

The background of the book cover is a detailed illustration of a fly fisherman. The fisherman, wearing a dark jacket and light-colored trousers, stands on a large rock in a river, casting a fly fishing line. The river flows between rocky banks, with a dense forest of evergreen trees in the background. The scene is rendered in a classic, somewhat somber style with muted colors.

Cutthroat And Campfire Tales:

Cutthroat & Campfire Tales John H. Monnett,1988-01 **Cutthroat & Campfire Tales** John H. Monnett,2001 To cast a fly on high country waters in the West is to be part of an angling tradition that stretches back over a hundred years First published in 1988 John H Monnett s *Cutthroat and Campfire Tales* brings that heritage alive with its stories of nineteenth and early twentieth century fishing expeditions To the nineteenth century angler the West s resources appeared inexhaustible there seemed to be as many cutthroat trout in the rivers as there were stars in the sky Monnett shows how the error of that assumption became all too quickly apparent and also traces how the inevitable depletion of the trout led to early stocking efforts and changing attitudes toward conservation *Cutthroat* Pat Trotter,2008 *Cutthroat* tells the full story of the genuine native trout of the American West This new edition thoroughly revised and updated after 20 years synthesizes what is currently known about one of our most interesting and colorful fishes includes much new information on its biology and ecology asks how it has fared in the last century and looks toward its future In a passionate and accessibly written narrative Patrick Trotter fly fisher environmental advocate and science consultant details the evolution natural history and conservation of each of the cutthroat s races and incorporates more personal reflections on the ecology and environmental history of the West s river ecosystems The bibliography now includes what may be the most comprehensive and complete set of references available anywhere on the cutthroat trout Written for anglers nature lovers environmentalists and students and featuring vibrant original illustrations by Joseph Tomelleri this is an essential reference for anyone who wants to learn more about this remarkable beautiful and fragile western native **Montana Campfire Tales** Dave Walter,2011-06-14 No one knew more about Montana s history than the late great Dave Walter and no one told the state s stories with more eloquence humor and accuracy This new edition of the classic *Montana Campfire Tales* invites readers to gather around the campfire as Walter revisits the tragic Baker Massacre recounts Truman Everts s harrowing ordeal in Yellowstone and sheds light on more forgotten but fascinating aspects of the Treasure State s past Evocative historical photos and maps further bring to life the rich details in this book Visitors and residents alike will treasure *Montana Campfire Tales* for many years whether in an armchair next to a fireplace or around a fire at a campground *Fly-Fishing Secrets of the Ancients* Paul Schullery,2013-02-15 Modern fly fishing is only the latest chapter in a two millennia saga of technological creativity and passionate observation of the natural world In *Fly Fishing Secrets of the Ancients* historian naturalist Paul Schullery explores the earlier chapters in that saga and unearths a host of provocative theories techniques and insights that helped shape the modern fly fisher Schullery demonstrates that whether we re looking for a good fish story a clearer understanding of why we fish the way we do or even a way to improve our own sport we ignore our elders at our peril *Fly Fishing Secrets of the Ancients* offers the beginning fly fisher an unprecedented opportunity to come to terms with some of the sport s most fundamental theoretical and practical challenges It offers the expert fly fisher a chance to test current angling dogma and his

or her own pet theories against that of the sport's greatest past masters And it offers all readers a fresh probing and often humorous take on the great endless fish story we perpetuate and enrich every time we cast a fly

In the Work of Their Hands is Their Prayer Joel Daehnke, 2003 Enlisting works by Mark Twain and Willa Cather as well as noncanonical sources such as private journals Daehnke examines the manner in which the imagery of the human figure at work and play in the frontier landscape participated in the nationalist civilizing project of westward expansion While acknowledging the growing secularization of American life Daehnke surveys the continuing claims of the Christian redemptive scheme as a powerful symbolic domain for these writers reflections on social progress and the potential for human perfectibility in the landscapes of the West
