**Consuming Passions** Philippa Pullar, 1971      **Consuming Fictions** Gail Turley Houston, 1994 In this remarkable study Gail Turley Houston examines the rich interplay of consumption as alimental process medical entity psychological construct and economic practice in order to explore Charles Dickens's fictional representations of Victorian culture as he presents it in his novels Drawing from medical historical economic psychoanalytic and biographical materials from the Victorian period Houston anchors her work in the belief that if class and gender are fictional constructions real people's lives are affected in complex and coercive ways by such constructions Proceeding chronologically Houston traces particular patterns throughout ten of Dickens's major novels *The Pickwick Papers* *Oliver Twist* *The Old Curiosity Shop* *Martin Chuzzlewit* *Dombey and Son* *David Copperfield* *Bleak House* *Little Dorrit* *Great Expectations* and *Our Mutual Friend* Houston maintains that Victorian codes of behavior prescribed for gender and class regarding sexual and alimental appetites were so extreme and complicated that numerous consequent eating disorders and related diseases developed Ideologies about consumption translated into medically defined consumptions such as anorexia Using anorexia and its etiology as representative of an underlying cultural dynamics of consumption Houston examines anorexia as a deep structure of the Victorian period Further consumption as economic process is reflected in the expansion of individual material desires at the expense of the designated body politic In other words extravagant consumption occurs in society only if certain groups usually consisting of lower class men and women and in Dickens's novels women in general are severely limited in their consumption To support her approach Houston turns to Rita Felski's *Beyond Feminist Aesthetics* agreeing with Felski's argument that it is necessary to recognize the complex dialectics that take place between the individual and society Not only does culture construct human beings but human beings also construct culture Felski's theory aids Houston in emphasizing that Dickens not only influenced but was also greatly influenced by the Victorian dynamics of consumption In fact Houston argues that while Dickens dismantles Victorian ideologies about class and hunger by demonstrating the unnaturalness of expecting one class to starve so that another might gluttonize he nevertheless accepts and perpetuates the Victorian identification of woman as the self-sacrificing always-nurturing angel in the house without need of nurture herself This extraordinary book will appeal to literary scholars as well as to scholars in the social sciences history humanistically oriented medicine and women's studies

**Consumption and the World of Goods** John Brewer, Roy Porter, 2013-06-17 The study of past society in terms of what it consumes rather than what it produces is relatively speaking a new development The focus on consumption changes the whole emphasis and structure of historical enquiry While human beings usually work within a single trade or industry as producers as say farmers or industrial workers as consumers they are active in many different markets or networks And while history written from a production viewpoint has by chance or design largely been centred on the work of men consumption history helps to restore women to the mainstream The history of consumption demands a wide range of skills It calls upon the methods and

techniques of many other disciplines including archaeology sociology social and economic history anthropology and art criticism But it is not simply a melting pot of techniques and skills brought to bear on a past epoch Its objectives amount to a new description of a past culture in its totality as perceived through its patterns of consumption in goods and services Consumption and the World of Goods is the first of three volumes to examine history from this perspective and is a unique collaboration between twenty six leading subject specialists from Europe and North America The outcome is a new interpretation of the seventeenth and eighteenth centuries one that shapes a new historical landscape based on the consumption of goods and services **Explaining Long-Term Trends in Health and Longevity** Robert W.

Fogel,2012-08-13 Explaining Long Term Trends in Health and Longevity is a collection of essays by Nobel laureate Robert W Fogel on the theory and measurement of ageing and health related variables Dr Fogel analyzes historic data on height health nutrition and life expectation to provide a clearer understanding of the past illustrate the costs and benefits of using such measures and note the difficulties of drawing conclusions from data intended for different purposes Dr Fogel explains how the basic findings of the anthropometric approach to historical analysis have helped reinterpret the nature of economic growth Rising life expectancies and lower disease rates in countries experiencing economic growth highlight the importance of improving nutrition and agricultural productivity Renaissance Culture and the Everyday Patricia Fumerton,Simon Hunt,2014-06-10 It was not unusual during the Renaissance for cooks to torture animals before slaughtering them in order to render the meat more tender for women to use needlepoint to cover up their misconduct and prove their obedience and for people to cover the walls of their own homes with graffiti Items and activities as familiar as mirrors books horses everyday speech money laundry baskets graffiti embroidery and food preparation look decidedly less familiar when seen through the eyes of Renaissance men and women In Renaissance Culture and the Everyday such scholars as Judith Brown Frances Dolan Richard Helgerson Debora Shuger Don Wayne and Stephanie Jed illuminate the sometimes surprising issues at stake in just such common matters of everyday life during the Renaissance in England and on the Continent Organized around the categories of materiality women and transgression and constantly crossing these categories the book promotes and challenges readers thinking of the everyday While not ignoring the aristocratic it foregrounds the common person the marginal and the domestic even as it presents the unusual details of their existence What results is an expansive variegated and sometimes even contradictory vision in which the strange becomes not alien but a defining mark of everyday life

Lustful Appetites Rachel Hope Cleves,2024-11-18 We take the edible trappings of flirtation for granted chocolate covered strawberries and romance oysters on the half shell and desire the eggplant emoji and a suggestive wink But why does it feel so natural for us to link food and sexual pleasure Rachel Hope Cleves explores the long association between indulging in good food and an appetite for naughty sex from the development of the Parisian restaurant as a place for men to meet with prostitutes and mistresses to the role of sexual outlaws like bohemians new women lesbians and gay men in creating

epicurean culture in Britain and the United States Taking readers on a gastronomic journey from Paris and London to New York Chicago and San Francisco Lustful Appetites reveals how this preoccupation changed the ways we eat and the ways we are intimate while also creating stigmas that persist well into our own twenty first century **Feminist Readings of Early**

