Basso,Morris Edward Opler,1971-08 This volume grew out of a symposium held at the Annual Meeting of

the American Anthropological Association in November 1969 at New Orleans Louisiana The Apachean Symposium was designed to provide an opportunity for scholars engaged in research on southern Athapaskan cultures to report upon their findings and wherever possible to link them to known fact and existing theory The diverse work presented here will add significantly to the knowledge about Apachean cultures and each of contributions also pertains directly to wider spheres of anthropological concern Claude Fleury (1640-1723) as an Educational Historiographer and Thinker R.

Wanner,2012-12-06 This study has grown out of an interest in French education and cul ture that dates from fondly remembered student days in France Specifically it is an attempt to explain the educational thought of Claude Fleury a literate responsible homme de leUres who analyzed the historical origins of public education as it existed in seventeenth century France and on that basis proposed what he considered to be a more generally useful program of studies Generous space has been devoted to historical social and pedagogical background in an effort to place Fleury s thought in its proper cultural context namely that of the decline of the Classical Age and the dawn of the Age of Reason This background material represents also an attempt to explain at times in detail the origin of Fleury s Traite du Choix et de la Methode des Etudes and his rise to scholarly and pedagogical prominence at court It is possible that Fleury s thought while of most immediate interest to students of seventeenth century cultural history will be of interest also to a more general audience In particular those charged with providing education that must respond to the ever increasing practical needs of society and at the same time give to contemporary man a of his cultural heritage may find in Fleury s thought some useful sense historical perspective It is a pleasure to acknowledge that this study would not have been possible without the encouragement and guidance of Dr William W **Forthcoming Books** Rose Arny,2003
