Considerations On Western Marxism:

Considerations on Western Marxism Perry Anderson, 2016-02-23 This synoptic essay considers the nature and evolution of the Marxist theory that developed in Western Europe after the defeat of the proletarian rebellions in the West and the isolation of the Russian Revolution in the East in the early 1920s It focuses particularly on the work of Lukcs Korsch and Gramsci Adorno Marcuse and Benjamin Sartre and Althusser and Della Volpe and Colletti together with other figures within Western Marxism from 1920 to 1975 The theoretical production of each of these thinkers is related simultaneously to the practical fate of working class struggles and to the cultural mutations of bourgeois thought in their time The philosophical antecedents of the various school within this tradition Lukcsian Gramscian Frankfurt Sartrean Althusserian and Della Volpean are compared and the specific innovations of their respective systems surveyed The structural unity of Western Marxism beyond the diversity of its individual thinkers is then assessed in a balance sheet that contrasts its heritage with the tradition of classical Marxism that preceded it and with the commanding problems which will confront any historical materialism to succeed it Considerations on western marxism Perry Anderson, 1976 *Considerations on Western Marxism* Perry Anderson, 1976-01-01 Perry Anderson Gregory Elliott, 1998 This first full reconstruction of Perry Anderson's distinguished career provides an overview of the evolution of the British New Left since 1956 and reveals a great deal about the vicissitudes of Marxist theory and political practice in the era of post Stalinist communism Gregory Elliott ultimately argues that notwithstanding significant discontinuities in his intellectual development Anderson remains a critically engaged thinker of the intransigent Left a contemporary historian whose commitment to the long view renders him an indispensable commentator on our times Elliott also sketches the collective career of New Left Review one of the most influential international journals of the postwar period BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Western Marxism** Domenico Losurdo, 2024-09-17 A stinging critique of Western Marxism counterposing its complicity with imperialist logic against a resurgent anti imperialism Western Marxism How It Was Born How It Died How It Can Be Reborn is a paradigm shifting book that provides a trenchant critique of the Western left intelligentsia It reveals how its dominant ideological orientation characterized by defeatism utopianism and anti communism is rooted in the political economy of imperialism Internationally acclaimed theorist Domenico Losurdo thus provides a fresh and challenging perspective on purportedly radical thinkers who have been widely promoted in the imperial core including those affiliated with the Frankfurt School French Theory and operaismo as well as Hannah Arendt Giorgio Agamben Michael Hardt and Slavoj i ek among others His critique also has wide reaching implications for trend setting discourses inspired by this coterie of intellectuals from postcolonial and decolonial theory to subaltern studies and beyond Far from being a negative undertaking however this book is grounded in the positive project of reigniting anti imperialist Marxism As a complement to the Italian edition of Western Marxism this first ever English translation also features the

unprecedented publication of a major lecture that demystifies Western Marxism and its role in imperialists efforts to denigrate the achievements of actually existing socialism Raising the stakes of what it means to produce critical theory Western Marxism will surely provoke wide debate and a reevaluation of hallowed canons **Marxism and Totality** Martin Jay,1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Luk cs Korsch Gramsci and Bloch through the second exemplified by the Frankfurt School Lefebvre Goldmann Sartre Merleau Ponty and Della Volpe up to the most recent typified by Althusser Colletti and Habermas Yet no consensus has been reached concerning the term s multiple meanings expressive decentered longitudinal latitudinal normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism **Leo Kofler's Philosophy of Praxis: Western Marxism and Socialist Humanism** Christoph Jünke,2021-11-29 The German Austrian social theorist and philosopher Leo Kofler 1907 1995 represents what Oskar Negt once called unmutated living Marxism Throughout his life he dealt with issues of history and modernity Marxist philosophy and the critique of ideology philosophical anthropology and aesthetics In this volume author and Kofler biographer Christoph J nke elucidates the contours of his philosophy of praxis traces an arc from the socialist classics to postmodernism and outlines the socialist humanist thinker s enduring relevance The book also includes six essays by Leo Kofler published in English for the first time The main work was first published in German as Leo Koflers Philosophie der Praxis Eine Einf hrung in sein Denken by Laika Verlag 2015 ISBN 978 944233 33 8 Copyright by Laika Verlag **Rethinking Marx** Shipeng Zou,Xuegong Yang,2007 **Structure, Agency and Theory** Ib Gram-Jensen,2021-04-20 Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism **Fin de Siècle Socialism and Other Essays (Routledge Revivals)** Martin Jay,2009-11-02 Fin de Si cle Socialism originally published in 1988 demonstrates the lively potential for cultural criticism in intellectual history Martin Jay discusses such controversies as the Habermas Gadamer debate and the deconstructionist challenge to synoptic analysis This book should be of interest to students and teachers of modern European history political and social theory **The Dialectics of Ecology** John Bellamy Foster,2024-04-01 Explores ecological socialism s potential against capitalist environmental degradation Today the fate of the earth as a home for humanity is in question and yet contends John Bellamy Foster the reunification of humanity and the earth remains possible if we are prepared to make revolutionary changes As

with his prior books *The Dialectics of Ecology* is grounded in the contention that we are now faced with a concrete choice between ecological socialism and capitalist exterminism and rooted in insights drawn from the classical historical materialist tradition. In this latest work Foster explores the complex theoretical debates that have arisen historically with respect to the dialectics of nature and society. He then goes on to examine the current contradictions associated with the confrontation between capitalist extractivism and the financialization of nature on the one hand and the radical challenges to these represented by emergent visions of ecological civilization and planned degrowth on the other. The product of contemporary ecosocialist debates, *The Dialectics of Ecology* builds on earlier works by Foster including *Marx's Ecology* and *The Return of Nature* aimed at the development of a dialectical naturalism and the formation of a path to sustainable human development.