**Modern Culture** Valerie Traub, M. Lindsay Kaplan, Dymphna Callaghan, 1996-10-10 How did the events of the early modern period affect the way gender and the self were represented This collection of essays attempts to respond to this question by analysing a wide spectrum of cultural concerns humanism technology science law anatomy literacy domesticity colonialism erotic practices and the theatre in order to delineate the history of subjectivity and its relationship with the postmodern fragmented subject The scope of this analysis expands the terrain explored by feminist theory while its feminist focus reveals that the subject is always gendered although the terms in which gender is conceived and represented change across history Feminist Readings of Early Modern Culture not only explores the representation of gendered subjects but in its commitment to balancing the productive tensions of methodological diversity also speaks to contemporary challenges facing feminism

**Eating Architecture** Jamie Horwitz, Paulette Singley, 2006-02-17 A highly original collection of essays that explore the relationship between food and architecture the preparation of meals and the production of space The contributors to this highly original collection of essays explore the relationship between food and architecture asking what can be learned by examining the often metaphorical intersection of the preparation of meals and the production of space In a culture that includes the Food Channel and the knife juggling chefs of Benihana food has become not only an obsession but an alternative art form The nineteen essays and Gallery of Recipes in Eating Architecture seize this moment to investigate how art and architecture engage issues of identity ideology conviviality memory and loss that cookery evokes This is a book for all those who opt for the combination platter of cultural inquiry as well as for the readers of M F K Fisher and Ruth Reichl The essays are organized into four sections that lead the reader from the landscape to the kitchen the table and finally the mouth The essays in Place Settings examine the relationships between food and location that arise in culinary colonialism and the global economy of tourism Philosophy in the Kitchen traces the routines that create a site for aesthetic experimentation including an examination of gingerbread houses as art food and architectural space The essays in Table Rules consider the spatial and performative aspects of eating and the ways in which shared meals are among the most perishable and preserved cultural artifacts Finally Embodied Taste considers the sensual apprehension of food and what it means to consume a work of art The Gallery of Recipes contains images by contemporary architects on the subject of eating architecture *George Cheyne: The English Malady (1733) (Psychology Revivals)* Roy Porter, 2013-10-01 Nerves became a highly eligible illness in early Georgian London and Bath What Freud was for Vienna at the end of the nineteenth century George Cheyne was for eighteenth century fashionable ailments The English Malady was one of the best known and most influential books of the Georgian age dealing with what we would now call psychiatric disorders Such disorders he contended should be regarded as diseases of

civilization and the product of the pressures and affluence of modern life By making neurosis acceptable even fashionable Cheyne s book assumed considerably wider significance during the Enlightenment Prefaced by a scholarly introduction by Roy Porter this reprint edition originally published in 1991 as part of the Tavistock Classics in the History of Psychiatry series places Cheyne and his work in the development of British psychiatry      **Favorites of Fortune** Patrice L. R. Higonnet, David S. Landes, Henry Rosovsky, 1991 A galaxy of distinguished international economists and historians pit economic history against the shaky assumptions of the classical economic theory of natural growth Their explanations consider the factors of technology entrepreneurialism and paths to economic growth but each reflects an ideological wave of explanation that has marked the last two hundred years      **Handbook of Population and Family Economics** M.R. Rosenzweig, Oded Stark, 1997-04-23 Comprises 21 articles that survey areas of research in population and family economics      Art, Culture, and Cuisine Phyllis Pray Bober, 2001-06 How we define prepare and consume food can detail a full range of social expression Examining the subject through the dual lens of archaeology and art history this book argues that cuisine as an art form deserves a higher reputation      食物、文化、烹饪 S. 博伯 / 菲丽丝·普雷·博伯, 2016-06-15      **Holy Feast and Holy Fast** Caroline Walker Bynum, 1988-01-07 In the period between 1200 and 1500 in western Europe a number of religious women gained widespread veneration and even canonization as saints for their extraordinary devotion to the Christian eucharist supernatural multiplications of food and drink and miracles of bodily manipulation including stigmata and inedia living without eating The occurrence of such phenomena sheds much light on the nature of medieval society and medieval religion It also forms a chapter in the history of women Previous scholars have occasionally noted the various phenomena in isolation from each other and have sometimes applied modern medical or psychological theories to them Using materials based on saints lives and the religious and mystical writings of medieval women and men Caroline Walker Bynum uncovers the pattern lying behind these aspects of women s religiosity and behind the fascination men and women felt for such miracles and devotional practices She argues that food lies at the heart of much of women s piety Women renounced ordinary food through fasting in order to prepare for receiving extraordinary food in the eucharist They also offered themselves as food in miracles of feeding and bodily manipulation Providing both functionalist and phenomenological explanations Bynum explores the ways in which food practices enabled women to exert control within the family and to define their religious vocations She also describes what women meant by seeing their own bodies and God s body as food and what men meant when they too associated women with food and flesh The author s interpretation of women s piety offers a new view of the nature of medieval asceticism and drawing upon both anthropology and feminist theory she illuminates the distinctive features of women s use of symbols Rejecting presentist interpretations of women as exploited or masochistic she shows the power and creativity of women s writing and women s lives      *Leaving Little Italy* Fred L.
