

Steps to answering a Constitutional law problem question:

(Please be aware you do not have to abide by the order as set out below. You may wish to consider whether there is a State law first. You may wish to consider the limits in a completely different order. Your approach will need to be guided by the specific question you are asked to answer.)

1. Is there a Commonwealth Act?
2. What is the source of authority for that law?
Characterise the Law. Important note: different sections in the Commonwealth Act may fall under different heads of power:
 - a) What are the tests and what are the cases for the power under which the law is characterised?
 - b) Does the Cth law satisfy those tests?
 - c) Is it possible to use severance or reading down to bring the law within power

(See also the guide to characterisation available in the "Guides" subfolder in the Seminar Materials Folder on UTS Online)

3. Are there any Constitutional limits on the exercise of that power by the Commonwealth? Consider whether it falls foul of for example:
 - a) Implied Limits
 1. The Implied Freedom of Political Communication
 2. Melbourne Corporations principle
 - b) Express Limits
 1. S117
 2. S80
 3. S1(xxxi)
 - c) Other
 1. Chapter 3 (ie is it a valid vesting of judicial power or non judicial power, does it breach separation of powers etc.)
4. If yes can the law be read down or parts of it severed to avoid breaching those limits?
5. Is there a State Act?
6. What is the source of authority for that State Act?
7. Are there any Constitutional limits on the exercise of that power? See 3 above
8. Is the State law inconsistent with the Cth law – s109?

(By the end of the course all aspects of this process will have been covered.)

The Oxford Handbook of Comparative Constitutional Law Michel Rosenfeld, András Sajó, 2012-05-17
The field of comparative constitutional law has grown immensely over the past couple of decades Once a minor and obscure adjunct to the field of domestic constitutional law comparative constitutional law has now moved front and centre Driven by the global spread of democratic government and the expansion of international human rights law the prominence and visibility of the field among judges politicians and scholars has grown exponentially Even in the United States where domestic constitutional exclusivism has traditionally held a firm grip use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U S Supreme Court The trend towards harmonization and international borrowing has been controversial Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts that seems far from the case in constitutional law Can a parliamentary democracy be compared to a presidential one A federal republic to a unitary one Moreover what about differences in ideology or national identity Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context Is it perilous to compare minority rights in a multi ethnic state to those in its ethnically homogeneous counterparts These controversies form
