Constitutions, Elections and Legislatures of Poland, 1493-1977 Jacek Jedruch, 1982-05-21 **Polish Genealogy & Heraldry** Janina W. Hoskins, 1987 **European Monarchies from 1814 to 1906** Volker Sellin, 2017-04-10 The year 2014 saw the 200th anniversary of Napoleon's downfall and the restoration of the French monarchy under the house of Bourbon. With this as a starting point Volker Sellin shows how the European monarchies restored and prolonged their reigns by giving their countries constitutions. This new angle results in an astonishing history of the 19th century in Europe from Spain to Russia.

Art and Architecture in the Eastern Polish-Lithuanian Commonwealth (1697-1863) Urszula Szulakowska, 2022-04-25 This book explores the history of art and architecture in the Polish-Lithuanian Commonwealth from the 18th century to the uprising against the Russian occupation of 1863-64. It serves to introduce the English language reader to research produced by East European scholars. The geographical area under discussion consists of the modern nation states of Latvia, Lithuania, Belarus, and Ukraine, which from 1772 were incorporated into the empires of Russia, Austria, and Prussia. One of the major questions raised is what became of the old Commonwealth's artistic and cultural traditions under the rule of these alien powers. The book strives to do justice to the history of all the national groups involved, even though the region was heavily Polish from the 16th century onwards. The art, architecture, and culture introduced from western Europe are analysed in their effects, not only on Polish culture but also on that of the Orthodox and Uniate Ruthenians, Ukrainians, the Jewish settlement, and on those of the Karaime and Islamic Tatars. An additional concern is the history of art and architecture of the Baltic Germans in the Latvian region. The book suggests a critical approach involving alternative models to those of nationalistic schools of art. It is geography that dictates the writing of history rather than national identity.

Constitutions, Elections, and Legislatures of Poland, 1493-1993 Jacek Jedruch, 1998 To those who are unfamiliar with the achievements of Poland in the field of human rights, representative government, and general participation of the citizens in the public life, the book may appear as a revelation. To those who know something about Polish history, Dr Jedruch's observations will give a wealth of interesting data, facts, details, and comments. Written with care and learning, this guide will be very useful to all who approach the Polish legislative tradition with a desire to learn more of its concern with individual rights, freedom of conscience, civil disobedience, pacifism, and militarism, and of the way it has been focused at crucial times for the life of the nation.

Katyn Allen Paul, 2010-03-15 Twenty years ago Allen Paul wrote the first post communist account of one of the greatest but least known tragedies of the twentieth century Stalin s annihilation of Poland s officer corps and massive deportation of so called bourgeoisie elements to Siberia Today these brutal events are symbolized by one word Katyn a crime that still bitterly divides Poles and Russians Paul s richly updated account covers Russian attempts to recant their admission of guilt for the murders in Katyn Forest and includes recently translated documents from Russian military archives eyewitness accounts of two perpetrators and secret official minutes published here for the first time that confirm that U S government cover up of the crime continued long after the war ended Paul s masterful narrative recreates what daily life was like for three Polish families amid momentous events of World War II from the treacherous Nazi Soviet invasion in 1939 to a rigged election in 1947 that sealed Poland s doom The patriarch of each family was among the Polish officers personally ordered by Stalin to be shot One of the families suffered daily repression under the German General Government Like thousands of other Poles two of the families were deported to Siberia where they nearly died from forced labor starvation and neglect Through painstaking research the author reconstructs the lives of these families including such stories as a miraculous escape on the last transport of Poles leaving Russia and a mother s daring ski trek over the Carpathian Mountains to rescue a daughter she had not seen in six years At the heart of the drama is the Poles uncommon belief in victory in defeat that their struggles made them strong and that freedom and independence inevitably would be regained

Analytical Theory of Democracy Andranik Tangian, 2020-03-30 This book operationalizes the idea of political representation which is fundamental to modern democracies Both individual representatives and representative bodies are evaluated using the indices of popularity the average percentage of the population whose opinion is represented on topical policy issues and universality the percentage of issues for which the prevailing public opinion is represented Viewed as objective functions these indices can aid in the search for optimal representatives and representative bodies By replacing the consistency analysis of the social choice axioms with the calculation of the best compromises the paradoxes of social choice such as those of Condorcet and Arrow can be overcome These indices also form the core of an alternative election method that is aimed at enhancing policy representation a recent concept of political representation which is not supported by the conventional voting systems shaped during the American and French Revolutions This method is tested in a series of election experiments that focus on implementation details In addition non societal applications such as MCDM finance or traffic control are considered where the objects that reflect the properties or behavior of other objects are regarded as their representatives Given its scope the book will appeal to political scientists economists and operations researchers as well as to politicians interested in improving democratic performance and electoral system design

Trim, 2006 With one exception the papers collected here were first presented at a conference sponsored by the British Academy held at Newbold College Berkshire in 1999 This volume provides a historical perspective to the emerging literature on pluralism A range of experts examine how Calvinists in early modern France England Hungary and the Netherlands related to members of other faith communities and to society in general The essays explore the importance of Calvinists' separateness and potent sense of identity To what extent did this enable them to survive persecution Did it at times actually induce repression Where Calvinists held political power why did they often turn from persecuted into persecutors How did they relate to Anabaptists Quakers and Catholics for example The conventional wisdom that toleration and in consequence pluralism resulted from a waning in religious zeal is queried and alternative explanations considered Finally the concept of pluralism itself is investigated
