Sommer**

Consuming Nature A Photo Essay On African Rain Forest Exploitation:

Consuming Nature ,2003 Consuming Nature ,2003 **The Chimpanzees of Rubondo Island** Josephine Nadezda Msindai,Volker Sommer,2022-10-05 How did a random batch of chimpanzees come to populate a small island in Tanzania where apes had never lived before Combining information gathered from fieldwork laboratory and archival research this book tells the unique story of chimpanzee babies taken from their forest homes in West Central Africa and sold to European zoos and circuses to then be shipped to Lake Victoria and set free on Rubondo Island These founder animals learnt what to eat how to build nests to breed and raise young ultimately forming a chimpanzee typical fission fusion society that today is thriving The authors compare the ecology behaviour and genetics of the Rubondo population with communities of wild chimpanzees providing exciting insights into how our closest relatives adjust to changing environments At the same time a reconstruction of the historical context of the Rubondo experiment reflects on its chequered colonial heritage and the introduction is viewed against current threats to the survival of apes in their natural habitats The book will be of interest to scholars and professionals working in primatology animal behaviour conservation biology and postcolonial studies

Primates of Gashaka Volker Sommer,Caroline Ross,2010-11-23 The Gashaka Primate Project has grown into one of the largest research and conservation activities in West Africa At present it keeps going on the initiative of the editors of this volume and their academic home institutions The appearance of this volume marks the 10th anniversary of the Gashaka Primate Project **Transforming Parks and Protected Areas** Kevin S. Hanna,Douglas A. Clark,D. Scott Slocombe,2007-10-18 A rare collection of articles that fuses academic theory critique of practice and practical knowledge Transforming Parks and Protected Areas analyzes and critiques the emerging issues in the design and operation of parks and protected areas **Ethnoprimatology** Michel T. Waller,2016-07-28 The list of challenges facing nonhuman primates in the 21st century is a long one The expansion of palm oil plantations to feed a growing consumer class is eating away at ape and monkey habitats in Southeast Asia and Central Africa Lemurs are hunted for food in the poorest parts of Madagascar while monkeys are used as medicine in Brazil Traditional cultural beliefs are maintaining demand for animal body parts in West African markets while viral YouTube videos of cute and cuddly lorises have increased their market value as pets and endangered their populations These and other issues are addressed in this book by leading researchers in the field of ethnoprimatology the study of human nonhuman primate interactions that combines traditional primatological methodologies with cultural anthropology in an effort to better understand the nuances of our economic ritualistic and ecologic relationships

The International Encyclopedia of Primatology, 3 Volume Set Agustín Fuentes,2017-04-24 The International Encyclopedia of Primatology represents the first comprehensive encyclopedic reference focusing on the behaviour biology ecology evolution genetics and taxonomy of human and non human primates Represents the first comprehensive encyclopedic reference relating to primatology Features more than 450 entries covering topics ranging from the taxonomy

history behaviour ecology captive management and diseases of primates to their use in research cognition conservation and representations in literature Includes coverage of the basic scientific concepts that underlie each topic along with the latest advances in the field Highly accessible to undergraduate and graduate students in primatology anthropology and the medical biological and zoological sciences Essential reference for academics researchers and commercial and conservation organizations This work is also available as an online resource at www.encyclopediaofprimatology.com

The Trouble with Lions Jerry Haigh, 2013-02-20 The trouble with lions is that while you are conducting a pregnancy test you need to be equally if not more aware of what you can learn from the lion's other end That is one lesson that Jerry Haigh brings home in this fascinating collection of stories about working with wild animals in Africa Conversational in tone conversational in theme you will be right beside Jerry wife Jo and a colourful cast of vets guides and wardens as they scour Africa's sprawling vistas troubleshooting lions rhinos humans and other indigenous mammals Conservationists veterinarians and fans of real life adventure tales will want to keep this memoir handy on the dashboards of their Land Cruisers Foreword by Jane Goodall

Encountering Gorillas James L. Newman, 2013-07-05 Gorillas the largest of the apes inhabiting our planet have been a source of fear awe and inspiration to humans In this book James L Newman brings a lifetime of study of Africa to his compelling story of the rich and varied interaction between gorillas and humans since earliest contact He illuminates the complex relationship over time through the interlinked themes of discovery exploitation understanding and continuing survival Tragically the number of free living gorillas facing habitat loss disease and poaching has declined dramatically over the course of the past century and the future of the few that remain is highly uncertain At the same time those in zoos and sanctuaries now lead much more secure lives than they did earlier Newman follows this transition highlighting the roles played by key individuals both humans and gorillas Among the former have been adventurers opportunists writers and scientists The latter include real gorillas such as Gargantua and Koko and fictional ones notably King Kong and Mighty Joe Young This thoughtful and engaging book helps us understand how our image of gorillas has been both distorted and clarified through culture and science for centuries and how we now control the destiny of these magnificent great apes

