**Encyclopedia of World History**,      *The Age of Justinian* J. A. S. Evans, 2002-01-04 The Age of Justinian examines the reign of the great emperor Justinian 527-565 and his wife Theodora who advanced from the theatre to the throne The origins of the irrevocable split between East and West between the Byzantine and the Persian Empire are chronicled which continue up to the present day The book looks at the social structure of sixth century Byzantium and the neighbours that surrounded the empire It also deals with Justinian's wars which restored Italy Africa and a part of Spain to the empire      **A History of Byzantium** Timothy E. Gregory, 2010-01-11 This revised and expanded edition of the widely praised *A History of Byzantium* covers the time of Constantine the Great in AD 306 to the fall of Constantinople in 1453 Expands treatment of the middle and later Byzantine periods incorporating new archaeological evidence Includes additional maps and photographs and a newly annotated updated bibliography Incorporates a new section on web resources for Byzantium studies Demonstrates that Byzantium was important in its own right but also served as a bridge between East and West and ancient and modern society Situates Byzantium in its broader historical context with a new comparative timeline and textboxes      **The Bronze Horseman of Justinian in Constantinople** Elena N. Boeck, 2021-04-29 Biography of the medieval Mediterranean's most cross-culturally significant sculptural monument the tallest in the pre-modern world      **The Cambridge Companion to the Age of Justinian** Michael Maas, 2005-04-18 This book introduces the Age of Justinian the last Roman century and the first flowering of Byzantine culture Dominated by the policies and personality of emperor Justinian I 527-565 this period of grand achievements and far-reaching failures witnessed the transformation of the Mediterranean world In this volume twenty specialists explore the most important aspects of the age including the mechanics and theory of empire warfare urbanism and economy It also discusses the impact of the great plague the codification of Roman law and the many religious upheavals taking place at the time Consideration is given to imperial relations with the papacy northern barbarians the Persians and other eastern peoples shedding new light on a dramatic and highly significant historical period      **Masculinity, Identity, and Power Politics in the Age of Justinian** Michael Stewart, 2025-10-01 A generation of historians has been captivated by the notorious views on gender found in the mid-sixth century *Secret History* by the Byzantine historian Procopius of Caesarea Yet the notable but subtler ways in which gender coloured Procopius' most significant work the *Wars* have received far less attention This monograph examines how gender shaped the presentation of not only key personalities such as the seminal power couples Theodora Justinian and Antonina Belisarius but also the Persians Vandals Goths Eastern Romans and Italo-Romans in both the *Wars* and the *Secret History* By analysing the purpose and rationale behind Procopius' gendered depictions and ethnicizing worldview this investigation unpicks his knotty agenda Despite Procopius' reliance on classical antecedents the gendered discourse that undergirds both texts under investigation must be understood within the broader

context of contemporary political debates at a time when control of Italy and North Africa from Constantinople was contested

*Asia Minor in the Long Sixth Century* Ine Jacobs, Hugh Elton, 2018-10-18 Asia Minor is considered to have been a fairly prosperous region in Late Antiquity It was rarely disturbed by external invasions and remained largely untouched by the continuous Roman Persian conflict until very late in the period was apparently well connected to the flourishing Mediterranean economy and as the region closest to Constantinople is assumed to have played an important part in the provisioning of the imperial capital and the imperial armies When exactly this prosperity came to an end the late sixth century the early middle or even later seventh century remains a matter of debate Likewise the impact of factors such as the dust veil event of 536 the impact of the bubonic plague that made its first appearance in AD 541-542 the costs and consequences of Justinian's wars the Persian attacks of the early seventh century and eventually the Arab incursions of around the middle of the seventh century remains controversial The more general living conditions in both cities and countryside have long been neglected The majority of the population however did not live in urban but in rural contexts Yet the countryside only found its proper place in regional overviews in the last two decades thanks to an increasing number of regional surveys in combination with a more refined pottery

