

CONSERVATISM

Conservatism is a political and social ideology that promotes the preservation of traditional institutions, values, and customs, favoring gradual social change.

OVERVIEW

Conservatism places value on the wisdom of past generations and seeks to conserve established norms and practices. It emphasizes the importance of maintaining social order, authority, and a respect for tradition, often advocating for limited government intervention, individual responsibility, and preservation of cultural heritage.

EXAMPLES

- **Traditional Family Values:** Conservative ideology often emphasizes the traditional family structure as a fundamental unit of society.
- **Limited Government:** Conservatism often advocates for smaller government involvement in the economy.

Conservatives And Conservatism

Glenn Wilson

Conservatives And Conservatism:

Ideologies of Conservatism E. H. H. Green, 2002 This work charts developments in the nature of conservative political thought and the meaning of conservatism throughout the 20th century It explores the ideology of the Conservative Party from the Edwardian certainties of Balfour to the present day **Mass Conservatism** Stuart Ball, Ian Holliday, 2013-10-18 The papers that comprise this volume reveal how people are intent on preserving not only their wealth but culture too The individual contributions identify the key arguments used to coax voters whose natural sympathies might gravitate to the left to vote for the Conservative Party en masse *English Conservatism Since the Restoration* Robert Eccleshall, 2002-09-11 First published in 2002 Routledge is an imprint of Taylor Francis an informa company Conservatives and Conservatism Philip Norton, Arthur Aughey, 1981 Conservatism and Ideology Matthew Johnson, Mark Garnett, David M Walker, 2017-10-02 Michael Oakshott described conservatism as a non ideological preference for the familiar tried actual limited near sufficient convenient and present Historically conservatives have been associated with attempts to sustain social harmony between classes and groups within an organic hierarchical order grounded in collective history and cultural values Yet in recent decades conservatism throughout the English speaking world has been associated with radical social and economic policy often championing free market models which substitute the free movement of labour and forms of competition and social mobility for organic hierarchy and noblesse oblige The radical changes associated with such policies call into question the extent to which contemporary conservatism is conservative rather than ideological This book seeks to explore contemporary conservative political thought with regard to such topics as One Nation politics and Big Society sovereignty multiculturalism and international blocs paternalism and negative liberty with regard to narcotics pornography and education regional and international development and public faith establishment and religious diversity This book will be published as a special issue of Global Discourse *The Crisis of Conservatism* E.H.H. Green, 2005-08-10 The Crisis of Conservatism 1880 1914 offers a new interpretation of Conservative politics in the period 1880 1914 and comes to the startling conclusion that but for the intervention of the First World War there may well have been a Strange Death of Tory England **Contemporary Thought on Nineteenth Century Conservatism** Richard Gaunt, 2020-12-09 The Conservative party remains the longest established major political party in modern British history This collection makes available 19th century documents illuminating aspects of Conservatism through a critical period in the party s history from 1830 to 1874 It throws light on Conservative ideas changing policies party organisation and popular partisan support showing how Conservatism evolved and responded to domestic and global change It explores how certain clusters of ideas and beliefs comprised a Conservative view of political action and purposes often reinforcing the importance of historic institutions such as the Anglican Church the monarchy and the constitution It also looks at the ways in which a broadening electorate required the marshalling of Conservative supporters through greater party organisation and how the Conservative party became the

