Boyd, 2010-01-01 Before the Civil War American writers such as Catharine Maria Sedgwick and Harriet Beecher Stowe had established authorship as a respectable profession for women But though they had written some of the most popular and influential novels of the century they accepted the taboo against female writers regarding themselves as educators and businesswomen During and after the Civil War some women writers began to challenge this view seeing themselves as artists writing for themselves and for posterity Writing for Immortality studies the lives and works of four prominent members of the first generation of American women who strived for recognition as serious literary artists Louisa May Alcott Elizabeth Stuart Phelps Elizabeth Stoddard and Constance Fenimore Woolson Combining literary criticism and cultural history Anne E Boyd examines how these authors negotiated the masculine connotation of artist imagining a space for themselves in the literary pantheon Redrawing the boundaries between

male and female literary spheres and between American and British literary traditions Boyd shows how these writers rejected the didacticism of the previous generation of women writers and instead drew their inspiration from the most prominent literary writers of their day Emerson James Barrett Browning and Eliot Placing the works and experiences of Alcott Phelps Stoddard and Woolson within contemporary discussions about genius and the American artist Boyd reaches a sobering conclusion Although these women were encouraged by the democratic ideals implicit in such concepts they were equally discouraged by lingering prejudices about their applicability to women *Secret Histories* Kathleen Diffley, Caroline Gebhard, Cheryl Torsney, 2025-03-15 The eighteen essays in this volume explore Constance Fenimore Woolson's prodigious range of place from the Great Lakes to the defeated South and across storied Europe to the Mediterranean Her achievements come alive in this enlightening collection shedding light on the full scope of her professional writing career The first section A Writer's Experiments reveals that Woolson's play with familiar genres and unfamiliar characters began during the 1870s and extended until she died in 1894 Consistently she tested the limits of representing women's labor and their erotic desires The second section Postbellum Souths follows Woolson's travels through a land ravaged by war and injustice Drawing on theories of travel collective memory the Lost Cause religious controversy and a race bound region these essays expose both the smugness of visitors and the agendas of residents that Woolson was among the first postwar writers to portray The third section Through an International Lens considers expatriate perceptions of European and Mediterranean cultures as well as misconceptions about the Gilded Age United States Here and throughout this volume accounts of Woolson's travel sketches mingle with those of her fiction and poetry while her encounters with the writing of other Americans demonstrate how regularly Woolson made her century's literary terrain more subtle and complex **Style, Gender, and Fantasy in Nineteenth-Century American Women's Writing** Dorri Beam, 2010-06-03 In this 2010 book Dorri Beam presents an important contribution to nineteenth century fiction by examining how and why a florid and sensuous style came to be adopted by so many authors Discussing a diverse range of authors including Margaret Fuller and Pauline Hopkins Beam traces this style through a variety of literary endeavors and reconstructs the political rationale behind the writers' commitments to this form of prose Beam provides both close readings of a number of familiar and unfamiliar works and an overarching account of the importance of this form of writing suggesting new ways of looking at style as a medium through which gender can be signified and reshaped *Style Gender and Fantasy in Nineteenth Century American Women's Writing* redefines our understanding of women's relation to aesthetics and their contribution to both American literary romanticism and feminist reform This illuminating account provides valuable new insights for scholars of American literature and women's writing Encyclopedia of the American Short Story Abby H. Inventing Eden Zachary McLeod Hutchins,2014 As Christopher Columbus surveyed lush New World landscapes he eventually concluded that he had rediscovered the biblical garden from which God expelled Adam and Eve Reading the paradisiacal rhetoric of Columbus John Smith and other explorers English immigrants sailed for North America full of hope However the rocky soil and cold winters of New England quickly persuaded Puritan and Quaker colonists to convert their search for a physical paradise into a quest for Eden s less tangible perfections temperate physiologies intellectual enlightenment linguistic purity and harmonious social relations Scholars have long acknowledged explorers willingness to characterize the North American terrain in edenic terms but Inventing Eden pushes beyond this geographical optimism to uncover the influence of Genesis on the iconic artifacts traditions and social movements that shaped seventeenth and eighteenth century American culture Harvard Yard the Bay Psalm Book and the Quaker use of antiquated pronouns like thee and thou these are products of a seventeenth century desire for Eden So too are the evangelical emphasis of the Great Awakening the doctrine of natural law popularized by the Declaration of Independence and the first United States judicial decision abolishing slavery From public nudity to Freemasonry a belief in Eden affected every sphere of public life in colonial New England and eventually the new nation Spanning two centuries and surveying the work of English and colonial thinkers from William Shakespeare and John Milton to Anne Hutchinson and Benjamin Franklin Inventing Eden is the history of an idea that shaped American literature identity and culture

