The Oxford Handbook of Comparative Constitutional Law Michel Rosenfeld, András Sajó, 2012-05-17 A comprehensive reference resource on comparative constitutional law this title examines the history and development of the discipline its core concepts institutions rights and emerging trends **Constitutional Review under the UK Human Rights Act** Aileen Kavanagh, 2009-05-07 Under the Human Rights Act British courts are for the first time empowered to review primary legislation for compliance with a codified set of fundamental rights In this book Aileen Kavanagh argues that the HRA gives judges strong powers of constitutional review similar to those exercised by the courts under an entrenched Bill of Rights The aim of the book is to subject the leading case law under the HRA to critical scrutiny whilst remaining sensitive to the deeper constitutional political and theoretical questions which underpin it Such questions include the idea of judicial deference the constitutional status of the HRA the principle of parliamentary sovereignty and the constitutional division of labour between Parliament and the courts The book closes with a sustained defence of the legitimacy of constitutional review in a democracy thus providing a powerful rejoinder to those who are sceptical about judicial power under the HRA *South Africa Business Law Handbook Volume 1 Strategic Information and Basic Laws* IBP, Inc., 2017-12-15 South Africa Business Law Handbook Strategic Information and Basic Laws **Philosophical Foundations of Constitutional Law** David Dyzenhaus, Malcolm Thorburn, 2016 Constitutional law has been and remains an area of intense philosophical interest and yet the debate has taken place in a variety of different fields with very little to connect them In a collection of essays bringing together scholars from several constitutional systems and disciplines Philosophical Foundations of Constitutional Law unites the debate in a study of the philosophical issues at the very foundations of the idea of a constitution why one might be necessary what problems it must address what problems constitutions usually address and some of the issues raised by the administration of a constitutional regime Although these issues of institutional design are of abiding importance many of them have taken on

new significance in the last few years as law makers have been forced to return to first principles in order to justify novel practices and arrangements in their constitutional orders. Thus questions of constitutional revolutions challenges to the demands of the rule of law and the separation of powers have taken on new and pressing importance. The essays in this volume address these questions filling the gap in the philosophical analysis of constitutional law. The volume will provoke specialists in philosophy politics and law to develop new philosophically grounded analyses of constitutional law and will be a valuable resource for graduate students in law politics and philosophy.

European Yearbook of Constitutional Law

2021 Jurgen de Poorter, Gerhard van der Schyff, Maarten Stremmer, Maartje De Visser, 2022-06-06 The European Yearbook of Constitutional Law EYCL is an annual publication devoted to the study of constitutional law. It aims to provide a forum for in depth analysis and discussion of new developments in the field both in Europe and beyond. This third volume of the EYCL focuses on constitutional advice an underexplored topic of legal scholarship today and addresses this situation by looking beyond constitutional law's familiar focus on the classic separation of powers and the main legislative executive and judicial bodies implied by this construct. The attention is shifted to mapping and analysing the advisory bodies and functions grouped around and in support of the legislators administrators and judges at the frontline of the constitutional edifice which is accomplished through national comparative and transnational perspectives on constitutional advice from Europe and beyond. Addressing the topic of constitutional advice is necessary to broaden and deepen not only our understanding of advice as a field in its own right but also as a way of rendering a fuller account of contemporary constitutionalism. Also the increasing political polarisation across many societies today underscores the need to study constitutional advice on topics of significance in an attempt to bridge divides and end gridlock. This book will be of special interest to constitutional scholars and legal scholars more generally as well as to political scientists. In addition government officials judges and policy makers wishing to better understand the legal mechanisms and avenues when it comes to rendering or receiving advice in the contemporary constitutional context will find much of relevance. Jurgen de Poorter is professor at Tilburg Law School Department of Public Law and Governance. Gerhard van der Schyff is associate professor at Tilburg Law School Department of Public Law and Governance. Maarten Stremmer is assistant professor at Maastricht University Faculty of Law Department of Public Law. Maartje De Visser is associate professor at Yong Pung How School of Law Singapore Management University Singapore.
