Cyril and Methodius of Thessalonica Anthony-Emil N. Tachiaos, 2001 At the height of the tumultuous developments taking place in Central and Eastern Europe in the ninth century two Greek missionaries from Thessalonica came to the fore Their work of acculturation among the Slavs had far reaching and lasting changes upon European life This book looks back over the life and work of these two outstanding figures and analyzes their ecclesiastical and cultural mission Their presence in the Crimea was closely bound up with several aspects of Byzantium s ecclesiastical policy and programs of acculturation and also with the Russians first encounter with Christianity In presenting the Slavs with an alphabet and the written work the brothers transmitted to them the world and thus it was in Cyril and Methodius time and thanks to their work that Great Moravia reached the height of its vigor and prosperity as a central European state The Cyrillo Methodian tradition lived on spreading among the Slavic peoples and laying the foundation of their spiritual life BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Adeney, 2009-04-01 The current religious climate poses unique challenges to those engaged in mission Thus the authors of this book propose a new yet very biblical model for interacting with people of other faiths They term this model giftive mission as it is based on the metaphor of free gift We bear the greatest gift possible the gospel message Adopting this perspective not only has the potential for greater missionary success but also enables us to more closely imitate God s gracious activity in the world The core of the book explores eleven practices that characterize giftive mission Each practice is illustrated through the story of a figure from mission history who embodied that practice Further discussion shows how to incorporate these practices in specific mission settings

Stringer, 2005-07-14 In this book the 2000 year history of Christian worship is viewed from a sociological perspective Martin Stringer develops the idea of discourse as a way of understanding the place of Christian worship within its many and diverse social contexts Beginning with the Biblical material the author provides a broad survey of changes over 2000 years of the Christian church together with a series of case studies that highlight particular elements of the worship or specific theoretical applications Stringer does not simply examine the mainstream traditions of Christian worship in Europe and Byzantium but also gives space to lesser known traditions in Armenia India Ethiopia and elsewhere Offering a contribution to the ongoing debate that breaks away from a purely textual or theological study of Christian worship this book provides a greater understanding of the place of worship in its social and cultural context **Greek East and Latin West** Andrew Louth, 2007 This volume gives an account of the Church in the period from the end of the Sixth

Ecumenical Synod in 681 to the Battle of Manzikert in 1071 Although Greek East and Latin West are becoming distinct entities during this expanse of time the author treats them in parallel observing the points at which their destinies coincide or conflict The author notes developments within the whole of the Church rather than striving simply or even primarily to explain the eventual schism between Eastern and Western Christendom Coveriing events both unique to each part the Iconoclastic controversy in the East and the rise of the Carolingian Empire in the West and common to each part monastic reform renaissance and mission the author skillfully portrays two Christian civilizations that share much in common yet become increasingly incomprehensible to one another Despite curious synchronisms between East and West the author demonstrates how two paths diverged from a once common route and how eventually Byzantine Orthodoxy defined the Greek East over and against the Latin West in theological religious cultural and political terms Provided by publisher
