Constructing A Public Theology The Church In A Pluralistic Culture:

Constructing a Public Theology Ronald F. Thiemann, 1991-11-01 Ronald Thiemann believes we live in a time and a culture where there is little agreement concerning many basic moral questions. He claims the line between private and public between personal and political can no longer be drawn with absolute clarity and if moral decision making has an inevitable political dimension then moral and theological reflection must seek to help Christians in dealing with the public aspects of their lives. *The Spirit in Public Theology* Vincent E. Bacote, 2010-11-01 In *The Spirit in Public Theology* Bacote shows how Dutch politician and church leader Abraham Kuyper lived a thoroughly Christian life and explains why Christians need to follow Kuyper by taking their faith into the public sphere. Identifying the characteristics of a true Christian worldview, Bacote demonstrates the need for a public theology that stresses engagement between the church and the world. *The Spirit in Public Theology* should be required reading for pastors, students, and all Christians who want to take their faith beyond the four walls of the Church. **Public Theology in Korea?** Minseok Kim, 2021-01-01 Public Theology is one of the most important topics in the field of theology across the world but not in Korea. There are several historical and theological reasons for this indifference of Korean Reformed Christianity as the mainstream in Korea. In order to dispel doubts of Korean Reformed Christianity to the public theological approaches, it is necessary to demonstrate a coherence between some characteristics of public theology and Reformed theology. This study analyses and utilises the six characteristics of public theology presented by Heinrich Bedford-Strohm as a lens to engage aspects of John Calvin's theology and the period of the Reformation in Geneva. Based on this work, the author re-examines the history of Korean Christianity with a public theological point of view and asserts the justification for Korean Reformed Christianity to actively embrace public theological approaches. Minseok Kim is a Research Fellow at the Department of Systematic Theology and Ecclesiology and Researcher at the Beyers Naud Centre for Public Theology at the University of Stellenbosch, South Africa. *Pentecostal Public Theology* Simo Frestadius, Mark J. Cartledge, 2024-07-11 This is the first academic work to focus explicitly on Pentecostal public theology in Europe. Following a growing interest in understanding Pentecostal beliefs and practices with respect to the public sphere, this book shifts the focus of Pentecostal engagement with politics, society, and culture from the Global South and North America to Europe. This work also discusses themes such as Pentecostal public values, identity, nationalism, poverty, democracy, education, race, and political engagement in the context of European Pentecostalism. The book provides an historical overview by bringing together various European voices to discuss the current challenges and possible trajectories for Pentecostal public theology in a constructive fashion. With contributions from leading and emerging European Pentecostal and Charismatic scholars, this book is a must for scholars interested in understanding Pentecostal beliefs and practices in the public sphere in a European context. **Public Theology** Gnana Patrick, 2020-04-07 This book situates public theology within the genre of political theology. Drawing upon the distinct strands of political theologies identified by Daniel M. Bell Jr, Gnana Patrick treats public

