Consumption And Identity At Work:

Consumption and Identity at Work Paul du Gay, 1995-11-28 The realms of consumption have typically been seen to be distinct from those of work and production This book examines how contemporary rhetorics and discourses of organizational change are breaking down such distinctions with significant implications for the construction of subjectivities and identities at work In particular Paul du Gay shows how the capacities and predispositions required of consumers and those required of employees are increasingly difficult to distinguish Both consumers and employees are represented as autonomous responsible calculating individuals They are constituted as such in the language of consumer cultures and the all pervasive discourses of enterprise whereby persons are required to be entrepreneurs of the self at work at play and in all aspects of their lives The first part of the book explores certain limitations in traditional approaches to the analysis of work identity It presents an alternative discursive framework in which to address contemporary re imaginings of organizational life within the culture of the consumer Part Two develops the analysis by looking at an arena where the blurring of the boundaries between work and consumption identities is most pronounced retailing The author builds a sophisticated picture of how discourses of reform take hold in particular contexts how they construct particular subject positions for employees to occupy and how employees negotiate these identities in their everyday working lives He concludes by considering the ethical and other issues of setting limits to enterprise

 issues theoretically and through analyses of such cases as food religion fashion empirically as well It also discusses the
 possible role in the future of consumption This book was previously published as a special issue of Review of Social Economy

Material Fantasies Milena Veenis, 2012 This study of East German fantasies of material abundance across the border both before and after the fall of communism shows the close and intricate relation between ideology and fantasy in upholding social life In 1989 news broadcasts all over the world were dominated for weeks by images of East Germans crossing the Berlin Wall to West Germany The images representing the fall of communism and the democratic will of the people also showed East Germans excitement at finally being able to enter the western consumer paradise But what exactly had they expected to find on the other side of the Wall Why did they shed tears of joy when for the first time in their lives they stepped inside West German shops And why were they prepared to pay more than 10 percent of their average monthly wage for a pineapple Drawing on fifteen months of research in the fast changing post communist East

Germany Veenis unravels the perennial truths about the interrelationships of fantasies of material wealth personal fulfillment and social cohesion She argues persuasively that the far fetched socialist and capitalist promises of consumption as the road to ultimate well being the partial realization and partial corruption thereof the implicit social and psychological interests underlying the politicized promises in both countries form the breeding ground for the development of materialist cargo cult like fantasies in which material well being came to be seen as the place of fulfillment and ultimate arrival Publisher s website

Facebook Twitter and YouTube but with pocket diaries photo albums and baby books Social critiques argue that social media have made us narcissistic that Facebook Twitter Instagram and YouTube are all vehicles for me promotion In The Qualified Self Lee Humphreys offers a different view She shows that sharing the mundane details of our lives what we ate for lunch where we went on vacation who dropped in for a visit didn t begin with mobile devices and social media People have used media to catalog and share their lives for several centuries Pocket diaries photo albums and baby books are the predigital precursors of today s digital and mobile platforms for posting text and images The ability to take selfies has not turned us into needy narcissists it s part of a longer story about how people account for everyday life Humphreys refers to diaries in which eighteenth century daily life is documented with the brevity and precision of a tweet and cites a nineteenth century travel diary in which a young woman complains that her breakfast didn t agree with her Diaries Humphreys explains were often written to be shared with family and friends Pocket diaries were as mobile as smartphones allowing the diarist to record life in real time Humphreys calls this chronicling in both digital and nondigital forms media accounting The sense of
