## **Cyclical Time Ismaili Gnosis:**

*Cyclical Time & Ismaili Gnosis* Henry Corbin, 2021-09-23 The volume *Cyclical Time and Ismaili Gnosis* brings together in English translation three of Henry Corbin's richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in 1956 Each of these three relatively early studies is built around a complex highly creative comparison of the phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in an equally wide range of Islamic texts eventually preserved in the later Ismaili Shi'i tradition

**Ismaili Sources, Studies, History and Traditions** Farhad Daftary, 2025-09-25 Until recently Ismailis were studied and evaluated almost exclusively on the basis of evidence often fabricated by adversaries Thus a variety of legends and misrepresentations circulated in Europe as well as among other Muslim communities regarding the teachings and practices of this Shi'i Muslim community With the access of modern scholars to numerous Ismaili manuscript sources preserved in Yemen Syria Iran Central Asia and India a completely new image of the Ismailis has emerged A leading authority in Ismaili studies Farhad Daftary draws on the results of modern scholarship in the studies collected here on Ismaili history and aspects of Ismaili thought and traditions

**The Isma'ilis** Farhad Daftary, 1992-04-24 Scattered across the globe the Isma'ilis constitute the second largest Shi'i community in the Muslim World This study traces their history and doctrinal developments from their origins to the present day over a period of twelve centuries

**Devotion Divine** Diana L. Eck, Françoise Mallison, 2025-02-10 Bhakti traditions from the regions of India Co-edition with Cole Françoise d'Extrême Orient Paris

Walayah in the Fāṭimid Ismā'īlī Tradition Elizabeth R. Alexandrin, 2017-07-19 In this original study Elizabeth R. Alexandrin examines the complex relationships that can be inscribed between medieval Ismā'īlī thought as an intellectual tradition with a devotional practice of reliance on the Imam and as a politico-esoteric system that redefined governance during the Fāṭimid caliphate in the eleventh century Alexandrin's work is a departure from recent Western scholarship that focuses on similarities among early Islamic traditions She argues instead that under the guidance of the Fāṭimid Ismā'īlī chief missionary al-Mu'ayyad f al-Dīn al-Shīrāzī 1078 CE the concept of walayah (divine guidance) became closely associated with religious-political authority on the one hand and the perfection of the individual human being on the other By signaling and affirming how the Fāṭimid caliph-imams were the heirs of walayah and by proposing new definitions of the seal of God's friends (khawāṭim al-awliyā) al-Mu'ayyad broadened the contexts of making esoteric knowledge public and shifted the apocalyptic frameworks of Islamic messianism

**Collected Prose** Charles Olson, 1997-12-19 The prose writings of Charles Olson 1910-1970 have had a far-reaching and continuing impact on post-World War II American poetics Olson's theories which made explicit the principles of his own poetics and those of the Black Mountain poets were instrumental in defining the sense of

the postmodern in poetry and form the basis of most postwar free verse The Collected Prose brings together in one volume the works published for the most part between 1946 and 1969 many of which are now out of print A valuable companion to editions of Olson s poetry the book backgrounds the poetics preoccupations and fascinations that underpin his great poems Included are Call Me Ishmael a classic of American literary criticism the influential essays Projective Verse and Human Universe and essays book reviews and Olson s notes on his studies In these pieces one can trace the development of his new science of man called muthologos a radical mix of myth and phenomenology that Olson offered in opposition to the mechanistic discourse and rationalizing policy he associated with America s recent wars in Europe and Asia Editors Donald Allen and Benjamin Friedlander offer helpful annotations throughout and poet Robert Creeley who enjoyed a long and mutually influential relationship with Olson provides the book s introduction

**The Oxford Encyclopedia of Philosophy, Science, and Technology in Islam** Salim Ayduz, 2014 The main reference source for questions of Islamic philosophy science and technology amongst Western engaged readers and academics in general and legal researchers in particular