theology as the form of political theology for our contemporary era and takes special care to relate these strands of political theologies to the Indian context thereby opening up the theological horizon for Indian public theology Further Public Theology dwells upon certain prominent features of our contemporary global world and discerns the human need for experiencing transcendence today Taking faith to be the catalyst for this experience of transcendence it points to civil society as the interstice through which faith can be imparted to the contemporary world And it argues for the relevance of public theology for that work *A Companion to Public Theology* ,2017-01-23 Winner of the 2017 Choice Outstanding Academic Title Award Public theology has emerged in the twentieth and twenty first centuries as theologians have increasingly entered the public square to engage complex issues This Companion to Public Theology brings a much needed resource to this relatively new field The essays contained here bring a robust and relevant faith perspective to a wide range of issues as well as foundational biblical and theological perspectives which equip theologians to enter into public dialogue Public theology has never been more needed in public discourse whether local or global In conversation across disciplines its contribution to the construction of just policies is apparent in this volume as scholars examine the areas of political social and economic spheres as well as issues of ethics and civil societies and draw on contexts from six continents Contributors are Chris Baker Andrew Bradstock Luke Bretherton Lisa Sowle Cahill Letitia M Campbell Cludio Carvalhaes Katie Day Frits de Lange Jolyon Mitchell Elaine Graham Paul Hanson Nico Koopman Sebastian Kim Esther McIntosh Clive Pearson Scott Paeth Larry L Rasmussen Hilary Russell Nicholas Sagovsky Dirk J Smit William Storrar David Tombs Rudolf von Sinner Jenny Anne Wright and Yvonne Zimmerman *Theology, Political Theory, and Pluralism* Kristen Deede Johnson,2007-01-25 How can we live together in the midst of our differences This is one of the most pressing questions of our time Tolerance has been the bedrock of political liberalism while proponents of agonistic political thought and radical democracy have sought an answer that allows a deeper celebration of difference Kristen Deede Johnson describes the move from tolerance to difference and the accompanying move from epistemology to ontology within political theory Building on this ontological turn in search of a theological answer to the question she puts Augustine into conversation with recent political theorists and theologians This theological option enables the Church to envision a way to engage with contemporary political society without losing its own embodied story and practices It contributes to our broader political imagination by offering a picture of rich engagement between the many different particularities that constitute a pluralist society *Subaltern Public Theology* Raj Bharat Patta,2023-02-22 This book delves into the public character of public theology from the sites of subalternity the excluded Dalit non public in the Indian public sphere Raj Bharat Patta employs a decolonial methodology and explores the topic in three parts First he engages with theological contexts by mapping global and Indian public theologies and critically analysing them Next he discusses theological companions and explains theological subalternity and subaltern public as companions for a subaltern public theology for India Finally Patta explains theological contours by discussing subaltern liturgy as a

theological account of the subaltern public and explores a subaltern public theology for India *Theology in the Public Sphere* Sebastian Kim,2013-01-03 A substantial and definitive introduction to public theology by one of the leading experts in the field A key text for third year undergraduate modules and MA courses in Social Ethics Political Theology and Public Theology *Piety and Responsibility* John N. Sheveland,2016-04-22 This book analyzes the writings of Karl Rahner Karl Barth and Vedanta Desika to disclose how each construes piety and responsibility as integral to each other Each theologian expresses a fundamental unity of love of God and love of neighbour Sheveland explores this unity in ecumenical and interreligious frameworks showing how these authors privilege theology as practice enactment or simply as ethical He uses the Renaissance genre of musical polyphony as a methodological tool by which to explore the aesthetic quality and the similarity in difference of the theological voices being compared Polyphony s application to comparative theology includes the avoidance of caricature domestication and antagonism In place of these is offered a fundamentally aesthetic paradigm by which to hear theological voices in terms of their unity in distinction **Pragmatic Theology** Victor Anderson,1998-01-01 Argues that while contemporary American philosophies and philosophers of religion are proclaiming the end of theology a neopragmatism has arrived to fill the void in meaning and moral fulfillment to which theology once supplied answers

Hermeneutical Theology and the Imperative of Public Ethics Paul S. Chung,2013-10-23 Hermeneutical Theology and the Imperative of Public Ethics is a groundbreaking attempt to present constructive missional theology in an integrative and interdisciplinary framework as it provocatively utilizes and contextualizes Reformation theology and hermeneutics concerning ethical theology embedded within the wider horizon of World Christianity Mission as constructive theology is explored and refined in an hermeneutical and interdisciplinary fashion underlying a new horizon of postcolonial theology and mission in light of God s act of speech Missional church founded up God s grace of justification and Christ s diakonia of reconciliation becomes ethically oriented public church as it is engaged in mutireligious diversity of people s lives and lifeworld in the postcolonial context of World Christianity *The Cambridge Companion to Christian Political Theology* Craig Hovey,Elizabeth Phillips,2015-11-20 This volume explores contemporary Christian political theology discussing its traditional sources its emergence as a discipline and its key issues *Religion in Public Life* Ronald F. Thiemann,1996 This book puts forward the most sophisticated and subtle treatment available on the relation between religion and politics and church synagogue mosque temple and state Thiemann has taken our impoverished discourse on these matters to new heights and higher ground Cornel West from back cover *A Report from the Front Lines* Michael Shahan,2009 In tribute to the ongoing influence of Robert Benne director of the Center for Religion and Society at Roanoke College fourteen of his friends and colleagues have produced A Report from the Front Lines in which they consider the role of theology in the public arena at this turn of the twenty first century They speak powerfully to the cultural paralysis of the Western world where educated leaders claim that morality must not interfere with science or public policy by showing the relevance of orthodox Christianity

