Constructing Cromwell Laura Lunger Knoppers, 2000-06-22 Constructing Cromwell traces the complex and shifting popular images of Oliver Cromwell from his first appearance as a public figure in the mid 1640s through the period of his power to his death and eventual disinterment after the restoration of the monarchy The meaning and impact of this enigmatic figure has long been debated in the context of mid seventeenth century crisis but contemporary representations of Cromwell have largely been neglected Cromwellian print Laura Knoppers argues transformed the courtly forms of Caroline ceremony portraiture and panegyric and in turn complicated and altered the cultural forms available to Charles II The book draws on extensive archival research including manuscript sources startling print ephemera and visual artefacts Placing canonical authors such as Milton Marvell Waller and Dryden alongside such neglected writers as George Wither and Payne Fisher Knoppers demonstrates how literary texts both respond and contribute to political and cultural change

**Commemoration and Oblivion in Royalist Print Culture, 1658-1667** Erin Peters, 2017-07-05 This book explores the measures taken by the newly re installed monarchy and its supporters to address the drastic events of the previous two decades Profoundly preoccupied with and indeed anxious about the uses and representations of the nation s recent troubled past the returning royalist regime heavily relied upon the dissemination in popular print of prescribed varieties of remembering and forgetting in order to actively shape the manner in which the Civil Wars the Regicide and the Interregnum were to be embedded in the nation s collective memory This study rests on a broad foundation of documentary evidence drawn from hundreds of widely distributed and affordable pamphlets and broadsheets that were intended to shape popular memories and interpretations of recent events It thus makes a substantial original contribution to the fields of early modern memory studies and the history of the English Civil Wars and early Restoration

**Oliver Cromwell's Kin, 1643-1726** David Farr, 2023-07-07 This study centres around three leading military statesmen who served under Oliver Cromwell but were also his kin and shared the experiences of the civil wars John Disbrowe 1608-80 Henry Ireton 1611-51 and Charles Fleetwood 1618-92 It seeks to develop our picture of their positions from the context of their kin link to Cromwell and how their private worlds shaped their public roles how kinship was part of the functioning of the Cromwellian state how they were seen and presented and how this impacted on their own lives and their kin before and after the Restoration Cromwell s career can be explored further by considering figures in his kinship network to show how the public and private overlapped and influenced each other through their interaction before and after 1660 This study aims to consider the trajectory of elements of Cromwell s network and how its functioning and the interaction of its constituent parts over time shaped the politics of the years 1643 to 1660 but also how the survival of some networks after 1660 were continuing communities of those willing to own their memories of the civil wars regicide and Cromwell A study of aspects of Cromwell s kin also provides examples of the continuities between those who resisted the Stuarts in the 1640s and 1650s and did so again in the 1680s Suitable for specialists in the area and

*Andrew Marvell A. D. Cousins*, 2016-03-02 This monograph studies how across the Folio of 1681 Marvell s poems engage not merely with different kinds of loss and aspiration but with experiences of both that were in mid seventeenth century England disturbingly new and unfamiliar It particularly examines Marvell s preoccupation with the search for home and with redefining the homeland in times of civil upheaval In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant Although focusing primarily on poems in the Folio of 1681 this book considers those poems in relation to others from the Marvell canon including the Latin poems and the satires from the reign of Charles II It closely considers them as well in relation to verse by poets from the classical past and the European especially English present

***Secular Chains*** Philip Connell, 2016 *Secular Chains* offers an original and richly contextualized account of the relationship between poetry and religious controversy between 1649 and 1745. This was a period of political conflict and intellectual upheaval in which traditional sources of spiritual authority were variously challenged and transformed. This study reveals the importance of English literary culture for our understanding of this process and sheds new light on the dynamics of change and continuity between the puritan revolution and the early Enlightenment. Based on extensive research in both printed and manuscript sources, the book combines detailed case studies of major literary figures with a sustained historical narrative linking the republican moment of the 1650s, the conflicts and crises of the Restoration, and the ecclesiastical politics of the early eighteenth century. Milton and Dryden provide the principal focus of the first three chapters, which explore the divisive issue of church settlement in the work of both writers together with the increasingly prominent rhetoric of anti-clericalism and irreligion in the poetry and polemics of the later seventeenth century. Subsequent chapters extend the book's argument to the embattled condition of the Church of England in the decades after 1688 and the significant contribution of contemporary literary culture to a range of religious and philosophical argument from heterodox free thinking to Newtonian natural theology. *Secular Chains* demonstrates the close and continued relationship between poetry and religious politics in the age of Milton and Pope and provides a new framework for understanding this complex and turbulent period in English literary history.

