strong intellectual and pragmatic reasons the rapid development of information technology advances in fertility treatment and genetic engineering feminist concern for environmental issues why feminism must rigorously engage with issues of a scientific and technological nature Science and the Construction of Women provides an important contribution to the opening up and broadening of debate in the field This book will be an important text for students of gender and women s studies and science studies It is also designed to be read by feminists both inside and outside the academy and to appeal to all those with interests in the sociology of knowledge and the history of ideas **Feminist Literary Studies** K. Ruthven,1990-09-13 K K Ruthven looks at the impact of Marxism structuralism and post structuralism on feminist critical practice **The Curse of Eve, the Wound of the Hero** Peggy McCracken,2010-11-24 In The Curse of Eve the Wound of the Hero Peggy McCracken explores the role of blood symbolism in establishing and maintaining the sex gender systems of medieval culture Reading a variety of literary texts in relation to historical medical and religious discourses about blood and in the context of anthropological and religious studies McCracken offers a provocative examination of the ways gendered cultural values were mapped onto blood in the Middle Ages As McCracken demonstrates blood is gendered when that of men is prized in stories about battle and that of women is excluded from the public arena in which social and political hierarchies are contested and defined through chivalric contest In her examination of the conceptualization of familial relationships she uncovers the privileges that are grounded in gendered definitions of blood relationships She shows that in narratives about sacrifice a father s relationship to his son is described as a shared blood whereas texts about women accused of giving birth to monstrous children define the mother s contribution to conception in terms of corrupted often menstrual blood Turning to fictional representations of bloody martyrdom and of eucharistic ritual McCracken juxtaposes the blood of the wounded guardian of the grail with that of Christ and suggests that the blood from the grail king s wound is characterized in opposition to that of women and Jewish men Drawing on a range of French and other literary texts McCracken shows how the dominant ideas about blood in medieval culture point to ways of seeing modern values associated with blood in a new light and how modern representations in turn suggest new perspectives on medieval perceptions "Rapt in Secret Studies"

Laurie Johnson,2010-07-12 Rapt in Secret Studies Emerging Shakespeares is a collection of new essays in Shakespeare Studies from a generation of scholars presently emerging out of Australia and New Zealand These 18 essays respond in a myriad of ways to the challenge of Prospero s phrase from The Tempest in which he tells his daughter Miranda that in his life before the island he had been rapt in secret studies to an early modern audience these words were likely to mean much more than a predilection for the black arts as modern audiences tend to hear in them Each of the key words used by Prospero evoked a range of meanings in early modern times to which the emerging scholars represented in this collection responded by imagining new pathways in Shakespeare Studies a field of study that has in recent times risked being marginalised even within the traditional liberal arts The secret studies of which Prospero speaks are in fact more liberal than dark and so the

response by new scholars to a challenge issued by one of Shakespeare's characters more than four centuries ago has a renewed sense of relevance in the academy today. The essays are divided into three sections each of which is oriented toward meanings that are specifically associated with one of the key terms in Prospero's phrase. The first section has essays concerned with excess in its various forms: jealousy, obsession, sex, violence, and even death, as well as with travel and its impact on ways of knowing about the world. In the second section, the nature of things about which the early modern could scarcely speak are taken into consideration with essays on prevailing early modern myths, infidelities, stillborn children, contagion, and the instruments of secrecy such as gossip and spies. Finally, in the third section, essays cover issues related both to early modern textual practice, the use of historical source materials in Shakespeare's writing, questions of multiple authorship, and the issue of early modern style and kinds of drama, and to more modern scholarly practice such as the role of Shakespeare in the New Bibliography and the New Historicism.

Translation, Authorship and the Victorian Professional Woman Lesa Scholl, 2016-02-17 In her study of Charlotte Brontë, Harriet Martineau, and George Eliot, Lesa Scholl shows how three Victorian women writers broadened their capacity for literary professionalism by participating in translation and other conventionally derivative activities such as editing and reviewing early in their careers. In the nineteenth century, a move away from translating Greek and Latin Classical texts in favour of radical French and German philosophical works took place. As England colonised the globe, Continental philosophies penetrated English shores, causing fissures of faith, understanding, and cultural stability. The influence of these new texts in England was unprecedented, and Eliot, Brontë, and Martineau were instrumental in both literally and figuratively translating these ideas for their English audience. Each was transformed by access to foreign languages and cultures, first through the written word and then by travel to foreign locales, and the effects of this exposure manifest in their journalism, travel writing, and fiction. Ultimately, Scholl argues, their study of foreign languages and their translation of foreign language texts, nations, and cultures enabled them to transgress the physical and ideological boundaries imposed by English middle class conventions.

