## LANGUAGES

English

Hindi

An accomplished Nutrition Researcher Food Scientist with a profound passion for unravelling the intricate relationship between nutrition, food, and human health. Offering strong proficiency in designing, executing, and analysing scientific studies to advance our understanding of dietary impacts. Skilled in research methodology, laboratory techniques, and data analysis, with a proven track record of contributing to evidence-based dietary recommendations and food product innovation.

## EMPLOYMENT HISTORY

### Nutrition Researcher Food Scientist | Jul 2022 - Present Eros International, Chennai

- Developing research plans and methodologies for investigating the nutritional properties of food, including its composition, quality, and safety.
- Conducting experiments and studies to gather data on food components, including macronutrients, micronutrients, bioactive compounds, and allergens.
- Analysing research findings using statistical and laboratory techniques to draw conclusions and make recommendations related to nutrition and health.
- Publishing research findings in scientific journals, present results at conferences, and contribute to the scientific community's understanding of nutrition and food science.
- Collaborating with food manufacturers and developers to create nutritious and safe food products or modify existing ones to improve their nutritional profiles.

### Nutrition Food Research Assistant | Jul 2019 - Jun 2022 Stark Industries, Chennai

- Assisted in gathering data by conducting surveys, interviews, or dietary assessments of study participants, and accurately recorded the information.
- Prepared and processed food samples, conducted analyses of nutrients, and performed laboratory experiments to assess the nutritional composition of various foods.
- Conducted literature reviews and gathered relevant research articles and publications to support the research objectives.
- Maintained laboratory equipment and ensured its in working order, as well as assisted with the setup and calibration of equipment for experiments.
- Provided administrative assistance to research teams, such as scheduling participant appointments, coordinating meetings, and managing research documentation.

## EDUCATION

### Ph.D in Food Technology | 2022 Indian Institute Of Technology, Chennai

### M.Sc in Food & Nutrition | 2018 SRM University, Chennai

### B.Sc in Microbiology | 2016 University of Madras, Chennai

## **Cv Nutrition Science And Applications:**

Nutrition Lori A. Smolin, 2008      *CV Nutrition* Smolin, 1999-03      *CV: Study Guide to Accompany Nutrition Science and Applications* Lori A. Smolin, Mary B. Grosvenor, Melanie Tracy Burns, 2002-01-10      CV Nutrition Lori A. Smolin, Mary B. Grosvenor, 1999-03-17      *Development of Nutritional Science in India* B. S. Narasinga Rao, 2005      Journal of the American Veterinary Medical Association, 1995      Applications of Essential Oils in the Food Industry Charles Oluwaseun

Adetunji, Javad Sharifi-Rad, 2023-12-02 *Applications of Essential Oils in the Food Industry* delivers detailed information on the application of essential oils derived from underutilized crops and herbs for the development, preservation and safety of food products. The book covers post harvest fruits and vegetables and their adjuvant and plasticizers when applied as an edible coating as well as their mechanism of action as preservatives for foods such as fish, meats and yogurts. The book highlights the use of essential oils as anti-microbials, bio-preservatives and antioxidants and also examines their effectiveness against several food-borne pathogens and in enhancing the aroma of food products. Presents the latest research information on essential oils as anti-microbials, bio-preservatives and antioxidants. Describes how essential oils can be used for the management of mycotoxins especially for the management of toxigenic strains producing higher level of aflatoxin. Includes information on the utilization of essential oils in beverages, drinks and semi-liquid foods. Demonstrates the synergistic effect of nanotechnology together with essential oils including information on nano-ceutical, nano-emulsion and nano-pharmacology.

*Application of Plant Biodiversity for Improving Nutrient Cycling* Katja Witzel, Christoph Martin Geilfus, Christian Roger Marc Hermans, 2022-11-14. The current agricultural plant production system is dominated by mono-cropping with genetically uniform cultivars. This genetic erosion has led to a displacement of locally adapted landraces and cultivars and poses a serious threat to plant productivity in stressed agro-ecosystems. The adaptation of crops to drought, heat, salinity and low soil fertility is becoming paramount due to global climate change. Utilizing exotic or underused germplasms as a source of adaptive traits is a largely untapped way to ensure a stable yield. The task to apply biodiversity in crop production to confer food security and sustainability was acknowledged by the Food and Agriculture Organization of the United Nations and reflected by the United Nations Sustainable Development Goals. In many parts of the world, poor soil fertility threatens yield stability. Therefore, the soil nutrient reserve must be replenished to sustain crop yield. Mineral fertilizer in excess, however, is detrimental to the environment. For instance, elevated loads of nitrogen, phosphorus or chlorine pollute water bodies and impact on biodiversity. Major anticipated concerns for our agricultural systems are the limitation in phosphorus, temperature increase, extreme and unpredictable weather events and salinity. Therefore, environmentally friendly strategies to optimize nutrient cycling are urgently required and this involves increasing nutrient use efficiency. In the face of climate change, it is necessary to mine crop biodiversity to increase nutrient uptake and usage and to help implement a Zero Waste concept in plant nutrition. This Research Topic is intended to provide an updated view on the use of crop biodiversity to open new

