Prevention and Consultation A. Michael Dougherty,2012-12-20 This fifth book in the Prevention Practice Kit relates prevention and consultation in the helping professions a timely discussion that addresses prevention ecological principles and multicultural and social justice issues together in the modern world The book includes a brief overview of consultation its characteristics the skill sets required of consultants the roles consultants take on consultation models and the research base for consultation Back cover *The International Handbook of Consultation in Educational Settings* Chryse Hatzichristou,Sylvia Rosenfield,2017-03-16 The rapid changes in the composition of school age youth around the world have catalyzed a growing concern about how to address children s mental health and education Grounded in this increasingly global perspective The International Handbook of Consultation in Educational Settings is designed to provide a multicultural transnational approach to consultation theory research training and practice in educational settings With chapters written by geographically diverse and prominent scholars across the field of school psychology this handbook captures the range of ways in which consultation services are trained implemented and researched internationally Written for practitioners researchers faculty members and graduate students in the fields of school psychology school counseling special education and educational psychology this volume is the first of its kind to provide a comprehensive look at consultation in learning environments across the world The International

Handbook of Consultation in Educational Settings offers various perspectives on models implementation training and research on school consultation After an introduction to the volume by the editors contributors to Part II examine school based consultation around the world to explore how consultation services are implemented in different countries Part III addresses cross cultural issues in consultation particularly at a systems level Part IV presents themes related to processes and issues in the implementation of consultation by focusing on approaches in various countries The chapters in Part V focus on consultation training offering insights into the development of students and professionals into effective consultants in cross cultural and systemic contexts Part VI describes how practitioners can contribute to the body of research on consultation through careful planning and implementation of their work Finally the editors summarize key concepts and findings in a concluding chapter

Nurses as Consultants Susan L. Norwood,1998 Norwood introduces a five phase nursing consultation process that helps nurses resolve actual or potential problems related to client health status or health care delivery This consultation process focuses specifically on gaining entry problem identification action planning evaluation and disengagement

The Knowledge Creation Potential of Management Consulting Francesco Ciampi,2008 The Knowledge Creation Potential of Management Consulting interprets management consulting from a knowledge perspective and proposes a general conceptual framework for investigating and interpreting that potential To begin with the main dynamics of change that characterize today s demand for management consulting is outlined and is it suggested that firms are becoming increasingly aware of the real cognitive rather than only the economic value generation potential that can be activated through the consulting relationship Also the possible pathways for evolutionary transformation of consulting practices models and roles that consulting firms could follow if they want to take advantage of the important changes that are taking place are looked at Next a definition of management consulting is proposed which aims to identify the distinctive ontological real essential and relatively stable features of this particular service and emphasizes the mainly cognitive nature of its value creation potential Furthermore two approaches to interpreting management consulting are discussed the diachronic approach and the synchronic approach To conclude the theories interpreting knowledge creation processes as knowledge conversion processes are explained and applied to the specific context of management consulting relationships

Building Competence in School Consultation Daniel S. Newman,Sylvia A. Rosenfield,2024-01-22 Building Competence in School Consultation Second Edition directly addresses the need for practical comprehensive consultation training including support materials for school psychologists counselors and other professionals working in schools School psychologists consistently indicate that consultation is a crucial component of their duties but that they lack sufficient opportunities to develop their corresponding knowledge skills and confidence during graduate training Drawing from evidence based approaches as well as experienced instructors real world toolkits these essential perspectives and activities approach the standard and less common challenges of the school consultant role Written by two leading experts in consultation this book

brings school psychology research directly to graduate students and both novice and experienced practitioners providing invaluable context reflection activities videos from fellow consultation experts and resources that translate academic findings into skills ready for immediate use This revised and expanded second edition includes two new chapters one on collaboration and consultation on teams and another on teleconsultation along with thoroughly updated content related to socially just and culturally responsive consultation practices refreshed practice materials including rubrics and videos references to newly published research and the latest professional standards and updated activities for readers all of which are freely downloadable

Entry Strategies for School Consultation Edward S. Marks, 1995-03-17 Using a holistic approach to take intervention from an individual to a systemic level this book focuses on the front line practical issues faced by the consultant attempting to gain entry into a school Opening with a review of consultation and its purposes this unusually practical volume describes in detail how to Define consultant functions Make decisions about where to enter the system Build support among key school system staff who are in a position to facilitate initial entry Garner information on the school s lines of authority communication networks missions values goals and traditions Determine how practical the project is to the school Ascertain whether financial personnel and other resources are available so the project can work Chapters also cover logistical planning especially the day to day steps needed to facilitate consultation including time management utilization of existing school resources sources of information and practical ways to turn obstacles into assets A comprehensive guide to entering the school system as a consultant the book comes complete with prototype forms questionnaires for examining consultant competency and rating sheets for tracking the consultation process Veteran consultants and newcomers will find this book an invaluable resource for gaining initial entry and also for expanding the consultant s role within the system