Schimpansenland Volker Sommer, 2008 Gut lesbarer und aufrichtiger Erlebnis und Erfahrungsbericht über die im Grenzgebiet von Nigeria und Kamerun lebende stark bedrohte Schimpansenpopulation einer erst kürzlich entdeckten Unterart Anthropologie et sociétés, 2005 *The Pygmy Hippo Story* Phillip T. Robinson, Gabriella L. Flacke, Knut M. Hentschel, 2017 Though the pygmy hippopotamus has been designated as a flagship species of West African forests meaning that by raising conservation efforts for a single species an entire ecological region could benefit very little research has been published on the animal They are solitary nocturnal and highly evasive and until recent developments in camera trap technology they were considered the least photographed large mammal species in the world The information currently available on this endangered species is scattered limited redundant and often inaccurate and no major volume exists as a

resource for those interested in the conservation effort for the species until now Phillip Robinson and his coauthors provide a treatment of the natural history biology and ecology of the pygmy hippo along with a discussion of the rare animal's taxonomic niche and a summary of the research initiatives involving it up to this point The authors show the ways in which the pygmy hippo has come into contact with people in West African countries both in terms of ecological and cultural impact This creature has been the subject of local folktales and is treated as almost mythic in some regions Information on issues related to captivity breeding and zoos is provided The book is heavily illustrated with original photographs and anatomic drawings The project should be of use to conservation biologists zoologists and natural history readers and will be the definitive single volume account of an animal that the scientific community has designated to be ecologically significant to West Africa

Bulletin of the Atomic Scientists ,1972-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Bulletin of the Atomic Scientists ,1973-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

The New York Times Index ,2007

Bushmeat Theodore Trefon,2023-06-15 In much of Central Africa eating wildlife is seen as a normal desirable and common sense practice Almost all wild animals from the largest mammals to the smallest invertebrates are hunted traded and consumed providing vital income and nutrition for millions of people But as demand for bushmeat grows animal populations are being decimated directly impacting biodiversity local economies and public health Taking an interdisciplinary approach Bushmeat explores questions ranging from deforestation and conservation strategies to infectious diseases urban street food and law enforcement It explains how the popularity of wild meat consumption has spread from rural areas into major cities fueled by rapid urbanization poorly defined regulations and developing trade networks whether small scale and informal or commercial and politically connected While unsustainable hunting practices pose clear problems for wildlife conservation they also increase the risk of rural food insecurity and of new infectious diseases emerging as HIV Ebola and Covid 19 have shown But cultural attachment to wild meat and its dietary importance for many communities make the bushmeat crisis difficult to solve Based on extensive interviews and a comprehensive review of secondary literature Bushmeat presents a startling account of one of the Anthropocene's catastrophes in the making

Popular Science ,2007-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

Book Review Digest ,1993 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English

language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher **Landscapes and Landforms of the Horn of Africa** Paolo Billi, 2022-09-30 This book focuses on regions for which until now the geomorphology was very poorly studied and relatively unknown Nevertheless the landforms and landscapes of the Horn of Africa are highly attractive diverse and in a few cases unique since they span very different environments from highland plateaus and mountains to lowlands even below sea level and coastlines with a high degree of diversity and from monsoon to arid climate conditions The main topics addressed in the book include the links between the geological evolution and the current large scale geomorphology of the Horn of Africa the large differences between the highlands and lowlands climate river hydrology and their variation through time within a climate change perspective This part of the world was home of the very first hominids The landscape in which they lived and evolved throughout the Pleistocene is described in comparison with the arid and inhospitable though immensely scenic environment of today Perennial and ephemeral rivers with very different morphology processes and hydrology drain the area and in combination with the past and recent uplift substantially contributed to provide the region with peculiar landscapes and landforms Long lasting weathering and erosion processes result in a typical inselberg landscape such as the Bur region or the currently exposed flatland of old peneplain surfaces Their changes through time induced by both natural and anthropogenic factors are addressed by a couple of case studies Though the region has few inhabitants they had to struggle to find their livelihood in a land that offers poor resources This resulted in landscape change and land degradation Examples of human impact on the landscape are presented at different scales This book provides readers interested in geography and geomorphology with essential scientific and educational information on the Landscapes and Landforms of Eritrea Djibouti and Somalia through simple though scientifically rigorous texts illustrated with several color maps and photos One main prerogative of this book is therefore to give an insight into a region of the world where for geographical and historical constraints geomorphological investigation was very limited thus enriching its intrinsic informative value *History of International Organizations' Work with Soybeans and Soyfoods (1914-2021)* William Shurtleff; Akiko Aoyagi, 2021-11-12 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 81 photographs and illustrations mostly color Free of charge in digital PDF format

As recognized, adventure as capably as experience approximately lesson, amusement, as capably as deal can be gotten by just checking out a book **Consuming Nature A Photo Essay On African Rain Forest Exploitation** in addition to it is not directly done, you could allow even more almost this life, in this area the world.
