Making Sense of Fatherhood Tina Miller, 2010-11-18 As family and work demands become more complex who is left holding the baby Tina Miller explores men s experiences of fatherhood and provides unique insights into paternal caring changing masculinities and men s relations to paid work She focuses on the narratives of a group of men as they first anticipate and then experience fatherhood for the first time Her original longitudinal research contributes to contemporary theories of gender against a backdrop of societal and policy change The men s journeys into fatherhood are both similar and varied and they illuminate just how deeply gender permeates individual lives everyday practices and societal assumptions around caring for young children This book acts as a companion to Making Sense of Motherhood Cambridge University Press 2005 and together these innovative studies reveal how gendered practices around caring become enacted

New Fathers? Contemporary American Stories of Masculinity, Domesticity and Kinship Helena Wahlström, 2010-10-12 What do novels such as Annie Proulx s The Shipping News Michael Cunningham s A Home at the End of the World and Jayne Anne Phillips MotherKind have in common with films such as Smoke and Mrs Doubtfire This study explores the intersection of masculinity and domesticity in contemporary film and literature It argues that these texts produced since the 1990s address with some urgency the notion of new fatherhood in the United States They offer explorations of the idea that American fatherhood around the turn of the twenty first century is changing and they problematize the legitimacy of new fathers and alternative families in a national culture where the old patriarch and the

nuclear family still often loom large in the imagination of many Americans *Focus on Fathering* Robin Sullivan, 2004-01-01 Takes an informative and challenging look at fathering and what it means to be a father It discusses the fascinating moving and often contradictory role in which Australian men find themselves as fathers and looks at issues such as What is a good father these days What is it fathers provide that is so influential to a child's development Is fathering importantly different to mothering Is it a role that a single mother or a substitute parent can take What do fathers and children say What do women think Practitioners share their research and experiences of working with fathers and explore many aspects of fathering including the role they play in a child's life stereotypes issues and pressures they face Bringing Criminological Theory to Life Emily Turner, Rose Broad, Caroline Miles, Shadd Maruna, 2025-08-14 Taking a unique approach to bring the theories of desistance and of development criminology to life the chapters in this book are framed around a single individual's life story which have inspired rigorous evidence based and scholarly chapters on key issues in criminology **Public Health Practice and the School-Age Population** Diane DeBell, 2007-06-29 The importance of the issues surrounding public health can never be underestimated and the significance of child health within the overall public health framework is of particular note Professionals working with the school age population are faced with a multitude of challenges particular to that age group making the effective planning and implementation What is a Parent Andrew Bainham, Shelley Day Sclater, Martin Richards, 1999-08-23 This book presents an interdisciplinary exploration of the nature of parenthood and its various manifestations in contemporary society **The Awkward Spaces of Fathering** Stuart C. Aitken, 2016-03-23 Societal notions of fathers have evolved from the distant breadwinner through genial dad and masculine role model to today's equal co parent This book seeks to explore the spaces and movements of men as fathers Weaving together theories of space sexuality and political identity with the stories of fathers from a range of sources including popular culture it discusses the way in which geographies of space can disconnect and disempower fathers while societal notions marginalize and disassociate them from raising children It explores how fathering identities are shaped by family and community spaces and aims to move the definition of fathering beyond its definition in opposition to mothering In doing so it provides insights into the contradictory nature of father's lives and argues that rather than moving away from the traditional notions of masculine roles that the emotional work of fathering in itself is an heroic act **Children's Exposure to Domestic Violence** Yifat Carmel, 2023-12-07 This book bridges together research theory and practice to offer future directions for new treatment policy and context based intervention with children exposed to domestic violence Centering the voices of children this book aims to reveal and fill in the gaps of knowledge concerning deep levels of exposure to the domestic violence phenomenon The book begins with a critical review of the whole field covering theory research intervention and policy The author then puts forward a new data based conceptualization for understanding this field of abuse and its application in practice Drawing on her rich academic and clinical experience Carmel includes treatment recommendations planning and intervention strategies

as well as suggestions for how to deal with the phenomenon at policy level in the legal social community and education fields

Of War and Men Ralph LaRossa, 2011-06-01 Fathers in the fifties tend to be portrayed as wise and genial pipe smokers or distant emotionless patriarchs This common but limited stereotype obscures the remarkable diversity of their experiences and those of their children To uncover the real story of fatherhood during this transformative era Ralph LaRossa takes the long view from the attack on Pearl Harbor up to the election of John F Kennedy revealing the myriad ways that World War II and its aftermath shaped men Offering compelling accounts of people both ordinary and extraordinary Of War and Men digs deep into the terrain of fatherhood LaRossa explores the nature and aftereffects of combat the culture of fear during the Cold War the ways that fear altered the lives of racial and sexual minorities and how the civil rights movement affected families both black and white Overturning some calcified myths LaRossa also analyzes the impact of suburbanization on fathers and their kids discovering that living in the suburbs often strengthened their bond And finally looking beyond the idealized dad enshrined in TV sitcoms Of War and Men explores the brutal side of family life in the postwar years LaRossa's richly researched book dismantles stereotypes while offering up a fascinating and incisive chronicle of fatherhood in all its complexity