Dialectics of the Ideal, 2013-11-28. In *Dialectics of the Ideal*, Evald Ilyenkov and Creative Soviet Marxism Levant and Oittinen provide a window into the subterranean tradition of creative Soviet Marxism which developed on the margins of the Soviet academe and remains largely outside the orbit of contemporary theory in the West. With his activity approach E. V. Ilyenkov, its principal figure in the post-Stalin period, makes a substantial contribution toward an anti-reductionist Marxist theory of the subject which should be of interest to contemporary theorists who seek to avoid economic and cultural reductionism as well as the malaise of postmodern relativism. This volume features Levant's translation of Ilyenkov's *Dialectics of the Ideal* 2009, which remained unpublished until thirty years after the author's tragic suicide in 1979.

Contributors include Evald Ilyenkov, Tarja Knuuttila, Alex Levant, Andrey Maidansky, Vesa Oittinen, Paula Rauhala, and Birger Siebert. **The Aesthetic State**, Josef Chytrý, 2024-06-04. Shortly after the middle of the eighteenth century a number of thinkers from the German-speaking lands began to create a paradigm drawn from their impressions of a distant historical reality: ancient Athens added to it a new mode of thought, modern dialectics, and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal. The influence of these forces came to permeate modern German consciousness, deifying the concept and activity of art, reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation, and projecting a way of life and labor that would honor not the commodity but the aesthetic product. With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise, Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought, from Winckelmann to Marcuse. Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life. The movement begins with the classicism of Winckelmann, Weimar aesthetic humanism, Wieland, Herder, Goethe, and Schiller's formal theory of the aesthetic state, and continues through the idealism of the Swabian dialecticians, Holderlin, Hegel, and Schelling, and the realism of Marx, Wagner, and Nietzsche. It culminates in the postrealism of Heidegger, Marcuse, and the aesthetic modernist artist Walter Spies, who initiated a dialogue with the non-Western theatre state of the isle of Bali. Josef Chytrý concludes that the future speculation

on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytry indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 **Modern Critical**

Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies The

Left Hemisphere Razmig Keucheyan,2013-07-02 As the crisis of capitalism unfolds the need for alternatives is felt ever more intensely The struggle between radical movements and the forces of reaction will be merciless A crucial battlefield where the outcome of the crisis will in part be decided is that of theory Over the last twenty five years radical intellectuals across the world have produced important and innovative ideas The endeavour to transform the world without falling into the

catastrophic traps of the past has been a common element uniting these new approaches This book aimed at both the general reader and the specialist offers the first global cartography of the expanding intellectual field of critical contemporary thought More than thirty authors and intellectual currents of every continent are presented in a clear and succinct manner A history of critical thought in the twentieth and twenty first centuries is also provided helping situate current thinkers in a broader historical and sociological perspective *What Does the Ruling Class Do When It Rules?* G+r-an

Therborn,2008-01-17 In his new book G ran Therborn author of the now standard comparative work on classical sociology and historical materialism *Science Class and Society* looks at successive state structures in an arrestingly fresh perspective Therborn uses the formal categories of modern system analysis input mechanisms processes of transformation output flows to advance a substantive Marxist analysis of state power and state apparatuses His account of these is comparative in the most far reaching historical sense its object is nothing less than the construction of systematic typology of the differences between the feudal state the capitalist state and the socialist state Therborn ranges from the monarchies of mediaeval Europe through the bourgeois democracies of the west in the 20th century to the contemporary regimes in Russia Eastern Europe and China The book ends with a major analytic survey of the strategies of working class parties for socialism from the Second International to the Comintern to Eurocommunism that applies the structural findings of Therborn s enquiry in the Future as History Written with lucidity and economy *What Does the Ruling Class Do when it Rules* represents a remarkable sociological and political synthesis

Imperialism and the Corruption of Democracies Herman Lebovics,2006 In this important volume Herman Lebovics a preeminent cultural historian of France develops a historical argument with striking contemporary relevance empire abroad inevitably undermines democracy at home These essays which Lebovics wrote over the past decade demonstrate the impressive intellectual range of his work Focusing primarily on France and to a lesser extent on the United Kingdom he shows how empire and its repercussions have pervaded and corroded Western cultural intellectual and social life from the mid nineteenth century to the present Some essays explore why modern Western democratic societies needed colonialism Among these is an examination of the seventeenth century philosopher John Locke s prescient conclusion that liberalism could only control democratic forces with the promise of greater wealth enabled by empire In other essays Lebovics considers the relation between overseas rule and domestic life Discussing George Orwell s tale *Shooting an Elephant* and the careers of two colonial officers one British and one French he contemplates the ruinous authoritarianism that develops among the administrators of empire Lebovics considers Pierre Bourdieu s thinking about how colonialism affected metropolitan French life and he reflects on the split between sociology and ethnology which was partly based on a desire among intellectuals to think one way about metropolitan populations and another about colonial subjects Turning to the arts Lebovics traces how modernists used the colonial exotic to escape the politicized and contested modernity of the urban West *Imperialism and the Corruption of Democracies* is a compelling case for cultural history as a key

tool for understanding the injurious effects of imperialism and its present day manifestations within globalization