***Ghosts: A Social History, vol 1*** Owen Davies, 2024-08-01 Reveals changing perceptions of ghosts at different social levels from the Reformation through to the twentieth century in Britain and America. ***Supernatural and Secular Power in Early Modern England*** Marcus Hames, Victoria Bladen, 2016-04-01 For the people of early modern England, the dividing line between the natural and supernatural worlds was both negotiable and porous, particularly when it came to issues of authority. Without a precise separation between science and magic, the realm of the supernatural was a contested one that could be used both to bolster and challenge various forms of authority and the exercise of power in early modern England. In order to better understand these issues, this volume addresses a range of questions regarding the ways in which ideas, beliefs, and constructions of the supernatural threatened and conflicted with authority, as well as how the power of the supernatural could be used by authorities—monarchical, religious, legal, or familial—to reinforce established social norms. Drawing upon a range of historical literary and dramatic texts, the collection reveals intersecting early modern anxieties in relation to the supernatural: issues of control and the exercise of power at different levels of society, from the upper echelons of power at court to local and domestic spaces, and in a range of publication contexts: manuscript sources, printed prose texts, and the early modern stage. Divided into three sections—Magic at Court, Performance, Text, and Language, and Witchcraft—the

Devil and the Body the volume offers a broad cultural approach to the subject that reflects current research by a range of early modern scholars from the disciplines of history and literature By bringing scholars into an interdisciplinary dialogue the case studies presented here generate fresh insights within and between disciplines and different methodologies and approaches which are mutually illuminating

**Abraham** Charles R. Swindoll,2014-07-16 When we rewind history back to Abraham s era we encounter people who concocted false superstitions to explain the unexplainable Powerful kings claimed to be gods building massive pyramids to achieve immortality Out of this mass of misunderstandings one man emerged The man we know today as Abraham not only claimed that one true Creator existed but also staked his entire life on this belief Why thousands of years later are we still discussing the faith of this desert nomad One of America s most popular Bible teachers Pastor Chuck Swindoll answers that question and many more in this compelling and insightful biography that will inspire your own faith

**Civil Vengeance** Emily L. King,2019-09-15 What is revenge and what purpose does it serve On the early modern English stage depictions of violence and carnage the duel between Hamlet and Laertes that leaves nearly everyone dead or the ghastly meal of human remains served at the end of Titus Andronicus emphasize arresting acts of revenge that upset the social order Yet the subsequent critical focus on a narrow selection of often bloody revenge plays has overshadowed subtler and less spectacular modes of vengeance present in early modern culture In Civil Vengeance Emily L King offers a new way of understanding early modern revenge in relation to civility and community Rather than relegating vengeance to the social periphery she uncovers how facets of society church law and education relied on the dynamic of retribution to augment their power such that revenge emerges as an extension of civility To revise the lineage of revenge literature in early modern England King rereads familiar revenge tragedies including Marston s Antonio s Revenge and Kyd s The Spanish Tragedy alongside a new archive that includes conduct manuals legal and political documents and sermons Shifting attention from episodic revenge to quotidian forms Civil Vengeance provides new insights into the manner by which retaliation informs identity formation interpersonal relationships and the construction of the social body

*Stuart Succession Literature* Paulina Kewes, Andrew McRae, 2019 Moments of royal succession which punctuate the Stuart era 1603-1714 occasioned outpourings of literature Writers including most of the major figures of the seventeenth century from Jonson Daniel and Donne to Marvell Dryden and Behn seized upon these occasions to mark the transition of power to reflect upon the political structures and values of their nation and to present themselves as authors worthy of patronage and recognition This volume of essays explores this important category of early modern writing It contends that succession literature warrants attention as a distinct category appreciated by contemporaries acknowledged by a number of scholars but never investigated in a coherent and methodical manner it helped to shape political reputations and values across the period Benefitting from the unique database of such writing generated by

the AHRC funded Stuart Successions Project the volume brings together a distinguished group of authors to address a subject which is of wide and growing interest to students both of history and of literature It illuminates the relation between literature and politics in this pivotal century of English political and cultural history Interdisciplinary in scope the volume will be indispensable to scholars of early modern British literature and history as well as undergraduates and postgraduates in both fields