**Mysticism and Philosophy in al-Andalus** Michael Ebstein, 2013-11-21 Muslim Spain gave rise to two unusual figures in the mystical tradition of Islam Ibn Masarra 269 883 319 931 and Ibn al Arab 560 1165 638 1240 Representing respectively the beginning and the pinnacle of Islamic mysticism in al Andalus Ibn Masarra and Ibn al Arab embody in their writings a type of mystical discourse which is quite different from the Sufi discourse that evolved in the Islamic east during the 9th 12th centuries In Mysticism and Philosophy in al Andalus Michael Ebstein points to the Ism l tradition as one possible source which helped shape the distinct intellectual world from which both Ibn Masarra and Ibn al Arab derived By analyzing their writings and the works of various Ism l authors Michael Ebstein unearths the many links that connect the thought of Ibn Masarra and Ibn al Arab to the Ism l tradition

**The Nativist Prophets of Early Islamic Iran** Patricia Crone, 2012-06-28 Patricia Crone s latest book is about the Iranian response to the Muslim penetration of the Iranian countryside the revolts subsequently triggered there and the religious communities that these revolts revealed The book also describes a complex of religious ideas that however varied in space and unstable over time has demonstrated a remarkable persistence in Iran across a period of two millennia The central thesis is that this complex of ideas has been endemic to the mountain population of Iran and occasionally become epidemic with major consequences for the country most strikingly in the revolts examined here and in the rise of the Safavids who imposed Shi ism on Iran This learned and engaging book by one of the most influential scholars of early Islamic history casts entirely new light on the nature of religion in pre Islamic Iran and on the persistence of Iranian religious beliefs both outside and inside Islam after the Arab conquest

**Alone with the Alone** Henry Corbin, 1998 Ibn Arabi was one of the great mystics of all time Through the richness of his personal experience and the constructive power of his intellect he made a unique contribution to Shi ite Sufism In this book which features a powerful new preface by Harold Bloom Henry Corbin brings us to the very core of this movement with a penetrating analysis of Ibn

Arabi's life and doctrines      Science and Religion in Search of Cosmic Purpose John F. Haught, 2000-03-03 Many scientists today think of the universe as essentially purposeless. Likewise, modern and postmodern philosophers have often been suspicious of any religious claims that the natural world embodies eternal meaning or teleology. Not all scientific thinkers subscribe to this cosmic pessimism, however, and some would even argue that contemporary knowledge is consistent with a religious sense of cosmic purpose. This stimulating book offers candid reflections on the question of cosmic purpose, written both by prominent scientists and by scholars representing the world's religious traditions. Examining the issue from a wide variety of perspectives, this is the only current book to deal with cosmic purpose from an interreligious and interdisciplinary perspective. Here scientists such as physicist Andrei Linde and biologist Francisco Ayala come face to face with Islamic scholar Seyyed Hossein Nasr, Hindu philosopher Anindita Niyogi Balslev, and others. They examine such perplexing issues as the possible existence of multiple universes and the implications of seemingly purposive features in life. The contributions address the question of whether a religiously based notion of a purposeful cosmos is consistent with the latest scientific understanding of nature and whether theology can affirm the presence of divine action without contradicting science. These essays will challenge readers to ponder their own place in the cosmos as they seek to interpret the visions of the world's great spiritual traditions in the light of natural science.

**Medieval Islamic Civilization** Josef W. Meri, 2006 Examines the socio-cultural history of the regions where Islam took hold between the 7th and 16th century. This two-volume work contains 700 alphabetically arranged entries and provides a portrait of Islamic civilization. It is of use in understanding the roots of Islamic society as well as to explore the culture of medieval civilization.

**Lived Islam in South Asia** Imtiaz Ahmad, Helmut Reifeld, 2004 *Lived Islam in South Asia: Adaptation, Accommodation and Conflict* is an extremely timely and important publication. Fourteen interesting papers based on intensive fieldwork in Nepal, Sri Lanka, Pakistan, and India explore a highly controversial subject. They touch on the everyday religious lives of the Muslims in these countries. The book argues that Islam cannot be understood through the works of theologians alone; for whom it is a formal, uniform, and rigid system of beliefs and practices. Popular Islam, or Islam as it is practised by millions of Muslims in South Asia, has an empirical validity and is a dynamic process of adjustment and accommodation as well as conflict with other religions with which it coexists.