embodiment and expression of durable popular political sentiment The collection examines how the Conservative party became a body seeking to deliver progress combined with stability The documents brought together in this collection give direct voice to how Conservatives of the period perceived and extolled their aspirations aims and the values of Conservatism Introductory essays highlight the main themes and nature of Conservatism in a dynamic age of change and how the Conservative axiom in an imperfect world of successful adaptation being essential to effective preservation informed and defined the Conservative party the views of its leaders the beliefs of its supporters and the political outlook they espoused This second volume continues covering the period 1830-1850 *The Psychology of Conservatism (Routledge Revivals)* Glenn Wilson, 2013-10-14 First published in 1973 The Psychology of Conservatism explores attitudes their measurement their structure and dynamics and the personality traits apparently underlying attitude patterns It examines the link between differing attitudes and discusses characteristic patterns and syndromes The book focuses on the origins and dynamics of a major factor called liberalism conservatism which is found to account for much of the variance in attitudes amongst different people Contributors review previous studies relating to personality and attitude before engaging in new studies and proposing their own theories to explain the conservative attitude The book introduces provocative theoretical ideas and provides a valuable examination of an important psychological and social attitude syndrome This book will be of interest to researchers in personality and social psychology sociology and political science and education **The Conservative Political Tradition in Britain and the United States** Arthur Aughey, Greta Jones, William Terence Martin Riches, 1992 This book seeks to break new ground by providing an original framework within which to understand conservative politics and to compare what has always been thought to be opposite ideal types a British conservatism characterized by traditionalism and an American conservatism defined by its optimistic individualism *A Dictionary of Conservative and Libertarian Thought (Routledge Revivals)* Nigel Ashford, Stephen Davies, 2012-06-25 First published in 1991 this is a reissue of the path breaking Dictionary of Conservative and Libertarian Thought the first book to examine the ideals and arguments produced by the intellectual traditions of both conservatism and classical liberalism Covering the ideas of many such distinguished thinkers as Hayek Scruton Friedman and Buchanan the volume provides a valuable survey of the historical development of both schools of thought in all of the major western countries and their contributions to contemporary debates From American Conservatism to French Liberalism Invisible Hand to Organic Society from Scientism to Scepticism and Utopianism to Voluntarism this is a vital work whose reissue will be welcomed as much by the keen layperson as by students of political science the history of philosophy economics and public policy *Contemporary Thought on Nineteenth Century Conservatism* Angus Hawkins, 2020-12-09 The Conservative party remains the longest established major political party in modern British history This collection makes available 19th century documents illuminating aspects of Conservatism through a critical period in the party's history from 1830 to 1874 It throws light on Conservative ideas changing policies party

organisation and popular partisan support showing how Conservatism evolved and responded to domestic and global change. It explores how certain clusters of ideas and beliefs comprised a Conservative view of political action and purposes often reinforcing the importance of historic institutions such as the Anglican Church, the monarchy and the constitution. It also looks at the ways in which a broadening electorate required the marshalling of Conservative supporters through greater party organisation and how the Conservative party became the embodiment and expression of durable popular political sentiment. The collection examines how the Conservative party became a body seeking to deliver progress combined with stability. The documents brought together in this collection give direct voice to how Conservatives of the period perceived and extolled their aspirations, aims and the values of Conservatism. Introductory essays highlight the main themes and nature of Conservatism in a dynamic age of change and how the Conservative axiom in an imperfect world of successful adaptation, being essential to effective preservation, informed and defined the Conservative party, the views of its leaders, the beliefs of its supporters and the political outlook they espoused. This volume explores the period 1850-1874.

Reconstructing Conservatism? Richard Hayton, 2017-10-03. Why did it take the Conservative Party so long to recover power after the landslide defeat in 1997? Why was it so slow to adapt, reposition itself and rebuild its support? How did the party leadership seek to reconstruct Conservatism and modernise its electoral appeal? Of vital interest to anyone interested in British politics, this highly readable book addresses these questions through a contextualised assessment of Conservative Party politics between 1997 and 2010. It traces debates over strategy amongst the party elite and scrutinises the actions of the leadership. It also considers four particular dilemmas for contemporary Conservatism: European integration, national identity and the English Question, social liberalism versus social authoritarianism and the problems posed by a neo-liberal political economy. The book argues that the ideological legacy of Thatcherism played a central role in framing and shaping these intraparty debates and that an appreciation of this is vital for explaining the nature and limits of the Conservatives' renewal under Cameron.