The Future of Motherhood in Western Societies Gijs Beets, Joop Schippers, Egbert R. te Velde, 2010-12-06 Most people value to have children still highly But what is the optimal moment to have the first The decision on having children or not and if yes on the timing of the first is one of the most difficult ones to make also because it more or less coincides with various other heavy decisions on shaping the life course like on union formation labour market career housing accommodation etc People realise that having children will fundamentally change their life and in order to fit this unknown and irreversible adventure perfectly into their life course postponement of the first birth is an easy way out as long as doubts continue and partners try to make up their mind Modern methods of birth control are of course a very effective help in that period What is the best moment to have the first child And to what moment is postponement justified There are no easy answers to these questions Best solutions vary per person as they depend on personal circumstances and considerations the partner may have conflicting ideas housing accommodation job income free time activities Existing parental leave and child care arrangements are weighted as well Unfortunately the biological clock ticks further And also unfortunately assisted reproductive technology IVF etc is unable to guarantee a successful outcome Several couples end up without children involuntarily and that may lead to sorrow and grief This interdisciplinary book overviews the process of postponement and its backgrounds in modern Western societies holistically both at the personal and the societal level Contributions come from reproductive evolutionary biological and neurological sciences as well as from demography economy sociology and psychology It holds not only at women but also at men

becoming first time fathers The discussion boils down to a new policy approach for motherhood and emancipation on how to shape work and family life It is argued that a public window where one can compose a cafeteria like set of supportive arrangements according to personal preferences could lead to a break in the rising age at first motherhood **The Wiley Blackwell Encyclopedia of Family Studies, 4 Volume Set** Constance L. Shehan,2016-02-29 The Wiley Blackwell Encyclopedia of Family Studies presents a comprehensive interdisciplinary collection of the key concepts trends and processes relating to the study of families and family patterns throughout the world Offers more than 550 entries arranged A Z Includes contributions from hundreds of family scholars in various academic disciplines from around the world Covers issues ranging from changing birth rates fertility and an aging world population to human trafficking homelessness famine and genocide Features entries that approach families households and kin networks from a macro level and micro level perspective Covers basic demographic concepts and long term trends across various nations the impact of globalization on families global family problems and many more Features in depth examinations of families in numerous nations in several world regions 4 Volumes www.familystudiesencyclopedia.com Diaries of a Forgotten Parent Wendy A. Paterson,2010-02-19 Diaries of a Forgotten Parent Divorced Dads on Fathering Through and Beyond Divorce opens an intimate window on the lives of divorced men Literature on divorce focuses primarily on its effects on women and children but fair and personal accounts of the lived experiences of custodial and non custodial fathers are less available In this highly accessible text ten American men share intensely personal reflections of guilt pain frustration sacrifice loneliness and pride The men do not see themselves as exemplary rather their stories are graphically honest revealing what Paterson calls ordinary men with all their warts The author reviews significant works on the male experience of divorce from psychological legal educational and sociological experts interspersing commentary and research with the men s own voices From the initial discussion of why men marry and why they divorce through the men s painful memories of being pushed out of their children s lives by angry and resentful mothers the author illuminates the legal fiscal emotional and practical experiences of men struggling to reinvent their fathering while they find themselves reconfigured into deserters deadbeats and visitors The societal myth that fathers are less valuable parents than mothers is thoroughly deconstructed in this text The book will help divorced and divorcing men and those who work with them to fully understand the experiences of fathers who never stopped loving and caring for their children in spite of the fact that the contributions of fathers are still largely discounted by schools courts and worst of all by their children s mothers From this book readers will understand that there are just too many reasons why fathers must never be forgotten in the lives of their children **New Research on Postpartum Depression** Adrian I. Critical Perspectives on Masculinities and Relationalities Anneli Häyrén, Helena Wahlström Henriksson, 2016-05-30 This volume explores which relations produce or maintain masculinities and certain gendered systems of power and the consequences of these gender constructions that further gender research To understand the meanings of masculinity masculinities and relationalities as critical concepts in gender studies it takes a wide theoretical grip that spans over several research fields From a feminist perspective it critically investigates masculinities as relationally constructed by scrutinizing which relations construct masculinity within a certain gendered system of power such as the nation the family or the workplace and explores how this is done In relation to what is hence in spite of its almost vulgar rhetorical simplicity an important question in investigating and problematizing gender

Imagining Soldiers and Fathers in the Mid-Victorian Era Dr Susan Walton, 2013-04-28 Beginning with the premise that women's perceptions of manliness are crucial to its construction Susan Walton focuses on the life and writings of Charlotte Yonge as a prism for understanding the formulation of masculinities in the Victorian period Yonge was a prolific writer whose bestselling fiction and extensive journalism enjoyed a wide readership Walton situates Yonge's work in the context of her family connections with the army showing that an interlocking of worldly and spiritual warfare was fundamental to Yonge's outlook For Yonge all good Christians are soldiers and Walton argues persuasively that the medievalised discourse of sanctified violence executed by upright moral men that is often connected with late nineteenth century Imperialism began earlier in the century and that Yonge's work was one major strand that gave it substance Of significance Yonge also endorsed missionary work which she viewed as an extension of a father's duties in the neighborhood and which was closely allied to a vigorous promotion of refashioned Tory paternalism Walton's study is rich in historical context including Yonge's connections with the Tractarians the effects of industrialization and Britain's Imperial enterprises Informed by extensive archival scholarship Walton offers important insights into the contradictory messages about manhood current in the mid nineteenth century through the works of a major but undervalued Victorian author
