Consilient Brain The Bioneurological Basis Of Economics Society And Politics:

The Consilient Brain Gerald A. Cory, 2004 Cory's book is an attempt to show that the reciprocal consilient brain is the dynamic shaping mechanism across the multidisciplinary spectrum from evolutionary neuroscience through the alternative social perspectives of anthropology sociology economics political science and ethics Jacket **The Consilient Brain** Gerald A. Cory Jr., 2012-09-24 The present work is the third in a series constituting an extension of my doctoral thesis done at Stanford in the early 1970s Like the earlier works *The Reciprocal Modular Brain in Economics and Politics Shaping the Rational and Moral Basis of Organization Exchange and Choice* Kluwer Academic/Plenum Publishing 1999 and *Toward Consilience The Bioneurological Basis of Behavior Thought Experience and Language* Kluwer Academic/Plenum Publishing 2000 it may also be considered to respond to the call for consilience by Edward O Wilson I agree with Wilson that there is a pressing need in the sciences today for the unification of the social with the natural sciences I consider the present work to proceed from the perspective of behavioral ecology specifically a subfield which I choose to call interpersonal behavioral ecology Ecology as a general field has emerged in the last quarter of the 20th century as a major theme of concern as we have become increasingly aware that we must preserve the planet whose limited resources we share with all other earthly creatures Interpersonal behavioral ecology however focuses not on the physical environment but upon our social environment It concerns our interpersonal behavioral interactions at all levels from simple dyadic one to one personal interactions to our larger even global social economic and political interactions *The Consilient Brain* Gerald A. Cory Jr., 2012-12-06 The present work is the third in a series constituting an extension of my doctoral thesis done at Stanford in the early 1970s Like the earlier works *The Reciprocal Modular Brain in Economics and Politics Shaping the Rational and Moral Basis of Organization Exchange and Choice* Kluwer Academic/Plenum Publishing 1999 and *Toward Consilience The Bioneurological Basis of Behavior Thought Experience and Language* Kluwer Academic/Plenum Publishing 2000 it may also be considered to respond to the call for consilience by Edward O Wilson I agree with Wilson that there is a pressing need in the sciences today for the unification of the social with the natural sciences I consider the present work to proceed from the perspective of behavioral ecology specifically a subfield which I choose to call interpersonal behavioral ecology Ecology as a general field has emerged in the last quarter of the 20th century as a major theme of concern as we have become increasingly aware that we must preserve the planet whose limited resources we share with all other earthly creatures Interpersonal behavioral ecology however focuses not on the physical environment but upon our social environment It concerns our interpersonal behavioral interactions at all levels from simple dyadic one to one personal interactions to our larger even global social economic and political interactions **Economic Biology and Behavioral Economics** Gerald A. Cory Jr., 2022-12-30 *Economic Biology and Behavioral Economics* The Prophecy of Alfred Marshall explores the prophecy of Alfred Marshall the grand synthesizer of neoclassical economics that the Mecca of the economist lies in economic biology The

book presents the proof of that prophesy through examination and establishment of the fundamental biological science necessary and then applying that science to the examination of current economic theory In doing so the book focuses primarily on the fundamentals of neoclassical economic theory which is the reigning theory and the general framework of which is taught as science in first courses in college economics These courses are at best an idealization if not an ideology of the discipline presented to fresh minds misleadingly as confirmed science The book examines the bases and the history of these idealizations points to the sources of their error from the biological perspective and suggests a path forward for the discipline Through this process the book demonstrates the power of the biological perspective anticipated by Marshall This book provides invaluable reading for anyone interested in the future of economics and economic theory and particularly those interested in behavioral economics and neuroeconomics *Renaissance in Behavioral Economics* Roger

Frantz,2007-06-14 Economists working on behavioral economics have been awarded the Nobel Prize four times in recent years This book explores this innovative area and in particular focuses on the work of Harvey Leibenstein one of the pioneers of the discipline The topics covered in the book include agency theory dynamic efficiency evolutionary economics X efficiency the effect of emotions specifically affect on decision making market pricing experimental economics human resource management the Carnegie School and intra industry efficiency in less developed countries **Handbook of Contemporary**

Behavioral Economics Morris Altman,2015-01-30 At a time when both scholars and the public demand explanations and answers to key economic problems that conventional approaches have failed to resolve this groundbreaking handbook of original works by leading behavioral economists offers the first comprehensive articulation of behavioral economics theory Borrowing from the findings of psychologists sociologists political scientists legal scholars and biologists among others behavioral economists find that intelligent individuals often tend not to behave as effectively or efficiently in their economic decisions as long held by conventional wisdom The manner in which individuals actually do behave critically depends on psychological institutional cultural and even biological considerations Handbook of Contemporary Behavioral Economics includes coverage of such critical areas as the Economic Agent Context and Modeling Decision Making Experiments and Implications Labor Issues Household and Family Issues Life and Death Taxation Ethical Investment and Tipping and Behavioral Law and Macroeconomics Each contribution includes an extensive bibliography *The Philosophy of Economics*