Constance Fenimore Woolson's Subversive Politics Victoria Brehm,2023-05-22 This seminal study reveals how Constance Fenimore

Woolson participated in debates on nineteenth century political topics considered the province of men. She commented on the most important issues of her time: monetary policy post Reconstruction, legal decisions, racial justice, and interracial marriage. Women's rights, religious hypocrisy, environmental destruction, destabilizing international developments, and the moral character of the nation. The innovative essays in this book introduce her techniques and the political concerns that inspired her complicated art, encouraging scholars to begin the process of rereading and reanalyzing Woolson's oeuvre to understand the compelling allegories and satires she created. The oppositional, intertextual, and referential techniques she developed allowed her to enter contested political conversations about compelling nineteenth century problems like few women of her century, sometimes making her work political commentary as much as fiction.

Contesting the Past, Reconstructing the Nation Ben Railton, 2007-09-30. In this study of Gilded Age literature and culture, Ben Railton proposes that in the years after Reconstruction, America's identity was often connected through distinct and competing conceptions of the nation's history. Concerned with key social questions such as race, Native Americans, women, and the South, *Contesting the Past, Reconstructing the Nation* provided close readings of a number of texts for the ways they highlight these issues. This book examines established classics, newer additions to the canon, largely forgotten best sellers, recovery gems, and autobiographical works by Douglass and Truth, poems by Harper and Piatt, and short stories by Woolson and Cooke. These readings contribute to ongoing conversations over historical literature's definition and value and a greater understanding of not only American society in the Gilded Age but also debates on our shared but contested history that remain very much alive in the present.

From publisher's description: *Women, America, and Movement* Susan L. Roberson, 1998. Since the colonial days, American women have traveled, migrated, and relocated, always faced with the challenge of reconstructing their homes for themselves and their families. *Women, America, and Movement* offers a journey through largely unexplored territory: the experiences of migrating American women. These narratives, both real and imagined, represent a range of personal and critical perspectives; some of the women describe their travels as expansive and freeing, while others relate the dreadful costs and sacrifices of relocating. Despite the range of essays featured in this study, the writings all coalesce around the issues of politics, poetry, and self-identity described by Adrienne Rich as the elements of the politics of location, treated here as the politics of relocation. The narratives featured in this book explore the impact of race, class, and sexual economics on migratory women, their self-identity, and their roles in family and social life. These issues demonstrate that, in addition to geographic place, ideology is itself a space to be traversed. By examining the writings of such women as Louise Erdrich, Zora Neale Hurston, and Gertrude Stein, the essayists included in this volume offer a variety of experiences. The book confronts such issues as racist politicking against Native Americans, African Americans, and Asian immigrants; sexist attitudes that limit women to the roles of wife, mother, and sexual object; and exploitation of migrants from Appalachia and of women newly arrived in America. These essays also delve into the writings themselves by looking at what happens to narrative structure as authors or their characters cross

geographic boundaries The reader sees how women writers negotiate relocation in their texts and how the written word becomes a place where one finds oneself **Companion to Literature** Abby H. P.