avenues for improved nutrient cycling We welcome contributions Original Research Review Mini Review and Perspective covering any of the following aspects Studies on improving nutrient fluxes through control of production factors both in controlled environments and in the field horticulture agriculture Screening and application of genebank material for improved nutrient use efficiency Studies on the effect of combining novel crop species multi cropping intercropping rotations cover cropping on crop performance and nutrient availability Effect of mutualistic species mycorrhiza or bacteria on nutrient cycling e g improvement of nutrient uptake and by mutualism Climate change driven effects on nutrient cycling e g how do different temperatures precipitation influence nutrient cycling through soils

**The American Journal of Clinical Nutrition** ,2000     Environmental Health Perspectives ,2010     The Scientist ,1999     **The Directory of Graduate Programs in Nutritional Sciences** ,1993     New Scientist and Science Journal ,2004     *Nutrition Science, Marketing Nutrition, Health Claims, and Public Policy* Dilip Ghosh,Diana Bogueva,R. Smarta,2023-04-12 Nutrition Science Marketing Nutrition Health Claims and Public Policy explains strategies to guide consumers toward making informed food purchases The book begins with coverage of nutrition science before moving into nutrition marketing social marketing and responsibility consumer perception and insight public health policy and regulation case studies and coverage on how to integrate holistic health into mainstream brand marketing Intended for food and nutrition scientists who work in marketing manufacturing packaging as well as clinical nutritionists health care policymakers and graduate and post graduate students in nutrition and business related studies this book will be a welcomed resource Includes case studies points of view literature reviews recent developments data and methods Explores intrinsic and extrinsic motivators for consumer purchasing behaviors Covers each aspect of Seed to Patient pathway

**The Journal of NIH Research** ,1994     *Agro-Wastes for Packaging Applications* Sneh Punia Bangar,Priyanka Kajla,2024-08-01 Food and agricultural waste is a huge global issue that has detrimental effects on society the economy and the environment Plant leaves stems roots and peels outer leaves and stems are among the wastes and by products from agriculture and the food business along with residues from oil production fruit and vegetable peels and seeds High concentrations of dietary fiber phytochemicals cellulose and hemicellulose are typically found in these residues As the next environmentally conscious step of waste valorization research from recent years has demonstrated that employing organic ingredients biodegradable fibers generated from waste and by products in the food packaging business may be an efficient strategy to reduce the quantity of food waste and by products In recent years there has been a lot of interest in finding alternative polymer materials as high value novel packaging materials through the valorization of agricultural waste Thus utilizing agricultural wastes and by products as raw materials for food packaging could help cut down on the amount of waste produced Agro Wastes for Packaging Applications provides an update on the strategies for valuing agricultural waste and how these might be used in packaging It also includes recent research on these approaches and presents an innovative strategy for developing sustainable green and biodegradable packaging options A

detailed overview of the packaging application of valorized agricultural waste materials is discussed and concept clarification is achieved using flowcharts and figures supported by the latest research investigations These agricultural leftovers are abundant sources of polysaccharides such as cellulose hemicellulose and lignin which can be processed further utilizing various physicochemical techniques and other unconventional techniques to create nanocellulose fibers or crystals The main goal of this book is to provide food experts and the general public with superior environmentally friendly sustainable packaging materials that can be used in place of plastic polymers Key Features Contains abundant information on advanced valorization techniques for different types of agricultural wastes Provides information on possible applications of component constituents obtained by the valorization Discusses the impact of the incorporation of these valorized components in different packaging systems Reviews the legal standards and future trends in the commercialization of these derived polymers in food packaging industries

