A Hercules in the Cradle Max M. Edling, 2023-09-05 Explores the origin and evolution of American public finance and shows how the nation s rise to great power status in the nineteenth century rested on its ability to go into debt Two and a half centuries after the American Revolution the United States stands as one of the greatest powers on earth and the undoubted leader of the western hemisphere This stupendous evolution was far from a foregone conclusion at independence The conquest of the North American continent required violence suffering and bloodshed It also required the creation of a national government strong enough to go to war against and acquire territory from its North American rivals In *A Hercules in the Cradle* Max M Edling argues that the federal government s abilities to tax and borrow money developed in the early years of the republic were critical to the young nation s ability to wage war and expand its territory He traces the growth of this capacity from the time of the founding to the aftermath of the Civil War including the funding of the War of 1812 and the Mexican War Edling maintains that the Founding Fathers clearly understood the connection between public finance and power a well managed public debt was a key part of
