than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

The Modern British Essayists: Jeffrey, Francis.

Contributions to the Edinburgh Review, 1852 **Modern British Playwriting: 2000-2009** Dan Rebellato, 2013-12-16

Essential for students of theatre studies Methuen Drama's Decades of Modern British Playwriting series provides a comprehensive survey and study of the theatre produced in each decade from the 1950s to 2009 in six volumes. Each volume features a critical analysis and reevaluation of the work of four to five key playwrights from that decade authored by a team of experts together with an extensive commentary on the period. Edited by Dan Rebellato, *Modern British Playwriting 2000-2009* provides an authoritative and stimulating reassessment of the theatre of the decade together with a detailed study of the work of David Greig, Nadine Holdsworth, Simon Stephens, Jacqueline Bolton, Tim Crouch, Dan Rebellato, Roy Williams, Michael Pearce and Debbie Tucker Green. Lynette Goddard. The volume sets the context by providing a chronological survey of the decade, one marked by the War on Terror, the excesses of economic globalization and the digital revolution. In surveying the theatrical activity and climate, Andrew Haydon explores the response to the political events, the rise of verbatim theatre, the increasing experimentation and the effect of both the Boyden Report and changes in the Arts Council's priorities. Five scholars provide detailed examinations of the playwrights' work during the decade, combining an analysis of their plays with a study of other material such as early play drafts and the critical receptions of the time. Interviews with each playwright further illuminate this stimulating final volume in the Decades of Modern British Playwriting series.

Poetic Castles in Spain Diego Saglia, 2000. Saglia, a scholar of some sort whose academic affiliations are not noted, charts the various ways in which between the 1810s and 1820s Spain figured in British literary culture. Mainly concerned with narrative versions of Spain, specifically metrical tales and verse romances, he traces the contours of the Spanish imaginary in British Romanticism, offering a cultural geography of Romantic Spain as a space of war involving not only France and Britain or the Spanish and Moorish armies but ideological conflicts between public and private republicanism, nationalism and imperialism and competing models of masculinity and femininity.