**Extremist Shiites** Matti Moosa, 1988-02-01 Little is known in the West about the division of the Islamic world into Shiites and Sunnites, and even less about the stratification of these two groups, with most of the attention going to the Sunnites. Moosa's comprehensive study of the origins and cultural aspects of the different extremist or Ghulat Shiite sects in the Middle East is a ground-breaking work. These sects, whose extremism is essentially religious, are generally peaceful people and, except for the Nusayris of Syria, are not political activists.

*Early Philosophical Shiism* Paul E. Walker, 1993-07-30 The first book-length study of a leading tenth-century Ismaili theoretician, Abu Ya'qub al-Sijistani.

*Historical Dictionary of the Ismailis* Farhad Daftary, 2012 The Ismaili Muslims who belong to the Shia branch of Islam live

in over 25 different countries around the world mainly in Asia Africa and the Middle East Their history has typically been linked to the history of the various countries in which they live but the worldwide community is united under Prince Karim Aga Khan the spiritual leader and 49th Imam of the Ismaili Muslims Few fields of Islamic studies have witnessed as drastic a change as Ismaili studies due in part to the recent discovery of numerous historical texts and author Farhad Daftary makes extensive use of these new sources in the Historical Dictionary of the Ismailis This comprehensive new reference work is the first of its kind on the Ismailis and presents a summary of the findings of modern scholarship on the Ismaili Shia Muslims and different facets of their heritage The dictionary covers all phases of Ismaili history as well as the main doctrines of the community It includes an introductory chapter which provides a broad historical survey of the Ismailis followed by alphabetical entries on all major aspects of the community such as key figures institutions traditions and doctrines It also contains a chronology genealogical tables a glossary and a substantial bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Ismailis

**Theosophia** Arthur Versluis, 1994 Traces a long hidden esoteric stream in Christianity and discovers a powerful gnostic spirituality

**Jewish History and Jewish Memory** Yosef Hayim Yerushalmi, 1998 Publication of Yosef Yerushalmi's *Zakhor* in 1982 inspired a generation of scholarly inquiry into historical images and myths the construction of the Jewish past and the making and meaning of collective memory Here eminent scholars in their respective fields extend the lines of his seminal study into topics that range from medieval rabbinics homiletics kabbalah and Hasidism to antisemitism Zionism and the making of modern Jewish identity Essays are clustered around four central themes historical consciousness and the construction of memory the relationship between time and history in Jewish thought the demise of traditional forms of collective memory and the writing of Jewish history in modern times

**Arabic Historical Thought in the Classical Period** Tarif Khalidi, 1994-12 A survey of an entire tradition of historical thought and writing across a span of eight hundred years

*The Ismailis in the Middle Ages* Shafique N. Virani, 2007-04-19 None of that people should be spared not even the babe in its cradle With these chilling words the Mongol warlord Genghis Khan declared his intention to destroy the Ismailis one of the most intellectually and politically significant Muslim communities of medieval Islamdom The massacres that followed convinced observers that this powerful voice of Shi'i Islam had been forever silenced Little was heard of these people for centuries until their recent and dramatic emergence from obscurity Today they exist as a dynamic and thriving community established in over twenty five countries Yet the interval between what appeared to have been their total annihilation and their modern seemingly phoenix like renaissance has remained shrouded in mystery Drawing on an astonishing array of sources gathered from many countries around the globe *The Ismailis in the Middle Ages A History of Survival A Search for Salvation* is a richly nuanced and compelling study of the murkiest portion of this era In probing the period from the dark days when the Ismaili fortresses in Iran fell before the marauding Mongol hordes to the emergence at Anjudan of the Ismaili Imams who provided a spiritual

centre to a scattered community this work explores the motivations passions and presumptions of historical actors With penetrating insight Shafique N Virani examines the rich esoteric thought that animated the Ismailis and enabled them to persevere A work of remarkable erudition this landmark book is essential reading for scholars of Islamic history and spirituality Shi ism and Iran Both specialists and informed lay readers will take pleasure not only in its scholarly perception but in its lively anecdotes quotations of delightful poetry and gripping narrative style This is an extraordinary book of historical beauty and spiritual vision