chronology Our growing understanding of networks of villages and hamlets is very likely to influence the appreciation of the last decades of Late Antiquity drastically Indeed it would seem that the sixth century in particular is characterized not only by a ruralization of cities but also by the extension and flourishing of villages in Asia Minor the Roman Near East and Egypt This volume s series of themes include the physical development of large and small settlements their financial situation and the proportion of public and private investment Imperial provincial and local initiatives in city and countryside are compared and the main motivations examined including civic or personal pride military incentives and religious stimuli The evidence presented will be used to form opinions on the impact of the plague on living circumstances in the sixth century and to evaluate the significance of the Justinianic period Encyclopedia of Early Christianity Everett Ferguson, 2013-10-08 First published in 1997 What s new in the Second Edition Some 250 new entries twenty five percent more than in the first edition plus twenty five new expert contributors Bibliographies are greatly expanded and updated throughout More focus on biblical books and philosophical schools their influence on early Christianity and their use by patristic writers More information about the Jewish and pagan environment of early Christianity Greatly enlarged coverage of the eastern expansion of the faith throughout Asia including persons and literature More extensive treatment of saints monasticism worship practices and modern scholars Greater emphasis on social history and more theme articles More illustrations maps and plans Additional articles on geographical regions Expanded chronological table Also includes maps **Three Political Voices from the Age of Justinian** Agapetus (diacono.), 2009-01-01 This one volume translation with commentary and introduction brings together three important works All three texts cast great if generally neglected light on politics and ideology in early Byzantium Agapetus wrote c 527 30CE from a position sympathetic to Justinian when he had still to consolidate his authority He sets out what an emperor must do to acquire legitimacy in terms of government s being the imitation of God Read in context his work is much more than a list of pious commonplaces The Dialogue written anonymously towards the end the same reign comprises fragments from Books 4 5 of a philosophically sophisticated lost longer work setting out requirements for the ideal polity based on a similar concept of imperial rule with extensive comment on matters of current political salience but from an implicitly hostile standpoint Not only does the text reflect the nature of Neoplatonic political philosophy but it also penetrates with its ideas deep into the inner realities of the time into the political problems of Constantinople during the first half of the sixth century The third text was written by Paul the Silentiary to mark the rededication of the basilica Hagia Sophia built thirty years earlier under the orders of Emperor Justinian I Together the translations provide an important insight into the early Byzantine period **The Golden Age of Justinian, from the Death of Theodosius to the Rise of Islam** André Grabar, 1967 Chosen Places: Constructing New Jerusalems in Slavia Orthodoxa Jelena Erdeljan, 2017-06-06 In Chosen Places Constructing New Jerusalems in Slavia Orthodoxa Jelena Erdeljan focuses on the Old Testament topic of the divinely chosen status of Jerusalem and translatio Hierosolymi including the history process and media of formulating and

disseminating this idea and its spatial visual matrix in Christian visual culture Firstly the study presents the case of Constantinople the capital of the Byzantine Empire as New Jerusalem and secondly in relation to Constantinople discussion focuses on the cases of the capitals of Slavia Orthodoxa in the later Middle Ages Turnovo Belgrade and Moscow The idea of Jerusalem corresponds with the idea of a mystical center the center of the historical Christian world which travels and follows the path of eschatological realisation     Logistics of Warfare in the Age of the Crusades John H. Pryor, 2016-12-05 How were the Crusades made possible There have been studies of ancient medieval and early modern warfare as well as work on the finances and planning of Crusades but this volume is the first specifically to address the logistics of Crusading Building on previous work it brings together experts from the fields of medieval Western Byzantine and Middle Eastern studies to examine how the marches and voyages were actually made Questions of manpower types and means of transportation by land and sea supplies financial resources roads and natural land routes sea lanes and natural sailing routes all these topics and more are covered here Of particular importance is the attention given to the horses and other animals on which transport of supplies and the movement of armies depended     **Justinian and the Later Roman Empire** John W. Barker, 1966 The eastern half of the Roman Empire economically the stronger did not fall but continued almost intact safe in the new capital of Constantinople This empire is the subject of John Barker Jr s book and the central focus of his examination of questions of continuity and change
