Fashion and Its Social Agendas Diana Crane, 2000 It has long been said that clothes make the man or woman but is it still true today If so how has the information clothes convey changed over the years Using a wide range of historical and contemporary materials Diana Crane demonstrates how the social significance of clothing has been transformed Crane compares nineteenth century societies France and the United States where social class was the most salient aspect of social identity signified in clothing with late twentieth century America where lifestyle gender sexual orientation age and ethnicity are more meaningful to individuals in constructing their wardrobes Today clothes worn at work signify social class but leisure clothes convey meanings ranging from trite to political In today s multicode societies clothes inhibit as well as facilitate communication between highly fragmented social groups Crane extends her comparison by showing how nineteenth century French designers created fashions that suited lifestyles of Paris elites but that were also widely adopted outside France By contrast today s designers operate in a global marketplace

shaped by television film and popular music No longer confined to elites trendsetters are drawn from many social groups and most trends have short trajectories To assess the impact of fashion on women Crane uses voices of college aged and middle aged women who took part in focus groups These discussions yield fascinating information about women s perceptions of female identity and sexuality in the fashion industry An absorbing work *Fashion and Its Social Agendas* stands out as a critical study of gender fashion and consumer culture Why do people dress the way they do How does clothing contribute to a person s identity as a man or woman as a white collar professional or blue collar worker as a preppie yuppie or nerd How is it that dress no longer denotes social class so much as lifestyle Intelligent and informative this book proposes thoughtful answers to some of these questions Library Journal

it means to dress a certain way to dance a certain way to decorate a certain way to speak a certain way He locates style at the heart of popular culture and asserts that it is the basis for social life and politics in the twenty first century Brummett sees style as a system of signification grounded largely in image aesthetics and extrarational modes of thinking He discusses three important aspects of this system its social and commercial structuring its political consequences and its role as the chief rhetorical system of the modern world He argues that aesthetics and style are merging into a major engine of the global economy and that style is becoming a way to construct individual identity as well as social and political structures of alliance and opposition It is through style that we stereotype or make assumptions about others political identities their sexuality their culture and their economic standing To facilitate theoretical and critical analysis Brummett develops a systematic rhetoric of style and then demonstrates its use through an in depth exploration of gun culture in the United States Armed with an understanding of how this rhetoric of style works methodologically students and scholars alike will have the tools to do their own analyses Written in clear and engaging prose *A Rhetoric of Style* presents a novel discussion of the workings of style and sheds new light on a venerable and sometimes misunderstood rhetorical concept by illustrating how style is the key to constructing a rhetoric for the twenty first century *Fashion Theory* Malcolm Barnard, 2014-03-26 *Fashion Theory* An Introduction explains some of the most influential and important theories on fashion it brings to light the presuppositions involved in the things we think and say about fashion everyday and shows how they depend on those theories This clear accessible introduction contextualises and critiques the ways in which a wide range of disciplines have used different theoretical approaches to explain and sometimes to explain away the astonishing variety complexity and beauty of fashion
