Contemporary Approaches to Moral Education Barry I. Chazan, 1985-01-01 *Education with Character* James Arthur, 2003 Education with character is the latest buzzphrase but until now there's been no real consensus on some of the key issues This book addresses the gap adopting a cross disciplinary approach to the matters in hand **Handbook of Research on Effective Communication in Culturally Diverse Classrooms** González, Katia, Frumkin, Rhoda, 2016-02-17 Meaningful interaction between teachers and students is crucial to any educational environment and particularly so in intercultural settings When educators take steps to incorporate culturally responsive teaching into their classrooms student learning is enriched and improved The Handbook of Research on Effective Communication in Culturally Diverse Classrooms focuses on the significance of cultural sensitivity toward diverse students and the importance of communication to increase the overall educational experience Highlighting key concepts relating to curriculum design teaching models and critical pedagogies in transcultural classrooms this book is a pivotal reference source for teachers teacher educators and researchers interested in the impact of intercultural communication in learning environments **Journal of Character Education** Jacques S. Benninga, Marvin W Berkowitz, 2021-04-01 Sample Chapters FOR THE BETTER Marvin W Berkowitz University of Missouri St Louis THE OVERLOOKED INEQUITY Eric Schaps The Journal of Character Education is the only professional journal in education devoted to character education It is designed to cover the field from the latest research to applied best practices We include original research reports editorials and conceptual articles by the best minds in our field reviews of the latest books and other relevant strategies and manuscripts by educators that describe best practices in teaching and learning related to character education The Journal of Character Education has for over a decade been the sole scholarly journal focused on research theory measurement and practice of character education In this issue of the Journal of Character Education we return to something foundational and introduce something new The foundational element is a set of six independent scholarly manuscripts by a mix of emerging and established scholars We are pleased to introduce a new feature of the Journal of Character Education in this issue namely a section we are calling simply Opinion We began the JCE with an exclusive focus on publishing scholarship because there was no scholarly journal that focused on character education Over time we realized that we wanted to speak about practice and particularly to practitioners as well Hence we created a section we call Voices to present innovations and perspectives representing the voices of exemplary practitioners of character education Now we introduce the Opinion section that will allow us to publish perspectives from leading authorities in the field that might be more provocative We would love to hear responses to either or both opinion articles and are working on plans to share such responses perhaps on one of our related websites At this point we plan on publishing more opinion articles and for now by invitation However we are always willing to consider unsolicited articles for possible inclusion in the JCE *Xenophon's Theory of Moral Education* Houliang Lu, 2014-11-19 Xenophon the Athenian who is well known

both as a historian and as a witness of Socratic philosophy developed his own systematic thought on moral education from a social and mainly political perspective in his extant works His discourse on moral education represents the view of an unusual historical figure an innovative thinker as well as a man of action a mercenary general and a world citizen in his age As such it is therefore different from the discourse of contemporary pure philosophy *Lawrence Kohlberg* Mark Woodward,1986-05-22 First published in 1986 This is part of the five edition of Consensus and Controversy collection with this volume focussing on Lawrence Kohlberg of Harvard University The volume has been greatly enhanced by the recognition given to it by Lawrence Kohlberg who has written the concluding chapter For nearly thirty years Lawrence Kohlberg has amplified his cognitive developmental theory of moralization which has become prominent in the analysis of moral development and its consequent application to moral education *Lawrence Kohlberg, Consensus and Controversy* Sohan Modgil,Celia Modgil,1986 First Published in 1986 Routledge is an imprint of Taylor Francis an informa company

Character Education Wouter Sanderse,2012 Many teachers want to contribute to children s moral development but this desire has not always resulted in a profound grasp of what moral education really means why it would be desirable and how it can best be achieved This book confronts these questions by examining what Aristotelian virtue ethics can illuminate about moral education At the same time it evaluates whether Aristotelian theory can still be useful for contemporary educational practice The argument culminates in a morally justified and psychologically realistic account of how virtue can best be taught in schools The approach called character education sees moral education not as enforcing rules or transferring values in separate subjects Instead it encourages teachers to be a morally exemplary teacher which is revealed through all kinds of small decisions and emotional reactions This philosophical essay takes a constructive but critical stance towards empirical research about the effectiveness of teaching methods and the realism of character traits [Subject Guide to Books in Print](#) ,1993 **Affective legal analysis** Frank Fleerackers,Josef Heinz Müller, Wilfried Burkhardt,2019 Indeed if the legal field is to be understood as instrumental to democracy s cohabitation of individuals research on dispute resolution remains pre eminent as a means to understand how individual views differ and how different views can be overcome As a central part of conflict analysis such research would assist an interdisciplinary quest for a dynamic understanding of democracy and law It would focus on how different individuals with different conceptions of the good can live together in their community in their world Scientific research in the fields of communication economics psychology history political theory and philosophy to name but a few would side with legal theory in a shared ambition to analyze the way individuals are affected by their views as well as by their institutions in order to provide society with a dynamic means to solve conflicts and enhance citizenship or legal awareness Such research necessarily coincides with empathy oriented education directed towards an understanding of different conflict positions and the related comprehensive or non comprehensive views affecting them An affective education analyzing all affective mechanisms of societal or interpersonal disputes and their legal or alternative resolution A clinical

education offering an interactive simulation with regard to these positions and their affective impact demonstrating how individual views continuously affect the positions taken how disputes are affected by the legal or other institutions that attempt to solve them and how the effectiveness of legal or other solutions to the conflict at hand depends on a practice of affective legal analysis Thus legal and civic education by way of affective narration and clinical simulation join affective legal analysis in its endeavor to provide society with a similarly affective and non rationalizing approach of legal awareness
