## **Constituting Identity Political Identity Formation And The:**

*Constituting Identity* Patrick Hanafin, 2001 Provides an in depth analysis of the constitutional representation of Ireland and its citizens In a society built on contradictions it is appropriate that the so called foundational document of the polity is itself a complex of conflicting positions The Irish Constitution can in this sense be read in a manner similar to the texts of literary modernism as a repository of irreconcilable ideas which together make up the text

**Constitutional Identity** Gary Jeffrey Jacobsohn, 2010-10-29 Jacobsohn argues that a constitution acquires an identity through experience from a mix of the political aspirations and commitments that express a nation s past and the desire to transcend that past It is changeable but resistant to its own destruction and manifests itself in various ways

**Routledge Handbook of Cosmopolitanism Studies** Gerard Delanty, 2012-05-23 Over the past two decades there has been great interest in cosmopolitanism across the human and social sciences Where earlier it had largely been a term associated with moral and political philosophy cosmopolitanism has now become a widely used term in the social sciences It is now integral to much of cultural political and social analysis This is the first comprehensive survey in one volume of the interdisciplinary field of cosmopolitan studies With over forty chapters written by leading scholars of cosmopolitanism this book reflects the broad reception of cosmopolitan thought in a wide variety of disciplines and across international borders Both comprehensive and innovative in the topics covered the Handbook of Cosmopolitanism Studies is divided into four sections major theoretical debates where the emphasis is on recent developments cultural topics in the social sciences the politics of cosmopolitanism major world varieties of cosmopolitanism The Handbook answers the need to take modern cosmopolitanism out of its exclusive western context and relate it to the historical experiences of other world cultures This is a major work in defining the emerging field of cosmopolitanism studies Throughout there is a strong emphasis on interdisciplinarity with essays covering philosophy literary theory history international relations anthropology communications studies and sociology The Handbook s clear and comprehensive style will appeal to a wide undergraduate audience across the social sciences and humanities

*After Cosmopolitanism* Rosi Braidotti, Patrick Hanafin, Bolette Blaagaard, 2013 At a time when social and political reality seems to move away from the practice of cosmopolitanism whilst being in serious need of a new international framework to regulate global interaction what are the new definitions and practices of cosmopolitanism Including contributions from leading figures across the humanities and social sciences *After Cosmopolitanism* takes up this question as its central challenge Its core argument is the idea that our globalised condition forms the heart of contemporary cosmopolitan claims which do not refer to a transcendental ideal but are rather immanent to the material conditions of global interdependence But to what extent do emerging definitions of cosmopolitanism contribute to new representative democratic models of governance The present volume argues that a radical transformation of cosmopolitanism is already ongoing and that more effort is needed to take stock of transformations which are both necessary and possible To this end *After Cosmopolitanism* calls for an understanding

of cosmopolitanism that is more attentive to the material reality of our social and political situation and less focused on linguistic analyses of its metaphorical implications It is the call for a cosmopolitanism that is also a cosmopolitics

**Resistance, Space and Political Identities** David Featherstone,2011-06-20 Utilizing research on networked struggles in both the 18th century Atlantic world and our modern day Resistance Space and Political Identities The Making of Counter Global Networks challenges existing understandings of the relations between space politics and resistance to develop an innovative account of networked forms of resistance and political activity Explores counter global struggles in both the past and present including both the 18th century Atlantic world and contemporary forms of resistance Examines the productive geographies of contestation Foregrounds the solidarities and geographies of connection between different place based struggles and argues that such solidarities are essential to produce more plural forms of globalization State Identities and the Homogenisation of Peoples Heather Rae,2002-08-15 Why are forced displacement ethnic cleansing and genocide an enduring feature of state systems In this book Heather Rae locates these practices of pathological homogenisation in the processes of state building Political elites have repeatedly used cultural resources to redefine bounded political communities as exclusive moral communities from which outsiders must be expelled Showing that these practices predate the age of nationalism Rae examines cases from both pre nationalist and nationalist eras the expulsion of the Jews from fifteenth century Spain the persecution of the Huguenots under Louis XIV and in the twentieth century the Armenian genocide and ethnic cleansing in former Yugoslavia She argues that those atrocities prompted the development of international norms of legitimate state behaviour that increasingly define sovereignty as conditional Rae concludes by examining two threshold cases the Czech Republic and Macedonia to identify the factors that may inhibit pathological homogenization as a method of state building

**Place and the Politics of Identity** Michael Keith,Steve Pile,2004-11-23 In the last two decades new political subjects have been created through the actions of the new social movements often by asserting the unfixed and overdetermined character of identity Further in attempting to avoid essentialism people have frequently looked to their territorial roots to establish their constituency A cultural politics of resistance as exemplified by Black politics feminism and gay liberation has developed struggles to turn sites of oppression and discrimination into spaces of resistance This book collects together perspectives which challenge received notions of geography which are in danger of becoming anachronisms without a language to articulate the new space of resistance the new politics of identity

