

A young man with short brown hair, wearing a dark blue t-shirt and black shorts, is sitting in a meditative pose on a dark rock. He is facing away from the camera, looking out over a vast body of water towards a hazy, mountainous coastline under a soft, golden sunset sky. The overall mood is peaceful and contemplative.

wondering how you can improve your life business or relationship Many times we become so caught up in the daily tasks and details of our lives that we forget to take a step back and look at the big picture But one thing is certain as long as you are alive you are always improving This is true for your career your relationships your health your finances and every single aspect of your life You will always be improving One of the main reasons why some people fail to achieve their goals and dreams is because they believe that it s not possible They are convinced that the task is too big and impossible to be achieved The secret to success is getting started The key to creativity is knowing how to hide your sources And the courage to say what you think If you are one of these people I have great news for you Our thoughts affect our decisions so we should be conscious of the kind of thoughts that we think Your mindset determines your success If you think you are worthless you will fail If you think that you are worthless your mind will block your potential It will hinder you to achieve great things in your life So you should think that you are worthy and that you have potential Think of yourself as a winner not a loser You should be positive about yourself Believe that you can achieve whatever you want You can make anything happen in your life if you believe in yourself Just keep on going and you will succeed This is not just a self help book It is a practical self paced training program that teaches you how to apply these same techniques to anything you want to achieve I ll walk you through the process step by step as well as how to implement them in real life situations *How To Think Positively and Achieve*

Success James David Rockefeller, Positive thinking has become a popular concept these days Everyone is reading or writing about it or trying out techniques to change from a negative to a positive person Of course there is good reason for it Positive thinking helps change your mindset from that of failure to success It helps you become a happier person who is great to be with It makes you someone who is not afraid to take calculated risks to achieve what they want to In general positive thinking can bring about a massive change in your emotional physical mental and social life So what exactly is positive thinking Can it really help you How do you become a positive person How do you know whether your thinking is positive or negative How can you stop your negative thoughts What if they come back How do you replace your negative thoughts with positive ones How do you ensure that you continue living life on the positive track What advantages can you get from being positive Can anyone become positive Find out the answers to these questions in this book **How to Change Your Mindset to Achieve**

Huge Success Mark Ferguson, 2021-06-18 When I graduated from college in 2001 I thought I had the world by the horns I had a degree in business finance I was smart and I knew I would be successful The only problem I had was I had no plan no idea what I wanted to do for work and I wasn't the hardest worker For some reason I was not super successful right out of college I ended up working for my dad part time in real estate which became full time and then an awesome business I struggled in the beginning of my career not because I was in the wrong field or I was not knowledgeable but because I had a bad attitude and did not know how to be successful I thought I was smart I was educated I thought I could be successful but there is much more to success than intelligence and education Hard work is also a very important part of success and although I could have definitely worked a little harder in school and at work that wasn't the missing piece to the puzzle Not only did I struggle after college I became very frustrated with where my career was going I lost some of my dreams I started to tell myself I didn't want fancy things or nice cars because I started to believe I would never be able to get those things If I convinced myself I didn't want those things maybe I would be less disappointed A funny thing happened a few years into my real estate career I got fed up with how things were going and I made some drastic changes At first the changes resulted in me making much less money and being way more stressed However I accidentally started to create some goals because I got fed up with how things were going Then I started to listen to other people and not rely on just myself I got outside my comfort zone and did things that scared me and were very hard to do My life started to turn around and success followed very quickly I went from having a goal to make 100 000 a year to a goal to make 1 000 000 a year in a few years I found success in multiple businesses I built a team that reduced my stress and time I worked I became happier I bought an awesome house had an awesome family and even bought a Lamborghini a life long dream The more successful I became the more I realized that success was not about intelligence hard work or even education It was about belief planning confidence and structure In this book I will tell you a little more about my story How I made 28 000 in 2006 but now have 16 rentals flip 10 to 15 houses a year run a real estate team of ten and work less than 40 hours a week I could retire at the age of 37 but I have big goals and big aspirations plus I love what I do
