Diversity, equity and inclusion in sport and leisure Katherine Dashper, Thomas Fletcher, 2016-01-08 Despite the mythology of sport bringing people together and encouraging everyone to work collectively to success modern sport remains a site of exclusionary practices that operate on a number of levels Although sports participation is in some cases at least becoming more open and meritocratic at the management level it remains very homogenous dominated by western white middle aged able bodied men This has implications both for how sport develops and how it is experienced by different participant groups across all levels Critical studies of sport have revealed that rather than being a passive mechanism and merely reflecting inequality sport via social agents interactions with sporting spaces is actively involved in producing reproducing sustaining and indeed resisting various manifestations of inequality The experiences of marginalised groups can act as a resource for explaining contemporary political struggles over what sport means how it should be played and by whom and its place within wider society Central to this collection is the argument that the dynamics of cultural identities are contextually contingent influenced heavily by time and place and the extent to which they are embedded in the culture of their geographic location They also come to function differently within certain sites and institutions be it in one s everyday routine or leisure pursuits such as sport Among the themes and issues explored by the contributors to this volume are social inclusion and exclusion in relation to class race and ethnicity gender and sexuality social identities and authenticity social policy deviance and fandom This book was published as a special issue of *Sport in Society* [Inclusive Leisure](#) Mary Ann Devine, Lynn Anderson, 2023 *Inclusive Leisure* A Strengths Based Approach With HKPropel Access provides a blend of theoretical and practical information moving beyond leisure programming and service delivery to consider how inclusivity should be applied to administration infrastructure design community relations and more *Researching Disability Issues* Moore, Michelle, Beazley, Sarah, Maelzer, June, 1998-03-01 This book is designed to meet a growing need for clear illustrations of how to carry out research which seeks to explore disability issues It aims to demonstrate the value of a critical attention to social rather than medical starting points for researching disability through reviewing a variety of studies which look at different aspects of disabled people s lives *EBOOK: Researching Disability Issues* Michelle Moore, Sarah Beazley, June Maelzer, 1998-03-16 This book is designed to meet a growing need for clear illustrations of how to carry out research which seeks to explore disability issues It aims to demonstrate the value of a critical attention to social rather than medical starting points for researching disability through reviewing a variety of studies which look at different aspects of disabled people s lives Different methodological approaches and research techniques are considered ranging from analysis of observation data concerning disabled children in schools to rich conversation based data which focuses on family life A central theme concerns the pivotal role of disabled people in research The book provides substantive examples of the dilemmas which face researchers and connects these to ideas for individual personal action Disabled and non disabled researchers professionals and students from a wide range of disciplines will find the presentation of both research findings

and debates informative and of interest *Gender, Disability, and Tourism in Africa* Erisher Woyo, Hellen Venganai, 2022-11-10 This book explores the intersection of gender and disability in the context of tourism In part the book foregrounds feminist theorising of intersectionality by examining how gender can overlap with other social identities to contribute to more systemic oppression domination discrimination and marginalisation of certain categories of people Our point of departure is that disability does not operate in isolation as it is constituted and experienced within an already gendered social and tourism environment With substantial research on the intersection of gender and tourism on the one hand and the intersection of disability and tourism on the other hand the interconnectedness of gender and disability and the implications this has on tourism policy and practice remains understudied Thus the book provides a critical lens that helps unpack underlying assumptions about gender and disability while questioning the dominant ideas about gender and disability reproduced through tourism policies and institutional practices in an African context This book will be of interest to scholars and researchers in Gender Studies Disability Studies and Tourism Studies particularly those with a research interest in Africa

Exploring the Leisure-Health Nexus Hazel Maxwell, Richard McGrath, Nicole Peel, Janette Young, 2022-11-14 By exploring past current and future intersections between leisure and health this book considers research and academic thought to reveal and critique the nuanced ways that leisure impacts health as well as considering how health professions use leisure as a tool Aided by the diverse chapters readers will be challenged to explore future intersections between leisure and health using an overarching eco ecological environmental bio biological psycho psychological social sociological lens Many of the chapters include case studies which consider further developing leisure and health themes particularly in relation to a number of emerging environmental health and societal challenges that confront the world The book will be of significant interest to researchers academics practitioners in the leisure health sport tourism recreation events social science and arts disciplines
