Consistency in Personality Daniel J. Ozer, 2012-12-06 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), Situation Cognition and Coherence in Personality Barbara Krahé, 2010-08-26 This 1990 volume was written to re-examine the long-standing controversy about consistency in personality from a social psychological perspective. Barbara Krahé reconsiders the concept of consistency in terms of the systematic coherence of situation cognition and behaviour across situations. In the first part of the volume she undertakes an examination of social psychological models of situation cognition for their ability to clarify the principles underlying the perception of situational similarities. She then advances an individual-centred methodology in which nomothetic hypotheses about cross-situational coherence are tested on the basis of idiographic measurement of situation cognition and behaviour. In the second part of the volume a series of empirical studies is reported which apply the individual-centred framework to the analysis of cross-situational coherence in the domain of anxiety-provoking situations. These studies are distinctive in that they extend over several months and use free response data. **Handbook of Personality Psychology** Robert Hogan, John A. Johnson, Stephen R. It offers essays, commentaries, and replies by leading philosophers and scientists who explain and use empirical findings from psychology and neuroscience to illuminate virtue and character and related issues in moral philosophy. Environment and Behavior Studies Irwin Altman, Kathleen Christensen, 2012-12-06. This eleventh volume in the series departs from the pattern of earlier volumes. Some of those volumes addressed research design and policy topics in terms of environmental settings, for example, homes, communities, neighborhoods, and public places. Others focused on environmental users, for example, children and the elderly. The present volume examines the field of environment and behavior studies itself in the form of intellectual histories of some of its most productive and still visible senior participants. In so doing, we hope to provide readers with a grand sweep of the field, its research and design content, methodology, institutions, and past and future trajectories through the experiences and intellectual histories of its participants. Why intellectual histories? Several factors led to the decision to launch this project. For one, 1989 was an anniversary and commemorative year for the Environmental Design Research Association, perhaps the major and most long-standing interdisciplinary organization of environment and behavior researchers and practitioners.

Established in 1969 this organization has been the vehicle for generations of researchers and practitioners from many disciplines to come together annually to exchange ideas present papers and develop professional and personal relationships. It held its first and twentieth meetings in North Carolina with the twentieth conference substantially devoted to discussions of the past present and future of the field a taking stock so to speak. Thus it seemed appropriate to launch a volume on intellectual histories at this significant juncture in the life of the field. *The Oxford Handbook of Personality and Social Psychology* Kay Deaux, Mark Snyder, 2018-10-30. The second edition of *The Oxford Handbook of Personality and Social Psychology* uniquely integrates personality and social psychology perspectives together in one volume. Contributors explore historical conceptual methodological and empirical foundations that link the two fields together. Further this new edition offers readers comprehensive coverage of new and emerging areas of theory research and application and assesses the fields growth and development since the publication of the first edition. **Expectancy and Emotion** Maria Miceli, Cristiano Castelfranchi, 2015. The mind is a powerful anticipatory device. It frequently makes predictions about the future telling us not only how the world might or will be but also how it should be or better how we would like it to be. This book explores anticipation based emotions the emotions associated with the interaction between what is and what is not yet. **A Research Agenda for Entrepreneurial Cognition and Intention** Malin Brännback, Alan L. Carsrud, 2018-01-26. A Research Agenda for Entrepreneurial Cognition and Intention suggests new directions and approaches to study the internal thought processes of entrepreneurs by examining areas that have been under researched ignored or overlooked.