Daniel M. Hausman,2008 An anthology of works on the philosophy of economics including classic texts and essays exploring specific branches and schools of economics Completely revamped this edition contains new selections a revised introduction and a bibliography The volume contains 26 chapters organized into five parts I Classic Discussions II Positivist and Popperian Views III Ideology and Normative Economics IV Branches and Schools of Economics and Their Methodological Problems and V New Directions in Economic Methodology It includes crucial historical contributions by figures such as Mill Marx Weber Robbins Knight and Veblen and works by most of the leading contemporary figures writing on economic methodology

including five Nobel Laureates in Economics **Alternative Institutional Structures** Sandra Batie,Nicholas Mercurio,2008-06-16 In the spring on 2006 a workshop was held at Michigan State University to honour the career of A Allan Schmid and his writings about how institutions evolve and how alternative institutions including property rights shape political relationships and impact economic performance This edited book is the outcome of the workshop It is a collection

Reciprocity in International Law Shahrads Nasrolahi Fard,2015-12-22 In international relations reciprocity describes an environment in which States support one another for short or long term advantage through the balancing of rights duties and interests This book examines reciprocity in the context of international law It considers the role reciprocity plays in the creation and development of international law as well as in the interpretation and application of international law The book illuminates the reciprocal framework of international law and international relations by examining the role reciprocity plays in different types of States obligations including bilateral bilateralisable multilateral non bilateralisable multilateral and obligations erga omnes The book examines how reciprocity is intertwined with the principle of equality as the rights and obligations of States are equal irrespective of size and economic or military strength and the beneficial effects of reciprocity in creating stability and cooperation amongst States Handbook of Research on Cooperatives and Mutuals Matthew S.

Elliott,Michael A. Boland,2023-02-14 This incisive Handbook provides a global update on the state of knowledge in cooperatives and mutuals expertly describing future directions for research and education Showcasing extensive discussions of cooperative theory Matthew S Elliott and Michael A Boland and the contributors assess cooperatives social economic and environmental effects and analyse the impact of regional and cultural features that make cooperatives unique

Vulnerable Minds Liya Yu,2022-08-16 Neuroscience research has raised a troubling possibility Could the tendency to stigmatize others be innate Some evidence suggests that the brain is prone to in group and out group classifications with consequences from ordinary blind spots to full scale dehumanization Many are inclined to reject the argument that racism and discrimination could have a cognitive basis Yet if we are all vulnerable to thinking in exclusionary ways if everyone from the most ardent social justice advocates to bigots and xenophobes has mental patterns and structures in common could this shared flaw open new prospects for political rapprochement Liya Yu develops a novel political framework that builds on neuroscientific discoveries to rethink the social contract She argues that our political selves should be understood in terms of our shared social capacities especially our everyday exclusionary tendencies Yu contends that cognitive dehumanization is the most crucial disruptor of cooperation and solidarity and liberal values based discourse is inadequate against it She advances a new neopolitical language of persuasion that refrains from moralizing or shaming and instead appeals to shared neurobiological vulnerabilities Offering practical strategies to address those we disagree with most strongly **Vulnerable Minds** provides timely guidance on meeting the challenge of including and humanizing others Regeln, Institutionen und Ordnungen Johanna Hochloff,2019-02-22 Regeln Institutionen und Ordnungen stellen die Grundstrukturen

ökonomischen Handelns dar Ihre Aktualität zeigt sich nicht zuletzt in der Staatsschuldenkrise Griechenlands oder den Verhandlungen zum Brexit Bei wirtschaftspolitischen Reformen ist ihre Berücksichtigung daher unabdingbar Die Nobelpreisträger Hayek und North analysieren die institutionellen Strukturen von Gesellschaften und setzen sie in Beziehung zu ihrer Kultur In der Auseinandersetzung mit Hayeks und Norths Forschung sowie weiterer ökonomischer Literatur dazu zeigt Johanna Hochloff die Funktionsweise die Entstehung und den Wandel von Regeln Institutionen und Ordnungen Zudem zieht sie Kahnemans und Tverskys Verhaltensökonomik Searles Theorie der Gesellschaft Banduras sozialkognitive Lerntheorie sowie Halls und Soskices Varieties of Capitalism Ansatz heran um das Verständnis institutioneller Strukturen nach Hayek und North zu erweitern

Toward Consilience Gerald A. Cory Jr., 2012-12-06 The present work is the second in a series constituting an extension of my doctoral thesis done at Stanford in the early 1970s Like the earlier work *The Reciprocal Modular Brain in Economics and Politics Shaping the Rational and Moral Basis of Organization* Exchange and Choice Plenum Publishing 1999 it may also be considered to respond to the call for consilience by Edward O Wilson I agree with Wilson that there is a pressing need in the sciences today for the unification of the social with the natural sciences I consider the present work to proceed from the perspective of behavioral ecology specifically a subfield which I choose to call interpersonal behavioral ecology th Ecology as a general field has emerged in the last quarter of the 20 century as a major theme of concern as we have become increasingly aware that we must preserve the planet whose limited resources we share with all other earthly creatures Interpersonal behavioral ecology however focuses not on the physical environment but upon our social environment It concerns our interpersonal behavioral interactions at all levels from simple dyadic one to one personal interactions to our larger even global social economic and political interactions