Conservatism for the democratic age David Thackeray, 2016-05-16. This book offers a new interpretation of the Conservative party's revival and adaptation to democratic politics in the early twentieth century. We cannot appreciate the Conservatives' unique success in British politics without exploring the dramatic cultural transformation which occurred within the party during the early decades of the century. This was a seminal period in which key features of the modern Conservative party emerged: a mass women's organisation, a focus on addressing the voter as a consumer, targeted electioneering strategies and the use of modern media to speak to a mass audience. This book provides the first substantial attempt to assess the Conservatives' adaptation to democracy across the early twentieth century from a cultural perspective and will appeal to academics and students with an interest in the history of political communication, gender and class in modern Britain.

The Case for Conservatism Francis Wilson, 2017-09-20. Conservative and liberal political impulses have contended throughout the history of the U.S. although there are no major Conservative or Liberal parties in the U.S. Instead

the terms signify general inclinations and prejudices encountered to some degree within all major political parties In terms of contemporary politics it is reasonably clear that liberalism and conservatism are meaningful terms But the dichotomy is subject to much confusion when projected against a wider historical background Francis Wilson s lectures on conservatism represent a genuinely philosophical approach He generalizes upon the content of conservative thought without reducing the result to a mere psychological bent or disposition Francis Wilson s volume was an expression of intellectual renewal of conservative ideas in the post World War Two period Initially published in 1951 it gave expression to the body of common belief that then and now constitutes the essence of conservatism Lucid and temperate he outlines the principles to which conservatives subscribe and how they have changed Published in the Library of Conservative Thought series *The Case for Conservatism* has continuing relevance to those who seek to understand the intellectual roots of the contemporary revival of conservative public policies

Conservative Jim DeMint,Rachel Bovard,2019-09-24 Americans hunger for something real to believe in leaders and ideas that actually work to make their lives better The current political system is not satisfying this hunger and people are rebelling Polished experienced candidates in both the Democrat and Republican parties are facing stiff competition from radical but more authentic candidates Jim DeMint and Rachel Bovard make a rock solid case for why the principles that made America the freest most prosperous nation in world history must be reclaimed to prevent our demise Conservative is the simple truth on which this book is built we all tend to keep what works This exploration delivers the goods on what has and will work for America

Contemporary Thought on Nineteenth Century Conservatism Richard A. Gaunt,2020-12-09 The Conservative party remains the longest established major political party in modern British history This collection makes available 19th century documents illuminating aspects of Conservatism through a critical period in the party s history from 1830 to 1874 It throws light on Conservative ideas changing policies party organisation and popular partisan support showing how Conservatism evolved and responded to domestic and global change It explores how certain clusters of ideas and beliefs comprised a Conservative view of political action and purposes often reinforcing the importance of historic institutions such as the Anglican Church the monarchy and the constitution It also looks at the ways in which a broadening electorate required the marshalling of Conservative supporters through greater party organisation and how the Conservative party became the embodiment and expression of durable popular political sentiment The collection examines how the Conservative party became a body seeking to deliver progress combined with stability The documents brought together in this collection give direct voice to how Conservatives of the period perceived and extolled their aspirations aims and the values of Conservatism Introductory essays highlight the main themes and nature of Conservatism in a dynamic age of change and how the Conservative axiom in an imperfect world of successful adaptation being essential to effective preservation informed and defined the Conservative party the views of its leaders the beliefs of its supporters and the political outlook they espoused This first volume covers the period 1830 1850