**Understanding and Responding to the Terrorism Phenomenon** O. Nikbay,S. Hancerli,2007-06-29 Since terrorism is a global issue counter terrorism studies are also a global issue which requires cooperation and collaboration of multi dimensional groups This publication includes the researches experiences and perceptions of different parts of this cooperation and collaboration

*The Making of a European Constitution* Michelle Everson,Julia Eisner,2007-09-21 Introduction Constitutional mo u rning Retelling the legal integration story Forgetting law Adjudicating non authoritative law Constitutionalising the institutional

balance of powers The principled judicial mechanics of constitutional morphogenesis Constitutionalism beyond constitutions

**Refining Privacy in Tort Law** Patrick O'Callaghan,2012-09-14 This book is about privacy interests in English tort law Despite the recent recognition of a misuse of private information tort English law remains underdeveloped The presence of gaps in the law can be explained to some extent by a failure on the part of courts and legal academics to reflect on the meaning of privacy Through comparative critical and historical analysis this book seeks to refine our understanding of privacy by considering our shared experience of it To this end the book draws on the work of Norbert Elias and Karl Popper among others and compares the English law of privacy with the highly elaborate German law In doing so the book reaches the conclusion that an unfortunate consequence of the way English privacy law has developed is that it gives the impression that justice is only for the rich and famous If English courts are to ensure equalitarian justice the book argues that they must reflect on the value of privacy and explore the bounds of legal possibility

**History** Jörn Rüsen,2005 Without denying the importance of the postmodernist approach to the narrative form and rhetorical strategies of historiography the author one of Germany's most prominent cultural historians argues here in favor of reason and methodical rationality in history He presents a broad variety of aspects factors and developments of historical thinking from the 18th century to the present thus continuing in exemplary fashion the tradition of critical self reflection in the humanities and looking at historical studies as an important factor of cultural orientation in practical life

*Lesbian Geographies* Kath Browne,Euarda Ferreira,2016-03-03 It has long been recognised that the spatialisation of sexual lives is always gendered Sexism and male dominance are a pervasive reality and lesbian issues are rarely afforded the same prominence as gay issues Thus lesbian geographies continue to be a salient axis of difference challenging the conflation of lesbians and gay men as well as the trope that homonormativity affects lesbians and gay men in the same ways This volume explores lesbian geographies in diverse geographical social and cultural contexts and presents new approaches using English as a working language but not as a cultural framework Going beyond the dominant trace of Anglo American perspectives of research in sexualities this book presents research in a wide range of countries including Australia Argentina Israel Canada USA Russia Poland Spain Hungary and Mexico

*Constitutionalising Europe* Michael Andrew Longo,2006 The European Union EU is in a state of transformation with its constitutional future the subject of much heated debate This book provides a durable authoritative and comprehensive account of constitutional development examining the pivotal roles of law and judicial politics in establishing the EU constitutional edifice Michael Longo demonstrates and substantiates the arguments for and against constitutionalisation through the development of a theoretical framework drawing on theories and empirical research in both law and political science to understand this new process of European Integration

**Disidentifications** José Esteban Muñoz,1999 There is more to identity than identifying with one's culture or standing solidly against it Jos Esteban Muñoz looks at how those outside the racial and sexual mainstream negotiate majority culture not by aligning themselves with or

against exclusionary works but rather by transforming these works for their own cultural purposes Mu oz calls this process disidentification and through a study of its workings he develops a new perspective on minority performance survival and activism Disidentifications is also something of a performance in its own right an attempt to fashion a queer world by working on with and against dominant ideology By examining the process of identification in the work of filmmakers performance artists ethnographers Cuban choteo forms of gay male mass culture such as pornography museums art photography camp and drag and television Mu oz persistently points to the intersecting and short circuiting of identities and desires that result from misalignments with the cultural and ideological mainstream in contemporary urban America Mu oz calls attention to the world making properties found in performances by queers of color in Carmelita Tropicana s Camp Choteo style politics Marga Gomez s performances of queer childhood Vaginal Creme Davis s Terrorist Drag Isaac Julien s critical melancholia Jean Michel Basquiat s disidentification with Andy Warhol and pop art Felix Gonzalez Torres s performances of disidentity and the political performance of Pedro Zamora a person with AIDS within the otherwise artificial environment of the MTV serial *The Real World*

