corporatist state based on medieval society; Friedrich Schlegel, expositor of romanticism, originally a radical individualist and admirer of the ancient Greeks; Indians and other pagans who became converts to Catholicism; Joseph von Gorres, early proponent of the revolution who grew disenchanted and became a defender of Catholicism; and Franz von Baader, romantic and social philosopher, a Catholic who was influenced by mysticism, particularly the thought of the Lutheran apostate Jakob Boehme. While these Catholic revolutionaries shared political ideals with such thinkers as Burke, the father of conservatism and opponent of revolution, Joseph de Maistre, reactionary traditionalist Catholic, and de Toqueville, Catholic writer on the ancien régime and opponent of democracy, they also were influenced heavily by mysticism and German idealism, including such mystics as Jakob Boehme, Jung Stilling, Saint Martin, and the Pietists. Gottfried next turns his attention to the age of Montgelas, in which various laws were enacted which resulted in oppression for the church and clergy. Here Gottfried notes the influence of various rationalists, including the Bavarian Illuminati of Adam Weishaupt and the Rosicrucians, who plotted against throne and altar. Weishaupt, a professor of canon law, created the Illuminati, modeling his society after the Jesuits in 1776, actively conspiring to murder the king and adhering to rationalist beliefs. Weishaupt, along with Adolf von Knigge, a fellow Illuminatus, actively opposed other mystical doctrines such as those of the Swedenborgians and the Rosicrucians. The Rosicrucians were another initiatory society whose presence was revealed in the various manifestos which appeared at the time. Believed to have been founded by Christian Rosenkreuz, the Rosicrucians were an invisible society of elite scientists and philosophers who would create a utopia. The chief Rosicrucian manifesto to appear is believed to have been authored by the Lutheran minister Johann Valentin Andreae, who actively opposed the papacy and Catholic reaction. Other individuals actively influenced by Rosicrucian mysticism, along with the writings of Paracelsus, include Karl von Eckartshausen and Gotthilf Heinrich von Schubert, whose book *The Symbolism of Dreams* was to play an important role in the romantic movement. Indeed, many romantics were especially influenced by Rosicrucianism as well as Martinism, the mysticism of Saint Martin, and

the Jewish Cabbala though they often denied this influence The thought of Schelling who although a Protestant was much admired by Catholics also played a prominent part in the development of the romantic movement Throughout this discussion Gottfried demonstrates the various conflicts which arose particularly between Catholics and Protestants as well as conflicts involving the Jews Another important component of the romantic movement was that of the Awakening a movement started by many Catholic parish priests who sought to imitate Protestant pietism within Catholicism but were also repulsed by Enlightenment rationalism Individuals involved in this movement included Johann Michael Sailer and Johann Ringseis Catholic priests who sought an Awakening In the era of Ludwig I Catholicism witnessed a revival and romantics led the way in propagating the faith In such journals as the Athenaeum romantics actively sought the origins of human existence often dabbling in non Western religions including the Vedas as well as ancient Greek myth arguing that the ancient Greeks were precursors of Christianity Romantics also expounded an eschatology in which a coming conflict with modernism would bring about the reign of Antichrist Romantics actively made war with both liberalism and modernism advocating a corporatist medieval state as an alternative to class conflict For thinkers such as Muller and von Baader the role of the worker played an important part in their economic theories Indeed Gottfried notes the influence that romanticism may have played on the thought of early socialists including Karl Marx This book is an important source of information providing much material on an otherwise neglected historical topic The conservative romantics although frequently maligned because of baseless associations with the Third Reich presented an important alternative to the decadence of modernity Their thinking will continue to live on in those who believe that traditional society is superior to the alternative of decadent modern civilization

Victorian Engagements with the Bible and Antiquity Simon Goldhill, Ruth Jackson Ravenscroft, 2023-10-12 A brilliant exposition of how the Bible and classical antiquity are central to the formation of Victorian self understanding The Paleoconservatives Joseph A. Scotchie, 2017-07-05 Paleoconservatism as a concept came into circulation during the 1980s as a rejoinder to the rise of neoconservatism It signifies a brand of conservatism that rose up in opposition to the New Deal setting itself against the centralizing trends that define modern politics to champion the republican virtues of self governance and celebrate the nation's varied and colorful regional cultures This volume brings together key writings of the major representatives of Old Right thought past and present The essays included here define a coherent intellectual tradition linking New York libertarians to unreconstructed Southern traditionalists to Midwestern agrarians Part I is devoted to the founding fathers of the modern conservative movement Essays by Frank Chodorov Murray Rothbard and James Burnham attack economic aspects of the New Deal big government in general and high taxes Russell Kirk introduces the cultural paleoconservatism with its preference for social classes and distinctions of age and sex while Richard Weaver explains why culture is more important to a civilization's survival than mere material conditions The second part covers the contemporary resurgence of the Old Right Chilton Williamson Jr sets out the argument against large scale immigration on cultural and