Century Conservatism Richard A. Gaunt, Angus Hawkins, 2021 The Conservative party remains the longest established major political party in modern British history This collection makes available 19th century documents illuminating aspects of Conservatism through a critical period in the party's history from 1830 to 1874 It throws light on Conservative ideas changing policies party organisation and popular partisan support showing how Conservatism evolved and responded to domestic and global change It explores how certain clusters of ideas and beliefs comprised a Conservative view of political action and purposes often reinforcing the importance of historic institutions such as the Anglican Church the monarchy and the constitution It also looks at the ways in which a broadening electorate required the marshalling of Conservative supporters through greater party organisation and how the Conservative party became the embodiment and expression of durable popular political sentiment The collection examines how the Conservative party became a body seeking to deliver progress combined with stability The documents brought together in this collection give direct voice to how Conservatives of the period perceived and extolled their aspirations aims and the values of Conservatism Introductory essays highlight the main themes and nature of Conservatism in a dynamic age of change and how the Conservative axiom in an imperfect world of successful adaptation being essential to effective preservation informed and defined the Conservative party the views of its leaders the beliefs of its supporters and the political outlook they espoused

Conservatism Redefined Patrick M. Garry, 2010 Throughout the 1980s and 1990s conservatism possessed a vibrancy that resulted from spirited intellectual inquiry and open debate However in the years leading up to the 2008 elections this energy seemed to fade It was as if the conservative movement became less concerned with ideas and more concerned with the preservation of political power In **Conservatism Redefined** Patrick Garry examines how Conservatives dug themselves into this hole and how they can climb out However unlike many conservative pundits Garry does not propose a simple rediscover our roots credo Instead **Conservatism Redefined** reexamines and renews conservative ideology explaining how the classical ideals of conservatism can be employed in new ways to address the concerns of citizens across the ethnic generational and economic spectrum Conservatism in America is currently mired in its worst crisis since the 1960s To be sure the crisis accompanied the declining public opinion of the Bush presidency and the resurgence of liberalism and large aggressive government in a time of crisis But as Patrick Garry explains this does not mean that conservatism has been defeated as an ideology it means it must be redefined

The Lamentation of the Conservatives Pasquale De Marco, 2025-07-23 The **Lamentation of the Conservatives** is a comprehensive examination of the rise fall and resurgence of the conservative movement in the United States From the Reagan Revolution to the Trump presidency this book explores the major events and figures that have shaped the conservative movement over the past several decades The book begins by tracing the roots of the conservative movement in the 1960s and 1970s The authors argue that the civil rights movement and the Vietnam War led to a backlash against the liberal establishment This backlash created a fertile ground for the growth of conservatism The book then examines the

Reagan Revolution of the 1980s Reaganomics a combination of tax cuts and deregulation led to economic growth but also increased inequality The Reagan administration also took a hard line against communism The Cold War drew to a close with the collapse of the Soviet Union in 1991 After the Cold War the conservative movement faced a period of uncertainty The Republican Party was divided between traditional conservatives and the new religious right The rise of the new religious right brought about a new focus on social issues The conservative movement was further divided by the election of Barack Obama in 2008 Obama's presidency was seen by many conservatives as a threat to traditional American values The Tea Party movement emerged as a response to Obama's presidency The Tea Party movement brought together conservative activists who were opposed to Obama's policies In 2016 Donald Trump was elected president The election of Donald Trump was a major victory for the conservative movement Trump's policies were seen by many conservatives as a return to traditional American values The Trump presidency has been marked by controversy but has also been a time of conservative resurgence The Lamentation of the Conservatives is a must read for anyone who wants to understand the history and future of the conservative movement in the United States The book is written in a clear and concise style and it is packed with insights and analysis If you like this book write a review

British Conservatism Peter Dorey, 2010-10-30 Defence of inequality has always been a core principle of the Conservative Party in Great Britain Yet the Conservatives have enjoyed great electoral success in a British society marked by widespread inequalities of wealth and income Peter Dorey here examines the intellectual and political arguments which Conservatives use to justify inequality He also considers debates between Conservatives over how much inequality is desirable or acceptable Should inequality be unlimited in order to promote liberty incentives and rewards Or should inequality be kept within certain bounds to prevent social breakdown and political upheaval Finally he examines why some less prosperous sections of British society have nonetheless supported the Conservatives instead of political parties promoting equality This book will be an important resource for students and commentators of contemporary British politics
