McMichael, 2006 The development and pervasiveness of modern atheism as well as secularization poses an acute challenge to Christian theology Theologians have either ignored this challenge or have sought to meet it in a variety of ways Throughout his theological career Walter Kasper 1933 has maintained that theology has the mutual tasks of exposition of the Christian faith and of responding to contemporary challenges to this faith In his seminal work *The God of Jesus Christ* 1982 he argues that the proper Christian response to modern atheism is the confession of the Trinity In making this response Kasper begins to chart a course for all future Christian apologetics for all efforts to give an account of Christian hope 1 Peter 3 15

Religion in Modern Islamic

Discourse Abdulkader Tayob, 2009 Religion is central to any religious discourse but religion as an analytical category that facilitates the reexamination and reinvention of a particular religious tradition is more difficult to locate This task is made particularly difficult in Islam where the lines demarcating religion culture civilization and politics are deliberately ambiguous and fuzzy The objective of this book is to identify and examine the place of religion as such an abstract category in modern Islamic discussions from the nineteenth century to the present It shows how ideas of religion facilitated the transformation of religious discourses both when accepting and resisting modernity The central focus is on intellectuals who grappled with reconciling Islam with successive waves of modernization Religion in Modern Islamic Discourse begins with early discussions in Egypt and colonial India on the essence of religion and its social value in the light of modern challenges in science and politics It then moves from these discussions and explores key contributions by twentieth century Muslim intellectuals on the meaning of identity state law and gender Above all Abdulkader Tayob offers the reader a creative way of understanding modern Islamic discourse uncovering the deep structural foundations of its approach to religion religious values and spirituality

The Theological Project of Modernism Kevin Hector, 2015 Modernism's theological project was an attempt to explain two things firstly how faith might enable persons to experience their lives as hanging together even in the face of disintegrating forces like injustice tragedy and luck and secondly how one could see such faith and so a life held together by it as self expressive Modern

theologians such as Kant Schleiermacher Hegel Ritschl and Tillich thus offer accounts of how one's life would have to hang together such that one could identify with it of the oppositions which stand in the way of such hanging together of God as the one by whom oppositions are overcome such that one can have faith that one's life ultimately hangs together and of what such faith would have to be like in order for one to identify with it too So understood modern theology not only sheds light on faith's potential role in enabling persons to identify with their lives but stands in unexpected continuity with contemporary contextual theologies This book offers clear careful readings of modernism's key figures in order to explain their relevance to practical concerns and to contemporary understandings of faith

The End of Liberal Theology Peter Toon, 2010-10-01 Modern theology is a maze of conflicting beliefs In fact the shape of contemporary theology has changed so much in this century and especially since the 1960s that it's hard to make sense of it all Of not only what the various belief systems mean but how we came to be where we

are within those systems In *The End of Liberal Theology* respected theological lecturer and author Peter Toon introduces evangelicals to modern forms of doctrine and theology both Protestant and Roman Catholic He does so by discussing the basics of orthodoxy by speaking to the various points of accommodation that have resulted in new forms of theology and by dissecting liberalism and its effect on evangelicalism This book is thus a family tree of modern theology showing how the various contemporary forms and those that preceded them are related to each other With its comprehensive analysis *The End of Liberal Theology* is destined to be a yardstick by which critical evaluations of current doctrines both old and new liberal and conservative will be made

The Wiley Blackwell Companion to Conciliarity in Modern Orthodox Christianity Irina Paert, Andrey Shishkov, Alison R Kolosova, 2025-07-28 The practice of holding councils and synods is recorded since the early days of the Christian Church and consequently the concept of conciliarity has always been at the heart of the Orthodox Church's confessional identity The proposed companion focuses on the evolution of concept of conciliarity in the Orthodox Church after the 19th century when the Enlightenment and Romantic philosophy challenged the traditional hierarchical structure of the Church promoting a new theological consciousness where the Church was seen as an organic community rather than a pyramidal body Featuring almost 50 chapters written by the most prominent scholars in the field from a wide range of geographical ethnic and confessional backgrounds *The Wiley Blackwell Companion to Conciliarity in Modern Orthodox Christianity* explores the radical reforms to church life resulted from the Moscow Church Council 1917-1918 the emergence of eucharistic ecclesiology the evolution of Greek and Slavic theologies and their impact within and beyond the Orthodox world as well as expressions of conciliarity at the initiative of the laity Through a well balanced selection of case studies the volume aims to show how the rise of new forms of assembly and community has characterized not simply the Eastern and Oriental Orthodox churches Egypt Ethiopia Armenia and India but Orthodoxy in contemporary 20th century contexts of migration and mission such as Africa the US and Western Europe