economic grounds The divisive issue of trade is covered William Hawkins outlines a mercantilist trade policy at odds with the free trade libertarianism of Chodorov and Rothbard On education Allan Carlson goes further than the Beltway Right in his advocacy of home schooling M E Bradford shows how the doctrine of equality of opportunity inevitably leads to greater and more tyrannical state action The contemporary culture wars are the focus of Thomas Fleming Paul Gottfried Clyde Wilson and Samuel Francis who search for the roots of American nationalism the lessons to be drawn from the past and how they may be applied in the future

The Taming of Romanticism Virgil Nemoianu, 1984 Looking at a broad spectrum of writers English French German Italian Russian and other East Europeans Virgil Nemoianu offers here a coherent characterization of the period 1815-1848 This he calls the era of the domestication of romanticism The explosive visionary core of romanticism is seen to give way after the defeat of Napoleon to an expanded and softer version reflecting middle class values This later form of romanticism is characterized by moralizing efforts to reform society a sentimental yearning for the tranquility of home and hearth and persistent faith in the individual alongside a new skepticism shattered ideals and consequent irony Expanding the application of the term Biedermeier which has been useful in describing this period in German literature Nemoianu provides a new framework for understanding these years in a wider European context

An Austrian Perspective on the History of Economic Thought Murray Newton Rothbard, **The Transformation of European Politics, 1763-1848** Paul W. Schroeder, 1994 This is the only modern study of European international politics to cover the entire timespan from the end of the Seven Years War in 1763 to the revolutionary year of 1848

O'Meara,1982 **The State** Franz Oppenheimer,1922 The State represents the epitome of Franz Oppenheimer's thinking It integrates political and historical philosophy on the one hand with economic philosophy on the other Oppenheimer believed the future progress of nations would be in the direction of liberal socialism He foresaw a society free from all monopolistic tendencies through unfettered competition According to Oppenheimer competition is restrained by a powerful class monopoly created not through economic differentiation but through political power This class monopoly stands between the masses and the land The laboring class is subject to the will of the upper classes because it does not control the means of production necessary to work in its own interest Oppenheimer asserts that the right to hold more land than one can properly work through his own efforts and the efforts of his family cannot exist without political control and is the single most important explanation for the formation of monopolies in human society He proves his theory in an original analysis Paul Gottfried writes in the new introduction that The State sums up and illustrates Oppenheimer's general theory of the origin development and expected transformation of the state central political institution of the modern world Much of Oppenheimer's work embodies the same independent spirit reflected in his way of life The State provides a wealth of information for economists political theorists and sociologists Franz Oppenheimer was professor of economics and sociology at the University of Frankfurt in Germany until he retired in 1929 In 1933 he was forced to flee the Nazi regime and eventually came to the United States where he died in 1943 Paul Gottfried is professor of political science at Elizabethtown College in Pennsylvania He is the author of The Search for Historical Meaning Carl Schmitt Politics and Theory Conservative Millenarians The Romantic Experience in Bavaria and After Liberalism forthcoming from Princeton University Press He is general editor of Religion and Public Life *Revolutions and Revolutionists* Robert Blackey,1982 **Die Gegenwart Gottes in der modernen Gesellschaft** Michael Geyer,Lucian Hölscher,2006 *Key Thinkers of the Radical Right* Mark Sedgwick,2019-01-04 Since the start of the twenty first century

Patrides, Joseph Anthony Wittreich, 1984 **An Intellectual History of Liberal Catholicism in Western Europe, 1789-1870** Aude Attuel-Hallade, 2024-01-25 This volume probes and deciphers the tensions and contradictions that underlie modern European Liberal Catholicism Beginning with the French revolution and looking at dialogues between European public moralists the book discusses the ways in which liberal Catholics loosened their bonds with religion all the while

relying on it It reflects on how and why they promoted a post revolutionary state and society based on religious dogma and morality and what new liberal order and socio political and religious models they proposed Beyond the analysis of the work of these Catholic intellectuals the question of their conceiving a specific liberal approach through Catholicism is also investigated More generally it prompts a vital reappraisal of the political ideological and philosophical pressures that the religious question caused in the redefinition of Western European post revolutionary liberalism **Social Catholicism in Europe** Paul Misner, 1991