to humanity's most pressing problems. The constant theme weaving through the volume is Benne's own conviction that Christians can and must engage in the public square with positions forged out of their religious commitments using arguments whose presuppositions allow room for special revelation but whose resultant logic is translated into a shared universal rationality. Rhetorics in the New Millennium James D. Hester, 2010-06-10 Some of the most renowned modern practitioners of New Testament rhetorical criticism including Elisabeth Schussler Fiorenza, Wilhelm Wuellner, and the editors themselves provide new rhetorical readings of New Testament texts. Organized into three distinct sections, *Rhetorics in the New Millennium* provides a cutting edge approach to this thorny issue in biblical studies. The first section is a collection of three essays that are primarily theoretical in nature and concerned with examining general theories of rhetoric. The second section is a series of specific studies, each using a different accepted theoretical model to analyze a given text. The final section presents valuable appendices which summarize information about the content of certain theoretical models of criticism. Finally, a bibliography listing a wide variety of rhetorical critical studies and reference works is included.

Boundaries of Our Habitations Delwin Brown, 1994-01-01 Brown's theory of tradition stands on its own as a significant contribution to the academic study of religions, but it also provides the framework for a challenging critique of contemporary American theologies, conservative, liberal, and radical, and the basis for a novel understanding of the significance of the racial, ethnic, feminist, and class identified theologies now emerging.

Megachurches and Social Engagement Mark J. Cartledge, Sarah Dunlop, Heather Buckingham, Sophie Bremner, 2019-06-07 This book is the first detailed academic study of megachurches in the UK. In particular, it explores the nature and significance of social engagement by megachurches in the context of London. The research contains empirical case studies of two Anglican and three African diaspora Pentecostal churches. As well as exploring the range of social engagement activities provided by these churches, the study offers explanations in terms of theological motivations and the influence of globalisation. Subsequently, the book outlines the importance of the findings for the relationship between church and society in the contemporary context, addressing the implications for social policy and practice. The book advances discussions in public theology, megachurch studies, Pentecostal and Charismatic studies, and ecclesiology.

Christian Ethics and Contemporary Moral Problems Michael C. Banner, 1999-09-28 This book addresses such key ethical issues as euthanasia, the environment, biotechnology, abortion, the family, sexual ethics, and the distribution of health care resources. Michael Banner argues that the task of Christian ethics is to understand the world and humankind in the light of the credal affirmations of the Christian faith and to explicate this understanding in its significance for human action through a critical engagement with the concerns, claims, and problems of other ethics. He illustrates both the distinctiveness of Christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent. The book's importance lies in its attempt to show the crucial difference which Christian belief makes to an

understanding of these issues whilst at the same time demonstrating some of the weaknesses and confusions of certain popular approaches to them Theological Perspectives for Life, Liberty, and the Pursuit of Happiness A. Isasi-Diaz, M. Fulkerson, R. Carbine, 2013-11-07 Rather than wield religion as a weapon or a ruse in irrational appeals the book attempts to reimagine a shared American mythos and ethos by reminding us of our shared stake in creating an America committed to the life of all peoples and species and to the full developments of our capabilities as an exercise of liberty
