could be produced in order to change our society which is basically shaped by and for human mortal beings in a society composed by immortal persons Some writers have written about what a future populated with immortals might look like which is far removed from both the bright future painted by transhumanists and from the disappearance of humanity feared by bioconservatives *Masculinity in Contemporary Science Fiction Cinema* Marianne Kac-Vergne, 2017-12-14 If science fiction stages the battle between humans and non humans whether alien or machine who is elected to fight for us In the classics of science fiction cinema humanity is nearly always represented by a male and until recently a white male Spanning landmark American films from Blade Runner to Avatar this major new study offers the first ever analysis of masculinity in science fiction cinema It uncovers the evolution of masculine heroes from the 1980s until the present day and the roles played by their feminine counterparts Considering gender alongside racial and class politics *Masculinity in Contemporary Science Fiction Cinema* also situates filmic examples within the broader culture It is indispensable for understanding science fiction and its role in contemporary cultural politics *Technoscience in Contemporary Film* Aylish Wood, 2002 This analysis of images of science and technology from popular films of the 1980s and 1990s argues that films as diverse as the science fiction film Jurassic Park contribute to popular understandings of science and technology *Science Fiction Film, Television, and Adaptation* J. P. Telotte, Gerald Duchovnay, 2011-08-02 The book examines the difficulty of adapting from one screen medium to another by looking at both successful and unsuccessful efforts in the area of science fiction Those difficult efforts at moving from film to TV and from TV to film reveal much about the technologies involved and this highly technological genre as well **Technologies of Feminist Speculative Fiction** Sherryl Vint, Sümeyra Buran, 2022-05-04 *Technologies of Feminist Speculative Fiction* Gender Artificial Life and the Politics of Reproduction explores how much technology has reshaped feminist conversations in the decades since Donna Haraway's influential Cyborg Manifesto was published With sections exploring reproductive technologies new ways of imagining femininity and motherhood via artificial means queer readings of gender as a social technology and posthuman visions of a world beyond gender this book demonstrates how feminist speculative fiction offers an urgently needed response to the intersections of women's bodies and technology This collection brings together authors from Europe Japan the US and the UK to consider speculative films and texts reproductive technologies and food futures and opportunities to rethink family aging gender and sexuality and community through feminist speculative fiction a social technology for building better futures *American Science Fiction Film and Television* Lincoln Geraghty, 2009-10-01 *American Science Fiction Film and Television* presents a critical history of late 20th Century SF together with an analysis of the cultural and thematic concerns of this popular genre Science fiction film and television were initially inspired by the classic literature of HG Wells and Jules Verne The potential and fears born with the Atomic age fuelled the popularity of the genre upping the stakes for both technology and apocalypse From the Cold War through to America's current War on Terror science fiction has proved a subtle vehicle for the hopes fears and

preoccupations of a nation at war The definitive introduction to American science fiction this is also the first study to analyse SF across both film and TV Throughout the discussion is illustrated with critical case studies of key films and television series including *The Day the Earth Stood Still* *Planet of the Apes* *Star Trek The Next Generation* *The X Files* and *Battlestar Galactica* *Film Consciousness* Spencer Shaw, 2015-03-10 The notion of film consciousness is one that has played around various film and philosophical discourses without ever really surfacing as a cogent theory Representing the first major expression of film consciousness as a tangible concept this critical study revisits notions of memory retentional consciousness narrative expectation and spatio temporal perception while also analyzing several major films The first half of the book focuses on understanding the elements of the film experience and its associated consciousness through the descriptive tools of phenomenology The second part develops the idea of film consciousness as a unique vision of the world and as a large element in the human understanding of reality Throughout the work the author combines the ideas of philosophers and film theorists from phenomenology such as Husserl Merleau Ponty Bazin and Kracauer with the postmodernist work of Deleuze and transitional theorists Bergson and Benjamin *The Science Fiction Film in Contemporary Hollywood* Evdokia Stefanopoulou, 2023-07-27 The Science Fiction Film in Contemporary Hollywood focuses on the American science fiction SF film during the period 2001 2020 in order to provide a theoretical mapping of the genre in the context of Conglomerate Hollywood Using a social semiotics approach in a systematic corpus of films the book argues that the SF film can be delineated by two semiotic squares the first one centering on the genre's more than human ontologies SF bodies and the second one focusing on its imaginative worlds SF worlds Based on this theoretical framework the book examines the genre in six cycles which are placed in their historical context and are analyzed in relation to cultural discourses such as technological embodiment race animal human relations environmentalism global capitalism and the techno scientific Empire By considering these cycles which include superhero films creature films space operas among others as expressions of the genre's basic oppositions the book facilitates the comparison and juxtaposition of films that have rarely been discussed in tandem offering a new perspective on the multiple articulations of the SF film in the new millennium **Tokyo Cyberpunk** Steven T. Brown, 2016-04-30 Engaging some of the most canonical and thought provoking anime manga and science fiction films Tokyo Cyberpunk offers insightful analysis of Japanese visual culture Steven T Brown draws new conclusions about the cultural flow of art as well as important technological issues of the day **Science-fiction Studies** , 2008