**Knowing Otherwise** Alexis Shotwell, 2015-09-10 Prejudice is often not a conscious attitude because of ingrained habits in relating to the world one may act in prejudiced ways toward others without explicitly understanding the meaning of one s actions Similarly one may know how to do certain things like ride a bicycle without being able to articulate in words what that knowledge is These are examples of what Alexis Shotwell discusses in *Knowing Otherwise* as phenomena of implicit understanding Presenting a systematic analysis of this concept she highlights how this kind of understanding may be used to ground positive political and social change such as combating racism in its less overt and more deep rooted forms Shotwell begins by distinguishing four basic types of implicit understanding nonpropositional skill based or practical knowledge embodied knowledge potentially propositional knowledge and affective knowledge She then develops the notion of a racialized and gendered common sense drawing on Gramsci and critical race theorists and clarifies the idea of embodied knowledge by showing how it operates in the realm of aesthetics She also examines the role that both negative affects like shame and positive affects like sympathy can play in moving us away from racism and toward political solidarity and social justice Finally Shotwell looks at the politicized experience of one s body in feminist and transgender theories of liberation in order to elucidate the role of situated sensuous knowledge in bringing about social change and political transformation

**Collective Dreams** Keally D. McBride, 2007-08-09 How do we go about imagining different and better worlds for ourselves *Collective Dreams* looks at ideals of community frequently embraced as the basis for reform across the political spectrum as the predominant form of political imagination in America today Examining how these ideals circulate without having much real impact on social change provides an opportunity to explore the difficulties of practicing critical theory in a capitalist society Different chapters investigate how ideals of community intersect with conceptions of self and identity family the public sphere and civil society and the state situating community at

the core of the most contested political and social arenas of our time Ideals of community also influence how we evaluate choose and build the spaces in which we live as the author s investigations of Celebration Florida and of West Philadelphia show Following in the tradition of Walter Benjamin Keally McBride reveals how consumer culture affects our collective experience of community as well as our ability to imagine alternative political and social orders Taking ideals of community as a case study Collective Dreams also explores the structure and function of political imagination to answer the following questions What do these oppositional ideals reveal about our current political and social experiences How is the way we imagine alternative communities nonetheless influenced by capitalism liberalism and individualism How can these ideals of community be used more effectively to create social change

*Feminist Encounters with Legal Philosophy* Maria Drakopoulou,2013-12-17 Presenting feminist readings of texts from the legal philosophical and jurisprudential canon the papers collected here offer an interdisciplinary and critical challenge to established modes of reading law Feminist approaches to law usually take the form of either critical engagements with legal doctrine legal concepts and ideas or critical assessments of the effects that specific areas of law have upon the lives of women This collection however although rooted in feminist legal scholarship takes the established canon of legal texts as the object of inquiry Taking as their common starting point the fact that legal texts are plural and open to multiple readings all the contributions in this collection offer subversive but supplementary interpretations of the legal canon In this respect however they do not merely sustain an array of feminist styles and theories of reading revealing and re appropriating the plural space of legal interpretation they seek to open a hitherto unexplored arena for a feminist politics of law *Feminist Encounters with Legal Philosophy* is a thoroughly researched interdisciplinary collection that will interest students and scholars of Law Philosophy and Feminism

**Palestinian Identity in Jordan and Israel** Riad M. Nasser,2013-04-15 The book examines the process of national identity formation It argues that identity whether of a small community a nation an ethnic group or a religious community requires an Other against whom it becomes meaningful In other words identity develops via difference from Others against whom our sense of self becomes meaningful This thesis emerges out of the synthesis the study develops from the from the various modern and poststructuralist theories of identity and nationalism

**Political Aesthetics** Crispin Sartwell,2011-03-15 I suggest that although at any given place and moment the aesthetic expressions of a political system just are that political system the concepts are separable Typically aesthetic aspects of political systems shift in their meaning over time or even are inverted or redeployed with an entirely transformed effect You cannot understand politics without understanding the aesthetics of politics but you cannot understand aesthetics as politics The point is precisely to show the concrete nodes at which two distinct discourses coincide or connive come apart or coalesce from *Political Aesthetics* Juxtaposing and connecting the art of states and the art of art historians with vernacular or popular arts such as reggae and hip hop Crispin Sartwell examines the reach and claims of political aesthetics Most analysts focus on politics as discursive systems privileging text and reducing

other forms of expression to the merely illustrative. He suggests that we need to take much more seriously the aesthetic environment of political thought and action. Sartwell argues that graphic style, music, and architecture are more than the propaganda arm of political systems; they are its constituents. A noted cultural critic, Sartwell brings together the disciplines of political science and political philosophy, philosophy of art, and art history in a new way, clarifying basic notions of aesthetics, beauty, sublimity, and representation and applying them in a political context. A general argument about the fundamental importance of political aesthetics is interspersed with a group of stimulating case studies as disparate as Leni Riefenstahl's films and Black Nationalist aesthetics, the Dead Kennedys, and Jeffersonian architecture.
