Czech Red Unions 1918 1929:

The Czech Red Unions, 1918-1929 Kevin McDermott, 1988 Examines the relationship between the Czech Red Unions the Communist Party of Czechoslovakia and the Moscow Internationals and demonstrates that the Red trade unions were able to maintain a degree of independence and national specificity in the face of growing pressure from the Bolsheviks **The Red International of Labour Unions (RILU) 1920 - 1937** Reiner Tosstorff, 2016-09-07 The Red International of Labour Unions RILU Russian abbreviation Profintern was a central instrument for the spreading of international communism during the inter war period This comprehensive and scholarly history of the organisation based on extensive research in the former communist archives in Moscow and East Berlin sheds significant light on the international trade union movement of the period Tosstorff shows how the RILU began as a revolutionary alliance of syndicalists and communists in defiance of the social democratic International Federation of Trade Unions His text presents a full account of the organisation's main stages the decline of the revolutionary wave after World War One after which many syndicalists left and others were integrated into the communist parties the continuation of the RILU as an international communist apparatus and its dissolution in 1936/7 as part of communism's popular front policy First published in German as Profintern Die Rote Gewerkschaftsinternationale 1920 1937 by Ferdinand Schlingh Paderborn in 2004 [The Founding of the Red Trade Union International](#) Mike Taber, 2024-09-16 The 1921 founding congress in Moscow of the Red International of Labour Unions was a historic event That gathering set out to create an international revolutionary trade union organisation embracing millions of workers and it brought together a wide variety of forces within the world labour movement Lively and at times acrimonious debates occurred at the congress with syndicalist and other currents over the purpose and tasks of trade unions the nature of class struggle unionism and union strategy and tactics The congress proceedings published here in a richly annotated edition are part of a multi volume series on the Communist International in Lenin's time *The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state *Between Cross and Class* Lex Heerma van Voss, Patrick Pasture, Jan de Maeyer, 2005 In the late nineteenth century in a number of continental European countries Christian associations of workers arose Christian trade unions workers cooperatives political leagues workers youth

movements and cultural associations sometimes separately for men and women. In some countries they formed a unified Christian labour movement which sometimes also belonged to a broader Christian subculture or pillar encompassing all social classes. In traditional labour history Christian workers organizations were solely represented as dividing the working class and weakening the class struggle. However, from the 1980s onwards a considerable amount of studies have been devoted to Christian workers organizations that adopted a more nuanced approach. This book takes stock of this new historiography. To broaden the analysis each contribution compares the development in at least two countries, thus generating new comparative insights. This volume assesses the development of Christian workers organizations in Europe from a broad historical and comparative perspective. The contributions focus on the collective identity of the Christian workers organization, their denominational and working class allegiances, and how these are expressed in ideology, organization, and practice. Among the themes discussed are relations with churches and Christian Democracy, secularization, the development of the Welfare State, industrial relations, and the contribution to working class culture. This volume is the result of a joint intellectual enterprise of the International Institute of Social History (IISG) in Amsterdam, Netherlands, and a group of scholars linked to the KADOC Documentation and Research Centre for Religion, Culture, and Society of the KU Leuven Catholic University, Leuven, Belgium.

The Communist Movement at a Crossroads Michael Taber, 2018-06-12. This volume contains the proceedings and resolutions from three expanded meetings of the Executive Committee of the Communist International (Comintern) held in 1922-1923 while Lenin was still alive. At these mini-congresses Communist leaders from around the world debated out major strategic questions and initiatives from united front policy to the fight against fascism. The material in this book, much of it appearing in English for the first time, is an essential source for understanding the world revolutionary movement in Lenin's time as well as the subsequent evolution of the Comintern. It is an important supplement to the widely acclaimed series of volumes edited by John Riddell containing the record of the Comintern's first four world congresses.

The Amsterdam International Geert Van Goethem, 2017-11-28. This book charts the turbulent history of the International Federation of Trade Unions (IFTU) from its foundation in 1913 to its dissolution in 1945. Established to protect and advance the interests of workers of all countries and to further international solidarity, the IFTU from the outset was beset by difficulties. Within a year the First World War split the fledgling organisation, underlining national interests and creating resentment between some of the most powerful union interests. Although these differences were patched up after the end of hostilities, the Revolution in Russia and rise of Soviet Communism with own aspirations to leadership of international labour soon created new tensions within the IFTU.

Czech and Slovak History, 1996

International Communism and the Communist International, 1919-43 Tim Rees, Andrew Thorpe, 1998. The Communist International was formed in Moscow in 1919 as a factory of world revolution but was dissolved in 1943 without having led a single successful working class uprising. This book offers a reappraisal of the body.

Forging Democracy Geoff

Eley, 2002-04-11 Democracy in Europe has been a recent phenomenon Only in the wake of World War II were democratic frameworks secured and even then it was decades before democracy truly blanketed the continent Neither given nor granted democracy requires conflict often violent confrontations and challenges to the established political order In Europe Geoff Eley convincingly shows democracy did not evolve organically out of a natural consensus the achievement of prosperity or the negative cement of the Cold War Rather it was painstakingly crafted continually expanded and doggedly defended by varying constellations of socialist feminist Communist and other radical movements that originally blossomed in the later nineteenth century Parties of the Left championed democracy in the revolutionary crisis after World War I salvaged it against the threat of fascism and renewed its growth after 1945 They organized civil societies rooted in egalitarian ideals which came to form the very fiber of Europe's current democratic traditions The trajectories of European democracy and the history of the European Left are thus inextricably bound together Geoff Eley has given us the first truly comprehensive history of the European Left its successes and failures its high watermarks and its low tides its accomplishments insufficiencies and excesses and most importantly its formative lasting influence on the European political landscape At a time when the Left's influence and legitimacy are frequently called into question *Forging Democracy* passionately upholds its vital contribution

University Theses in Russian, Soviet and East European Studies, 1907-2006 Gregory Piers Mountford Walker, John Simon Gabriel Simmons, 2008 The bibliography records doctoral and selected masters theses over 3 300 in all from British and Irish universities in the field of Russian Soviet and East European studies This is broadly interpreted to include all disciplines in the humanities and social sciences as they relate to the area of Russia the former USSR and Eastern Europe Taken as a whole the work probably forms the fullest and longest record of British and Irish postgraduate research in any sector of area studies Besides its primary function as a bibliographic tool it makes it possible to trace the effects of academic developments institutional policies and the changes in direction in this highly diversified field of study over the last hundred years Entries are arranged by subject and area supported by full author and subject indexes to aid searching Dr Gregory Walker is a former Head of Slavonic and East European Collections at the Bodleian Library University of Oxford The late John S G Simmons OBE was Senior Research Fellow and Librarian All Souls College Oxford
