Contemporary Architecture And Interiors Of The 1950s:

Contemporary Lesley Jackson, 2000 This book provides a full definition and examination of the Contemporary style that was to dominate architecture and design throughout the 1950s. It shows the ways in which these new ideas pervaded all aspects of the market from handcrafted one-offs to the mass-produced industrial item and all areas of design from home decoration to public buildings. Far more than a collection of fifties nostalgia, this volume provides an entertaining and revealing survey of trends in taste and interior design at a time of economic regeneration and social renewal. It shows how the positive spirit of the age was reflected in the buoyant and confident creative expression of its buildings and domestic furnishings.

Contemporary Lesley Jackson, 1994-12 Contemporary Lesley Jackson, 1998-05-03 An exploration of the style that dominated 1950s architecture and design. This book is the first to explore fully the so-called contemporary style that dominated architecture and design from the late 1940s to the end of the 1950s. It was an era of optimism and confidence where new ideas in architecture and design flourished alongside the emergent consumer culture. Emanating mainly from the USA, the contemporary style was fresh and liberating, manifesting itself in the picture window and the open plan in new forms of furniture from Scandinavia and stylish light fittings from Italy and most tellingly in the contemporary kitchen with its fitted units and mod-con appliances. This book examines the fresh and liberated design ideas of this buoyant era with an acute eye and open mind.

Playboy and the Making of the Good Life in Modern America Elizabeth Fraterrigo, 2009-11-05 Launched by Hugh Hefner in 1953, Playboy promoted an image of the young affluent single male, the man about town, ensconced in a plush bachelor pad in constant pursuit of female companionship and a good time. Spectacularly successful, this high-gloss portrait of glamorous living and sexual adventure would eventually draw some one million readers each month. Exploring the world created in the pages of America's most widely read and influential men's magazine, Elizabeth Fraterrigo sets Playboy's history in the context of a society in transition. Sexual mores, gender roles, family life, notions of consumption and national purpose all were in flux as Americans adjusted to the prosperity that followed World War II. Initially, Playboy promised only entertainment for men, but Fraterrigo reveals that its vision of abundance, pleasure and individual freedom soon placed the magazine at the center of mainstream debates about sex and freedom, politics and pleasure in postwar America. She shows that for Hugh Hefner, the good life meant the playboy life in which expensive goods and sexually available women were plentiful, obligations were few and if one worked hard enough, one could enjoy abundant leisure and consumption. In support of this view, Playboy attacked early marriage, traditional gender arrangements and sanctions against premarital sex. The magazine also promoted private consumption as a key to economic growth and national well-being, offering tips from The Playboy Advisor on everything from high-end stereos and cuff links to caviar and wine. If we want to understand post-war America, Fraterrigo shows, we must pay

compelling coincidences and unorthodoxies Lavin sets out to unleash midcentury architecture's hidden libido Neither Neutra nor psychoanalysis emerges unscathed from her investigation of how architecture came to be saturated by the intrigues of affect often against its will If Reyner Banham sought to put architecture on the couch then Lavin through Neutra leaps beyond Banham's ameliorative aim to lure contemporary architecture into the lush and dangerous liaisons of environmental design
