Wertordnung und Verfassung Thilo Rensmann, 2007
 English summary Since the Second World War the classical liberal model of constitutionalism has been increasingly challenged by a competing conception which perceives the constitution and the bill of rights as a normative order of values This new approach to constitutionalism probably found its first expression in the early jurisprudence of the German Federal Constitutional Court Thilo Rensmann retraces the development of this new paradigm of modern constitutionalism from the seminal Luth decision to the current challenges posed by transnational constitutionalism German description Das wertorientierte Grundrechts und Verfassungsverständnis des Bundesverfassungsgerichts bleibt als pratorische Rechtsschöpfung in seiner Rationalität und Legitimität prekär Thilo Rensmann legt mit der Einbeziehung des grenzüberschreitenden Kontexts eine Rationalitätsreserve frei die bislang noch nicht hinreichend gewürdigt worden ist Die Grundthese seiner Untersuchung lautet dass das Grundgesetz und die Wertordnungsjudikatur des Bundesverfassungsgerichts von Anfang an in den Kontext des nach dem Zweiten Weltkrieg aufkeimenden transnationalen Menschenrechtskonstitutionalismus eingebunden waren und daher nur aus diesem Zusammenhang vollständig verstanden werden können Ein wesentliches Anliegen des Autors liegt in der Aufschlüsselung dieses genetischen Zusammenhangs zwischen den Grundrechten des Grundgesetzes und dem menschenrechtlichen Wertsystem der internationalen Gemeinschaft wie es in der Allgemeinen Erklärung der Menschenrechte seinen authentischen Ausdruck gefunden hat Rationalität und Legitimität der Wertordnungsjudikatur des Bundesverfassungsgerichts werden aber auch in ihrem aktuellen grenzüberschreitenden Kontext überprüft Dabei werden nicht nur die Wertordnungsverfassungen anderer Staaten sondern auch die Verfassung der Vereinigten Staaten als der wirkmächtige liberal rechtsstaatliche Gegenentwurf Verfassung ohne Wertordnung in das Untersuchungsspektrum einbezogen Schliesslich zieht der Autor die Linien des Wertordnungsdenkens in den übernationalen Raum aus indem er die Transformation der Europäischen Union von einer supranationalen Wirtschaftsgemeinschaft zu einer konstitutionalisierten Wertegemeinschaft sowie die allmähliche Wandlung des Völkerrechts von einer staatenorientierten Konsensordnung zu einer anthropozentrischen Wertordnung nachzeichnet

Vocational Rehabilitation Charles Gobelet, Franco Franchignoni, 2006-01-02 It gives us great pleasure to write the preface to this book the second in the series of monographs produced by the European Academy of Rehabilitation Medicine No part of medicine no clinical intervention is complete without thinking about its effect on the person's life and the quality thereof One of the most powerful determinants of this is work a source not only of income but of satisfaction and a sense of purpose and worth The Academy founded in 1969 is composed of senior European doctors specialising in Rehabilitation and Physical Medicine It meets regularly to discuss matters of importance in the field including

teaching research and ethical matters It recognises that the ability of the speciality and of related ones to decrease dependency and increase autonomy and quality of life needs to be better known Hence the production of these monographs They will help readers access a vast amount of literature on the practice of rehabilitation and its effectiveness They should be particularly useful to young doctors preparing for the European Boards certification in Physical and Rehabilitation Medicine as they are authoritative and cover subjects in depth Topics covered in the series range from basic sciences to the most applied areas

The Admission and Integration of Refugees in Europe Sebastian Meyer, Salvatore Fabio Nicolosi, Giacomo Solano, 2025-03-31 The Admission and Integration of Refugees in Europe argues for a more interconnected understanding of laws and policies for the admission and integration of refugees and asylum seekers in the European Union Admission and integration normally refer to different phases of the migratory process but this demonstrates that they are inherently interconnected Certain legal statuses conferred in admission procedures are directly relevant for the integration prospects of migrants and the success or failure to integrate has potential repercussions for residence rights although refugees are in that respect better protected than other immigrants Legal pluralism further complicates the European context as admission is often seen as under European Union jurisdiction and integration as a Member State consideration However the book argues that this legal pluralism in fact helps us to better explain how interaction between admission and integration takes place across laws and legal orders Combining broad conceptual and constitutional analysis with closer readings of specific policies and country specific case studies this book demonstrates the potential for specific admission policies to either promote or hinder integration This book will be an important contribution to debates on European asylum and refugee law human rights and migrant integration policy