The Problem of God in Modern Thought Philip Clayton, 2000 It is widely believed that modern philosophers have dismissed the idea of God and opted instead for a secular humanism Challenging these stereotypes through a careful study of major philosophical texts written since the Enlightenment Philip Clayton shows how the main thinkers of the modern period have continued to wrestle with the problem of God and to make

proposals for understanding the divine Following up on his award winning book *God and Contemporary Science* Clayton here explores the constructive resources that modern thought offers to those struggling with the notion of God as infinite and perfect He finds in the narrative of modern thought about God strong support for panentheism the new theological movement that maintains the transcendence of God while denying the separation of God and the world Modern Trends in Islamic Theological Discourse in 20th Century Indonesia Fauzan Saleh,2001-12-01 Aiming to trace the development of Islamic theological discourse in Indonesia from the early 1900s to the end of the 20th century the author focusses on how modernist Muslims have constructed their theological thought throughout the century which in turn reflects their religious understanding in response to the particular demands of their age The theological thought constructed so far signifies a continuum of progress developing from one stage to the next Implicitly this progress also indicates the improvement of Indonesian Muslims understanding of their own religion which may suggest the betterment of their commitment to doctrinal beliefs and religious practices Therefore this study will also examine the ways in which Indonesian Islam noticeably grows more orthodox through these forms of religious commitment Drawing upon an Indonesian term the growth of orthodox Islam is known as the *santri* cultural expansion which has been characterized by the vertical and horizontal mobility of devout Muslims in political cultural and economic enterprises A discussion of the theological thought underlying that *santri* cultural expansion is also included *Theology and the End of Doctrine* Christine Helmer,2014-01-01 This book is about the crisis brought about by doctrine's estrangement from reality that is from actual lives experiences histories and from God By invoking the end of doctrine Christine Helmer opens a new discussion of doctrinal production that is engaged with the challenges and possibilities of modernity The end of doctrine refers on the one hand to unquestioning doctrinal reception which Helmer critiques and on the other represents an invitation to a new way of understanding the aim of doctrine in deeper connection to the reality that it seeks The book's first section offers an analysis of the current situation in theology by reconstructing a trajectory of Protestant theology from the turn of the twentieth century to today This history focuses primarily on the status of the word in theology and explains how changes in theology in the context of the political and social crisis in Europe in the 1920s and 1930s led to a distancing of the word from reality Helmer then turns to the constructive section of the book to propose a repositioning of theology to the world and to God Helmer's powerful work will inspire revitalized interest in both doctrine and theological inquiry itself Challenging Modern Atheism and Indifference Pierre Manent,2025-05-01 Challenging Modern Atheism and Indifference is the first English translation of Pierre Manent's penetrating engagement with the seventeenth century polymath and apologist for the Christian faith Blaise Pascal Blaise Pascal 1623-1662 was the first Christian apologist to address modern human beings on their own terms and present a defense of the Christian religion that still resonates today A major publishing and intellectual event in France when it first appeared in 2022 Challenging Modern Atheism and Indifference is Pierre Manent's investigation of Pascal's exploration of

Christianity in the wake of a sharp atheistic turn at the dawn of the modern state and modern science Comprehensive in scope and profound in treatment this engagement with all of Pascal's writings including his famous Pensées appeals to the reader's head and heart Manent emphasizes the joy that comes from engaging the truth of faith and he argues that we are diminished by forgetting the unique and distinctive contributions of Christianity More than brilliant exegesis Manent enlists Pascal in a much greater endeavor to make what he calls the Christian proposition concerning God and man intelligible to Europeans who have made it their business to ignore the religion that founded Europe and the larger Western world

Religious Experience and the New Woman Joanna Dean, 2007-01-10 In *Religious Experience and the New Woman* Joanna Dean traces the development of liberal spirituality in the early 20th century through the life and work of Lily Dougall 1858-1923 a New Woman novelist who became known as a religious essayist and Anglican modernist Dean examines the connections between Dougall's marginal position as a woman intellectual and her experiential combatively iconoclastic theology and demonstrates that through her writing and mentoring Dougall contributed to the shaping of modern spirituality Lily Dougall described religious experience the sense of the presence of God as the rock of her theology Dean observes the protean nature of this rock as Dougall moved from a submissive holiness faith to a mystical Mauricean sense of the Kingdom of God to the relational theology of personal idealism and reveals how psychology which appeared to provide scientific support for her religious beliefs eventually threatened to undermine her experiential faith [The Oxford Companion to Christian Thought](#) Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal In *The Oxford Companion to Christian Thought* general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non-Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references *The Oxford Companion to Christian Thought* is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays
