Constitutional Language An Interpretation Of Judicial Decision Contributions In Political Science:

The Birth of Judicial Politics in France Alec Stone Sweet, 1992 The French Constitutional Council a quasi judicial body created at the dawn of the Fifth Republic functioned in relative obscurity for almost two decades until its emergence in the 1980s as a pivotal actor in the French policymaking process Alec Stone focuses on how this once docile institution through its practice of constitutional review has become a meaningfully autonomous actor in the French political system After examining the formal prohibition against judicial review in France Stone illustrates how politicians and the Council have collaborated over the course of the last decade often unintentionally and in the service of contradictory agendas to significantly enhance Council s power While the Council came to function as a third house of Parliament the legislative work of the government and Parliament was meaningfully juridicized Through a discussion of broad theoretical issues Stone then expands the scope of his analysis to the politics of constitutional review in Germany Spain and Austria **Library of**
