Constitutional Futures A History Of The Next Ten Years:

Constitutional Futures Robert Hazell, 1999 Tony Blair has described the government's programme of constitutional reform as the most extensive package of constitutional change ever proposed. It will transform the political landscape in ways which are not yet fully understood and some of which the government does not intend. This book is a guide to the new political and legal system that will result. The changes will include greater checks and balances and greater separation of powers, a new territorial politics with greater competition between the nations and regions of the UK, fragmentation of the party system and the emergence of more regional political parties, a shift of power from Parliament to the courts with more litigation against government and between the new levels of government within the UK, changing concepts of citizenship and democracy, a more pluralist consensus, building style of politics with more coalition governments and more minority parties in place of the adversarial two party system. These are just some of the themes explored in the Constitution Unit's new book *Constitutional Futures A History of the Next Ten Years*. It is a seminal piece of work which should interest teachers and students of law and politics, opinion formers and policy makers and all those involved in this period of unprecedented constitutional change.

Constitutional Futures Revisited R. Hazell, 2008-10-23 The UK is going through a period of unprecedented constitutional change. There is much unfinished business and further changes still to come. Where are these changes taking us? In this book leading political scientists and lawyers forecast the impact of these changes on the UK's key institutions and the constitution as a whole.

Has Devolution Made a Difference? Alan Trench, 2015-10-12 This book is the fourth volume of a major five year research programme on devolution funded by the Leverhulme Trust. The programme comprises eleven Constitution Unit research projects underwritten by a regular series of monitoring reports. This book provides a stock take of the effect of devolution during the first term of the Scottish Parliament and National Assembly for Wales. Part 1 covers the territories of the UK: Scotland, Wales, Northern Ireland and the English regions. Part 2 looks at its impact on the centre: Westminster, Whitehall and public opinion. Part 3 looks at developments in two key areas of public policy. The book as a whole assesses not just how parts of the UK have been affected by devolution but also its effect on the UK as a whole. Written by the Constitution Unit at University College London and the leading experts in Scotland, Wales and Northern Ireland, the book is packed with facts and figures and is essential reading for those who want to keep bang up to date with the latest developments.

The State of the Nations 2001 Alan Trench, 2001 This text charts the asymmetry and instability of New Labour's constitutional settlement and records changes in public attitudes and national identity. The book covers Scotland, Wales, Northern Ireland, England, intergovernmental regions, Westminster and the London Assembly. It covers the second year of devolution in the UK, bringing together the work of a five year research programme funded by the Leverhulme Trust. The programme comprises 11 research projects that bring out the dynamics of devolution.

interplay creates scope for varying forms of change but what that change means varies from topic to topic In some cases such as Wales institutional issues remain to the fore while in others such as Scotland pressures for institutional change are relatively limited but the devolved institutions create scope for new political factors to come into play Town and Country Planning in the UK J.
