Terris, 2016-12-08 This book examines the use of third party mediation as a conflict resolution method In an attempt to explain why some but not all conflicts are mediated this work argues that diverse conflict structures are inherently different in their susceptibility to mediation attempts By offering a systematic method for measuring the transformability of conflict structures this book contributes to our understanding of the sufficient and necessary conditions for mediation In addition the study offers an analytical framework for the examination of mediation as a trilateral rational bargaining process Although the general concept of mediation as a three person game is not new most studies focus on either the disputants perspectives or the mediator s perspective In contrast this study integrates the perspectives of all three parties The framework links the different stages involved in the whole process of mediation from the onset of mediation through the mediation strategies used to the outcome rather than focusing on one particular aspect The book applies the framework to two case studies the conflict between Israel and Egypt and the conflict between India and Pakistan and provides new insights into these conflicts from a mediation perspective In general the model developed here provides a framework for systematically assessing conflicts and the options available to those involved in the mediation process This book will be of much interest to students of conflict resolution mediation war and conflict studies Asian politics Middle Eastern politics and IR in general      Re-envisioning Egypt 1919-1952 Arthur Goldschmidt, Amy J. Johnson, Barak A. Salmoni, 2005 Re Envisioning Egypt 1919 1952 presents new and often dismissed aspects of the constitutional monarchy era in Egyptian history It demonstrates that many of the domestic and regional sociopolitical and cultural changes credited to the 1952 revolutionaries actually began in the decades before the July coup Arguing against the predominant view of the pre revolutionary era in Egypt as one of creeping decay the volume restores understandings of the 1919 1952 years as integral to modern nation state formation and social transformation The

book's contributors show that Egypt's real revolutions were long term processes emerging over several decades prior to 1952. The leaders of the 1952 coup capitalized on these developments yet earlier changes in Egyptian society fundamentally facilitated their actions and policies. This volume includes revisionist discussion of domestic political issues and foreign policy, the military, education, social reform and class as well as popular media, art and literature. By introducing new approaches to these under appreciated categories of analysis through exploration of untapped sources and by re-examining the political context of the time, *Re Envisioning Egypt 1919-1952* proposes innovative methodologies for understanding this crucial period in Egyptian history, casting these years as fundamental to the country's twentieth century trajectory. Contributors: Tewfik Aclimandos, Malak Badrawi, Andrew Flibbert, Nancy Gallagher, Arthur Goldschmidt, Mervat Hatem, Misako Ikeda, Amy J. Johnson, Anne Claire Kerboeuf, Samia Kholoussi, Hanan Kholoussy, Fred Lawson, Shaun T. Lopez, Scott David McIntosh, Roger Owen, Lucie Ryzova, Barak A. Salmoni, James Whidden, Caroline Williams.

*The Unmaking of the Middle East* Jeremy Salt, 2008-07-09. Devastating in its portrayal of the depths to which the West, France, Britain and the US especially sank in conquering the Middle East. Starting off with Huntington's quote about Islam's bloody borders, Salt argues that it was the West that made these borders bloody though in the process it had no trouble finding native accomplices who helped wittingly or not. Mehran Kamrava, author of *The Modern Middle East*. This will be of much use to general readers who are ill served by the preponderance of books in the marketplace that explain political events by recourse to stereotypical representations of Arabs and Islam while neglecting important historical events that define current political and social reality in the region. None of the general history books on the Middle East offer comparable comprehensive details. Joseph A. Massad, author of *Desiring Arabs*. This excellent book is comprehensive in scope, scholarly and yet highly readable. Focusing on the damaging role of western policy in the Middle East, well exemplified in the current debacle in Iraq. It will be essential reading for students and historians of the region. Ghada Karmi, author of *Married to Another Man*. Israel's Dilemma in Palestine. Salt makes it abundantly clear that when it comes to the Middle East, the West talks idealistically and acts brutally. This excellent book should be required reading for future American policymakers thinking about invading another Arab or Islamic country. John J. Mearsheimer, R. Wendell Harrison, Distinguished Service Professor of Political Science at the University of Chicago.

Peacekeeping in the Middle East as an International Regime Kenneth Dombroski, 2007-11-21. This book investigates whether an international institution can alter state behaviour and thereby contribute to the peaceful resolution of a conflict. Kenneth Dombroski focuses on the series of interrelated peacekeeping efforts undertaken to help resolve the Arab-Israeli conflict from 1948-1994. Analyzing these sequential operations over a forty-six year period provides evidence as to the relative importance of institutions in a state-centric international system. He provides an alternative approach to the study of international peacekeeping that evaluates the long-term effects of peacekeeping on state behaviour and concomitantly the effects of varying state behaviour on an international regime. This book offers new perspectives on the relative importance of

regimes the utility of regime analysis in explaining the importance of international institutions the significance of a peacekeeping regime s role in influencing state behaviour and the impact of varying state behaviour on regime evolution
