Constructive Christian Theology In The Worldwide Church:

Constructive Christian Theology in the Worldwide Church William R. Barr, 1997 **Theology in Global Context** Amos Yong, Peter G. Heltzel, 2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology. Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology. Since then he has sought to develop theology creatively and responsibly within the world context. The original essays in this volume, written in his honour by fellow theologians, participate in and model the kind of dialogical global theology embodied in Neville's work.

Christianity and Ecological Theology E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so. These include a number of recent edited volumes, each covering a range of topics and consolidating many of the emerging insights in ecological theology. The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature, also in South Africa.

Introducing Christian Theologies, Volume Two Victor I. Ezigbo, 2015-12-31 Should Christianity's theological face remain largely European and North American in the twenty-first century in the wake of the expansion of Christianity in sub-Saharan Africa, Asia, and Latin America? The question about the theological face of Christianity cannot be ignored. For too long African, Asian, and Latin American theologians have been left out of mainstream theological discussions. Few standard textbooks on Christian theology acknowledge the unique contributions theologians from these continents have made to global Christianity. *Introducing Christian Theologies: Voices from Global Christian Communities* is a two-volume textbook that alters the predominantly European and North American theological face of Christianity by interacting with voices of Christian communities from across the globe. *Introducing Christian Theologies* explores the works of key theologians from around the world, highlighting their unique contributions to Christian theology and doctrine.

Why Evangelical Theology Needs the Global Church Stephen T. Pardue, 2023-08-22 Christianity Today 2024 Award of Merit. Missions Global Church. Christian theologians and students are aware that evangelicals in the Majority World now

outnumber those in North America and Europe and many want to know more about emerging voices in the global church At the same time these voices are largely absent from Western evangelical theology Stephen Pardue seeks to bridge this divide by arguing biblically and theologically that it is imperative for Western evangelical theology to engage with the global church and he provides examples of how this can be done Case studies throughout the book illustrate opportunities for fruitful engagement with non Western theology in various areas of Christian doctrine Readers will be given an introduction to the riches available within the worldwide body of Christ and learn how to engage productively with the global church

Globalizing Theology Craig Ott, Harold A. Netland, 2006-10-01 One of the most powerful forces in the twenty first century is the increasing phenomenon of globalization In nearly every realm of human activity traditional boundaries are disappearing and people worldwide are more interconnected than ever Christianity has also become more aware of global realities and the important role of the church in non Western countries Church leaders must grapple with the implications for theology and ministry in an ever shrinking world *Globalizing Theology* is a groundbreaking book that addresses these issues of vital importance to the church It contains articles from leading scholars including Tite Ti nou Kevin Vanhoozer Charles Van Engen M Daniel Carroll R Andrew Walls Vinoth Ramachandra and Paul Hiebert Topics covered include the challenges that globalization brings to theology how we can incorporate global perspectives into our thinking and the effect a more global theology has on a variety of important issues

From Historical to Critical Post-Colonial Theology Robert S Heaney, 2016-05-26 What is post colonial theology How does it relate to theology that emerged in historically colonial situations These are two questions that get to the heart of Robert S Heaney s work as he considers the extent to which theologians predating the emergence of post colonial theology might be considered as precursors to this theological movement Heaney argues that the work of innovative theologians John S Mbiti and Jesse N K Mugambi important in their own right must now also be considered in relation to the continued emergence of post colonial theology When this is done fresh perspectives on both the nature of post colonial theology and contextual theology emerge Through a sympathetic and critical reading of Mbiti and Mugambi Heaney offers a series of constructive moves that counter the ongoing temptation toward acontextualism that continues to haunt theology both in the North and in the South

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no *Global Dictionary of Theology* a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The *Global Dictionary of Theology* is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the *Global Dictionary of Theology* is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus

a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti K rkk inen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today s global context

their various contexts throughout history Finally with the combined efforts of several scholars we have compiled as complete a bibliography of Ren s published works as possible *Mapping Systematic Theology in Africa* Ernst M Conradie,Charl E Fredericks,2004-08-01 The emergence of an indigenous African theology especially since the 1960s is well documented A wealth of literature has been published in the context of African theology especially over the last two or three decades This indexed bibliography contains a number of publications in and for the African context specifically relevant to the fields of systematic theology and ethics *Re-imagining African Christologies* Victor I. Ezigbo,2010-02-08 Who do you say that I am Mark 8 29 is the question of Christology By asking this question Jesus invites his followers to interpret him from within their own contexts history experience and social location Therefore all responses to Jesus s invitation are contextual But for too long many theologians particularly in the West have continued to see Christology as a universal endeavor that is devoid of any contextual influences This understanding of Christology undermines Jesus s expectations from us to imagine and appropriate him from within our own contexts In *Re-imagining African Christologies* Victor I Ezigbo presents a constructive exposition of the unique ways that many African theologians and lay Christians from various church denominations have interpreted and appropriated Jesus Christ in their own contexts He also articulates the constructive contributions that these African Christologies can make to the development of Christological discourse in non African Christian communities *The Holy Spirit* Donald G. Bloesch,2005-12-02 Donald G Bloesch s wide ranging and in depth reflection on the presence reality and ministry of the Holy Spirit serves as a landmark to those seeking a faithful theological understanding of the Holy Spirit *Disciples and Theology* Stephen Sprinkle,1999 Although the Christian Church Disciples of Christ has consciously avoided formal creeds Disciples have through their history formulated their thought in distinctive theological ways Creation and Salvation: A companion on recent theological movements E. M. Conradie,2012 Christians trying to save the planet have to relate creation with salvation This volume explores the ways in which this task is approached by a wide range of recent theological movements *The Trinitarian Dharma* Pabitra Mani Bhandari,2025-02-25 As the gospel continues to spread to the farthest corners of the world the Christian faith encounters an array of diverse cultures religions philosophies and belief systems This encounter serves as a catalyst for transformation as Christianity both influences and is influenced by the new frontiers it reaches The book at hand endeavors to explore this dynamic process particularly focusing on the Trinitarian theology as a potent force for transformation Moreover it seeks to uncover the resonance between Christian concepts and the rich tapestry of Dharma thereby enhancing our understanding of the Trinity In essence this book serves as a pivotal example of how abstract theological ideas can be made relevant and meaningful in the context of a multicultural and multireligious world It embodies an approach to Christian theology that is both interreligious and interdisciplinary emanating from a global Christian perspective that embraces diversity and dialogue The Community of the Weak Hans-Peter Geiser,2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most

creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story *Global Dictionary of Theology* William A. Dyrness, Veli-Matti Kärkkäinen, 2008-11-10 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today s global context
