Circular Economy Business Model for Construction Organisations Osamudiamen Otasowie, Clinton Ohio Aigbavboa, Ayodeji Emmanuel Oke, 2025-05-14 This book takes readers through the process of integrating the circular economy into the business model of construction organizations. It offers not only theory but also a workable implementation plan. This approach guarantees that readers can implement these insights into their construction operations with confidence. It includes in-depth analyses of the circular economy business model and the peculiarities of the construction sector, providing an approach that considers both the opportunities and challenges faced by this sector. In addition, it shows how the circular economy framework can continue to be relevant and adaptable by addressing the current adoption level of the circular economy in construction and preparing readers for new developments. Lastly, the book demonstrates how circular value propositions can be used to implement the circular economy in the construction sector, thus increasing revenue and profits in construction.