**Science** John Michels (Journalist), 2008 A weekly record of scientific progress Protein quality assessment in follow-up formula for young children and ready to use therapeutic foods Food and Agriculture Organization of the United Nations, 2018-11-21 Consistent with the need to provide safe food for young children particularly during the complementary feeding period between 12 and 36 months and the period of rapid development to age 59 months the Food and Agriculture Organization of the United Nations FAO convened an Expert Working Group the FAO Headquarters Rome Italy from 6 to 9 November 2017 The meeting addressed questions related to protein quality evaluation in two distinct products used to feed children in different conditions Ready to Use Therapeutic Food RUTF and Follow up Formula for Young Children FUF YC Specific meeting objectives were To determine the appropriate comparative protein or amino acid reference pattern to define protein quality for use in FUF YC and RUTF To provide guidance on the preferred protein quality assessment methodology that should be stipulated with the standards for FUF YC and RUTF To provide guidance on the measurement of protein and amino acid digestibility To provide the appropriate reference amino acid profiles and the amino acid composition of common ingredients used for FUF YC and RUTF To provide cost implications for countries to use PDCAAS in FUF YC and RUTF This report provides future research recommendations including the need to generate data on the true ileal digestibility for different protein sources so that Digestible Indispensable Amino Acid Score DIAAS values can be used in the future

Aquaculture: Enhancing Food Security and Nutrition Imtiaz Ahmed, Ishtiyag Ahmad, 2025-07-01 This work compiles the impact of aquaculture in addressing the pressing challenges of global food security and nutritional deficits The book provides a comprehensive understanding about how aquaculture is playing an instrumental role in ensuring a sustainable and nourished food source In the face of a growing global population and increasing demands for protein rich diets traditional means of fish and its products from wild fisheries alone are inadequate which warrant an alternate source that can fulfill the demand of fish for human consumption Aquaculture emerges as a sustainable solution promising to bridge the widening gap between the supply and demand for fish and its products Through meticulously researched insights and

data the book showcases how aquaculture systems are meeting the protein and nutritional needs of people worldwide The book entitled as Aquaculture Enhancing Food Security and Nutrition sheds light on the various forms of aquaculture like freshwater marine and brackish water cultivation highlighting their benefits and potential drawbacks The focus is on in what way aquaculture practices can be environmentally responsible economically viable and socially inclusive paving the itinerary for a balanced and sustainable food ecosystem By exploring the advancements in aquaculture technologies such as recirculating aquaculture systems RAS and integrated multi trophic aquaculture IMTA the book also advocates the environmental friendly and resource efficient practices that enhance both food security and nutrition Moreover the book underscores the nutritional value of fish and its products highlighting their rich nutrient composition including protein amino acids fatty acids vitamins and minerals which are fundamental for human health It also offers insights about the incorporation of fish and its products in the food that can positively impact nutrition and combat malnutrition especially in vulnerable human populations

**Mononuclear Leukocytes—Advances in Research and Application: 2012 Edition**  
,2012-12-26 Mononuclear Leukocytes Advances in Research and Application 2012 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Mononuclear Leukocytes The editors have built Mononuclear Leukocytes Advances in Research and Application 2012 Edition on the vast information databases of ScholarlyNews You can expect the information about Mononuclear Leukocytes in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Mononuclear Leukocytes Advances in Research and Application 2012 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>

Fuel your quest for knowledge with is thought-provoking masterpiece, Dive into the World of **Cv Nutrition Science And Applications** . This educational ebook, conveniently sized in PDF ( \*), is a gateway to personal growth and intellectual stimulation. Immerse yourself in the enriching content curated to cater to every eager mind. Download now and embark on a learning journey that promises to expand your horizons. .

## **Cv Nutrition Science And Applications Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Cv Nutrition Science And Applications has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Cv Nutrition Science And Applications has opened up a world of possibilities. Downloading Cv Nutrition Science And Applications provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Cv Nutrition Science And Applications has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Cv Nutrition Science And Applications. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Cv Nutrition Science And Applications. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Cv Nutrition Science And Applications, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Cv Nutrition Science And Applications has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of

free PDF resources available and embark on a journey of continuous learning and intellectual growth.

## **FAQs About Cv Nutrition Science And Applications Books**

**What is a Cv Nutrition Science And Applications PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Cv Nutrition Science And Applications PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Cv Nutrition Science And Applications PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Cv Nutrition Science And Applications PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Cv Nutrition Science And Applications PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
