Consolidated B-24 Liberator Graham M. Simons, 2012-08-19 The Consolidated B 24 Liberator was almost certainly the most versatile Second World War Bomber Apart from its bombing role in all theaters of operation the B 24 hauled fuel to France during the push towards Germany carried troops fought U boats in the Atlantic and probably most important of all made a vital contribution towards winning the war in the Pacific Its most famous single exploit is possibly the raid on the Ploesti oil fields in August 1943 The B 24 ended World War Two as the most produced Allied heavy bomber in history and the most produced American military aircraft at over 18 000 units thanks in large measure to Henry Ford and the harnessing of American industry It still holds the distinction as the most produced American military aircraft The B 24 was used by several Allied air forces and navies and by every branch of the American armed forces during the war attaining a distinguished war record with its operations in the Western European Pacific Mediterranean and China Burma India theaters This book focuses on the design engineering development and tactical use of the many variants throughout the bombers service life The overall result is as David Lee the former Deputy Director of the Imperial War Museum at Duxford said upon reading the final manuscript to be acquainted with all you never knew about the B 24 The book is enlivened by the many dramatic photographs which feature and this coupled with the clarity of Simons prose makes for an engaging and entertaining history of this iconic Allied bomber a key component in several of their biggest victories and a marvel of military engineering

St. John,1990 Consolidated Aircraft Corporation Katrina Pescador,Mark Aldrich,San Diego Air and Space Museum,2008-09-22 Founded by Reuben H Fleet in 1923 Consolidated Aircraft Corporation later Convair became one of the most significant aircraft manufacturers in American history For roughly 60 years this prolific company was synonymous with San Diego In fact whole sections of the city were designed to provide homes for the Convair workers and their families These men and women were responsible for building some of the most significant aircraft in aviation history including the PBY Catalina B 24 Liberator F 102 Delta Dagger as well as the reliable Atlas missile which was vital in launching America into space To this day more than a decade after the company passed from the San Diego scene tens of thousands of San Diegans still celebrate a seminal connection with Reuben Fleet his company and his popular slogan Nothing short of right is right **B-24 Liberator Units of the Eighth Air Force** Robert F Dorr,2012-12-20 The B 24 Liberator was built in greater numbers than any other US warplane yet its combat crews live even today in the shadow of the less plentiful but better known B 17 This is their fully illustrated history Accounts of the Mighty

Eighth in Europe and indeed many of the books and films that emerged from the greatest air campaign in history often overlook the B 24 even though it was in action for as long as the Flying Fortress and participated in just as many perilous daylight bombing missions Featuring photography and illustrations throughout Robert F Dorr s account of these units is ideal for aviation and World War Two enthusiasts Flying with the Fifteenth Air Force Tom Faulkner,2018-11-15 In 1944 and 1945 Tom Faulkner was a B 24 pilot flying out of San Giovanni airfield in Italy as a member of the 15th Air Force of the U S Army Air Forces Only 19 years old when he completed his 28th and last mission Tom was one of the youngest bomber pilots to serve in the U S Army Air Forces during World War II Between September 1944 and the end of February 1945 he flew against targets in Hungary Germany Italy Austria and Yugoslavia On Tom s last mission against the marshalling yards at Augsburg Germany his plane was severely damaged and he had to fly to Switzerland where he and his crew were interned The 15th Air Force generally has been overshadowed by works on the 8th Air Force based in England Faulkner s memoir helps fill an important void by providing a first hand account of a pilot and his crew during the waning months of the war as well as a description of his experiences before his military service David L Snead has edited the memoir and provided annotations and corroboration for the various missions *The Burma Air Campaign, 1941-1945* Michael Pearson,2006-10-19 The scene is set with an overview of the respective states of the RAF and Japanese Airforce and an explanation of how the American Volunteer Group The Flying Tigers came to be in China There is a concise description of air ops covering the Japanese invasion of Indo China Malaya and Singapore together with a close study of the sinking of the Prince of Wales and Repulse which altered the air sea power equation The main emphasis is on the use of air power both offensive defensive and air transport during the protracted Burma Campaign This embraces operations in the Arakan and the various Chindit long range penetration expeditions These relied almost totally on air supply and evacuation In the later stages of the War the US and RAF combined forces and predictably this was not without controversy Few realize that US B29s operating from India attacked Japan itself Finally the role of ground attack aircraft against the retreating Japanese played a significant part in the Allied advance in Burma
