Handbook of Research on International Consumer Law, Second Edition Geraint Howells, Iain Ramsay, 2018-07-27
Consumer law and policy continues to be of great concern to both national and international regulatory bodies and the second edition of the Handbook of Research on International Consumer Law provides an updated international and comparative analysis of the central legal and policy issues in both developed and developing economies Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense B2C Arbitration: Consumer Protection in Arbitration Alexander J. Belohlávek, 2012-10-01 Consumer protection has become a phenomenon of the past years and the combination of consumer protection and arbitration is especially sensitive Some countries experience tens of thousands of consumer arbitrations each year while others significantly limit or even entirely exclude arbitration in consumer disputes Many countries have undergone certain reforms in consumer disputes the main objective of which is the protection of consumers in arbitration The controversial variable is the degree of protection to be afforded to the consumer both under the applicable substantive law and in procedural terms These are the main issues addressed in this book Apart from the key topic the author has extensively elaborated on certain fundamental categories such as public interest and public policy all primarily in connection to the procedural mechanisms of consumer protection he has also analyzed the applicable European law and the case law of the ECJ and offered an overview of the individual systems employed in both European and non European countries especially the USA and Canada An integral part of this book is an extensive comparison and analysis of the voluminous case law several tens of decisions with reference to more than three hundred other available court decisions The book also focuses on the position of the consumer in the individual procedural stages the intervention of courts in arbitration motivated by consumer protection the individual stages of proceedings recognition and enforcement of arbitral awards rendered in consumer disputes both in domestic context and in the international milieu etc The international practice significantly influences the domestic environment in the individual countries The key issue in the EU countries is in principle the enforcement of EU standards which influence the domestic models of consumer protection primarily in connection with the autonomous EU interpretation of a number of institutions Many related issues have not yet been addressed in the case law of certain states In fact some of them have never even been discovered Besides the enforcement of foreign arbitral awards requires inter alia the compliance with extra EU international obligations binding on the individual states And finally arbitration is not regulated by the EU law as opposed to consumer protection Naturally arbitration is to a significant extent regulated by international law This results in conflicts between

national international interpretation and interpretation pursuant to the EU law where the circumstances allow to apply the EU law This book is intended for all readers who have any experience with enforcement of consumer rights as well as for all professionals dealing with arbitration in general It is therefore intended for general legal practitioners lawyers primarily arbitrators of course but also for judiciary dealing with civil matters in the broadest sense Apart from a voluminous case law the book quotes from a number of domestic and foreign sources and above all offers a long list of structured bibliography and detailed subject index as well as a table of states table of cases and list of legal sources It is therefore not only an important tool for the practice but also a useful instrument for academics lawyers as well as other professionals

Modern Criminal Procedure Yale Kamisar, Wayne R. LaFare, Jerold H. Israel, 1981

Handbook of Research on International Consumer Law Geraint G. Howells, I. Ramsay, Thomas Wilhelmsson, 2010 This is a truly international effort and one with a strong commitment to human rights by the highly reputable authors coming from different jurisdictions The many facets of today's consumer law are presented to the reader including developing countries a fascinating effort in a dynamically emerging field of law We are comprehensively informed about such bread and butter areas as advertising unfair terms consumer guarantees product safety and liability consumer credit and redress But traditional consumer law concepts and remedies are facing challenges in more complex areas like services of general internet where consumers and private users should enjoy equal access to universal services with the internet where speed must not be a pretext to eliminate standards of fair dealing with risky investment services under the problematic paradigm shift from investor protection to investor confidence A book to read to think about to work with for everybody interested in the future of consumer markets and law in a time of economic crisis Norbert Reich University of Bremen Germany This is a richly interesting collection of essays written by leading names in the field It offers a thoroughly reliable survey of key tensions and challenges in modern consumer law and brilliantly combines thematic overview with detailed analysis It will stimulate comparative thinking it will provide a source of information and it will be welcomed by consumer law scholars all over the world Stephen Weatherill University of Oxford UK Consumer law and policy has emerged in the last half century as a major policy concern for all nations This Handbook of original contributions provides an international and comparative analysis of central issues in consumer law and policy in developed and developing economies The Handbook encompasses questions of both social policy and effective business regulation Many of the issues are common to all countries and are becoming increasingly globalised due to the growth in international trade and technological developments such as the Internet The authors provide a broad coverage of both substantive topics and institutional questions concerning optimal approaches to enforcement and the role of class actions in consumer policy It also includes comparative insights into the influential EU and US models of consumer law and relates consumer law to contemporary trends in human rights law Written by a carefully selected group of international experts this text represents an authoritative resource for understanding contemporary and future developments in consumer law This

Handbook will provide students researchers and policymakers with an insight to the main policy debates in each context and provide models of legal regulation to assist in the evaluation of laws and the development of consumer law and policy

Product Liability Law in Transition Dr Magdalena Tulibacka, 2013-02-28 This volume examines the evolution of Central European product liability systems with particular reference to the effect of the implementation of the Product Liability Directive in the context of the recent enlargement of the EU This book also provides a comparison of how product liability law has evolved in the socialist states comparing it to developments taking place in the West Using product liability law this study offers a valuable insight into the necessary features and requirements of the harmonization of laws between the EU and post socialist Europe Predominantly legal in scope it also takes account of the importance of extra legal elements in law reform As such this book will be a valuable resource for those interested in European Law as well as those working in the area of Consumer and Product Liability law

Legal Certainty in a Contemporary Context Mark Fenwick, Stefan Wróblewski, 2016-04-02 This book addresses issues concerning the shifting contemporary meaning of legal certainty The book focuses on exploring the emerging tensions that exist between the demand for legal certainty and the challenges of regulating complex late modern societies The book is divided into two parts the first part focusing on debates around legal certainty at the national level with a primary emphasis on criminal law and the second part focusing on debates at the transnational level with a primary emphasis on the regulation of transnational commercial transactions In the context of legal modernity the principle of legal certainty the idea that the law must be sufficiently clear to provide those subject to legal norms with the means to regulate their own conduct and to protect against the arbitrary use of public power has operated as a foundational rule of law value Even though it has not always been fully realized legal certainty has functioned as a core value and aspiration that has structured normative debates throughout political modernity both at a national and international level In recent decades however legal certainty has come under increasing pressure from a number of competing demands that are made of contemporary law in particular the demand that the law be more flexible and responsive to a social environment characterized by rapid social and technological change The expectation that the law operates in new transnational contexts and regulates every widening sphere of social life has created a new degree of uncertainty and this change raises difficult questions regarding both the possibility and desirability of legal certainty This book compiles in one edited volume research from a range of substantive areas of civil and criminal law that shares a common interest in understanding the multi layered challenges of defining legal certainty in a late modern society The book will be of interest both to lawyers interested in understanding the transformation of core rule of law values in the context of contemporary social change and to political scientists and social theorists