Feminist Literary Criticism Mary Eagleton, 2014-06-06 Looks at the work of a range of critics including Elaine Showalter, Kate Millett, Gayatri Chakravorty Spivak, and the French feminists. The critical approaches encompass Marxist feminism and contemporary critical theory, as well as other forms of discourse. It also provides an overview of the developments in feminist literary theory and covers all the major debates within literary feminism, including male feminism.

Women as Objects of Men in Shakespeare's "The Merchant of Venice" Matthias Billen, 2011 Studienarbeit aus dem Jahr

2009 im Fachbereich Anglistik Literatur Note 2,0 Universität Trier Sprache Deutsch Abstract 1 Introduction The relationship between women and men and the broader social judicial familial psychological or political ramifications of this relationship is an ongoing topic in the cultural arena with discussions of varying degrees of intensity and often with extremely different conclusions The movement of feminism can be seen as initiator but also as a catalyst or as an outcome of these discussions But there is no monolithic block of feminism and no single literary theory of feminism but one major landmark in the evolution of feminism is the publication of Simone de Beauvoir's book *Le Deuxième Sexe* in 1949 By tracing back women's role and position in society with different methods she stresses that the oppression of women is due to patriarchy pervading almost all societies Turning back to literature this description of patriarchy can usefully be applied in analysing a drama such as Shakespeare's *The Merchant of Venice* 1998 The female characters in this comedy are embedded in societal structures of patriarchy This can be seen in the influence of father figures the economic principles which underlie their existence and the final subjection to their husbands even though they actively participate But eventually they remain in their traditional role not being able to subvert the societal system effectively To support this thesis the concept of feminism will be discussed especially in regard of de Beauvoir's viewpoint In a second step the role of women in the Renaissance will be concerned immediately referring to the play and its female characters

Gender, Madness, and Colonial Paranoia in Australian Literature Laura Deane, 2017-05-31 This book offers an

original and compelling analysis of women's madness, gender and the Australian family. Taking up Anne McClintock's call for critical works that psychoanalyze colonialism, this radical re-assessment of novels by Christina Stead and Kate Grenville provides a sustained account of women's madness and masculine colonial psychosis from a feminist postcolonial perspective. This book rethinks women's madness in the context of Australian colonialism. Taking novels of madness by Christina Stead and Kate Grenville as its point of critical departure, it applies a post-Reconciliation lens to the study of Australia's gender and racial codes to place Australian sexism and misogyny in their proper colonial context. Employing madness as a frame to rethink postcolonial theorizing in Australia, *Gender, Madness and Colonial Paranoia in Australian Literature* psychoanalyses colonialism to argue that Australia suffers from a cultural pathology based in the strategic forgetting of colonial violence. This pathology takes the form of colonial paranoia about race and gender, producing distorted gender codes and ways of being Australian. This book maps the contours of Australian colonial paranoia, weaving feminist literary theory, psychoanalysis and postcolonial theory with poststructuralist approaches to reassess the traditional canon of critical madness scholarship and the place of women's writing within it. This provocative work marks a radical departure from much recent feminist cultural and postcolonial criticism and will be essential reading for students of Australian literature, cultural studies and gender studies wanting a new insight into how the Australian psyche is shaped by settler colonialism. *Literary Studies in Action*

Alan Durant, Nigel Fabb, 2006-05-19 This is a textbook for the times which addresses itself brilliantly to the twin phenomena of expanding horizons and diminishing resources of English studies. David Lodge **Studying English Literature** Tory Young, 2008-05-22 *Studying English Literature* is a unique guide for undergraduates beginning to study the discipline of literature and those who are thinking of doing so. Unlike books that provide a survey of literary history or non-subject-specific manuals that offer rigid guidelines on how to write essays, *Studying English Literature* invites students to engage with the subject's history and theory whilst at the same time offering information about reading, researching and writing about literature within the context of a university. The book is practical yet not patronizing; for example, whilst the discussion of plagiarism provides clear guidelines on how not to commit this offence, it also considers the difficulties students experience finding their own voice when writing and provokes reflection on the value of originality and the concepts of adaptation, appropriation and intertextuality in literature. Above all, the book prizes the idea of argument rather than insisting upon formulaic essay plans and gives many ways of finding something to say as you read and when you write. In chapters on Reading, Argument, Essays, Sentences and References.
