Czechoslovakias Blueprint For Freedom Du:

Czechoslovakia's Blueprint for "freedom": "Unity, Socialism & Humanity" Paul Ello, 1968 **Reform Rule in Czechoslovakia** Galia Golan, 1973 This book studies in detail the reform regime of Alexander Dubcek from the assumption of power in the Party by reform minded communists in January 1968 until Gustav Husik replaced Dubcek as First Secretary The reform regime survived only eight months of genuine rule but it persisted for a further eight months after the Soviet invasion in an agonizing struggle for survival One of the most impressive but little known developments in the era of reform rule was the attempt by the Czechoslovaks to perpetuate the Prague Spring to salvage something of the programme for reform and maintain public faith in the face of Soviet occupation Dr Golan's book a sequel to *The Czechoslovak Reform Movement* Cambridge 1971 examines the nature and effects of reform rule in nearly every area of society the economy the trade unions and social organizations national and religious minorities the cultural world the Party government the legal and security systems Slovakia and the field of foreign Policy **Czechoslovakia's Interrupted Revolution** Harold Gordon Skilling, 2015-03-08 For about eight months in 1968 Czechoslovakia underwent rapid and radical changes that were unparalleled in the history of communist reform in the eight months that followed those changes were dramatically reversed H Gordon Skilling provides a comprehensive analysis of the events of 1968 assessing their significance both for Czechoslovakia and for communism generally The author's account is based on all available written sources including unpublished Communist Party documents and interviews conducted in Czechoslovakia in 1967 1968 and 1969 He examines the historical background the main reforms and political forces of 1968 international reactions the Soviet intervention and the experiment's collapse concluding with his reasons for regarding the events of the Prague spring as a movement of revolutionary proportions The author's account is based on all available written sources including unpublished Communist Party documents and interviews conducted in Czechoslovakia in 1967 1968 1969 He examines the historical background the main reforms and political forces on 1968 international reactions the Soviet intervention and the experiment's collapse concluding with his reasons for regarding the events of the Prague spring as a movement of revolutionary proportions Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Fools and Heroes* Peter Hruby, 2013-10-22 *Fools and Heroes The Changing Role of Communist Intellectuals in Czechoslovakia* details two crucial years of 1948 and 1968 that marked the climax of contradictory developments namely the acceptance and repudiation of Soviet ideology and statecraft Organized into three parts this book begins with the class struggle and moral problems in Czechoslovakia Subsequent part

explores the economic problems and social history of the nation The search for truth in terms of history philosophy and politics is also addressed *The Logic of "normalization"* Fred H. Eidlin,1980 This volume is a valuable addition to the literature related to the Soviet invasion of Czechoslovakia in August 1968 The author focusses his analysis on the factors that determined the post invasion normalization primarily in terms of the Czechoslovak response to the invasion which imparted a specific character to the aftermath of the action of the Warsaw Pact National Union Catalog ,1973 **Czechoslovakia** Michael Brenner,1997-11-13 This book the most thoroughly researched and accurate history of Czechoslovakia to appear in English tells the story of the country from its founding in 1918 to partition in 1992 from fledgling democracy through Nazi occupation Communist rule and invasion by the Soviet Union to at last democracy again The common Western view of Czechoslovakia has been that of a small nation that was sacrificed at Munich in 1938 and betrayed to the Soviets in 1948 and which rebelled heroically against the repression of the Soviet Union during the Prague Spring of 1968 Mary Heimann dispels these myths and shows how intolerant nationalism and an unhelpful sense of victimhood led Czech and Slovak authorities to discriminate against minorities compete with the Nazis to persecute Jews and Gypsies and pave the way for the Communist police state She also reveals Alexander Dubcek held to be a national hero and standard bearer for democracy to be an unprincipled apparatchik Well written revisionist and accessible this groundbreaking book should become the standard history of Czechoslovakia for years to come **The Communist States in Disarray, 1965-1971** Adam Bromke,Teresa Rakowska-Harmstone,1972 The Communist States in Disarray 1965 1971 was first published in 1972 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Through a survey and analysis of recent developments in the communist states and in their relations with one another and with other nations this volume provides a revealing picture of a changing communist world Indeed as the book makes clear it is no longer appropriate to think of the communist countries as one world since a major development during the period covered in this study has been the disintegration of the communist monolith and the reemergence of separate national entities in Eastern Europe The sixteen chapters by fifteen contributors provide studies of the individual communist states as well as several chapter length discussions of general trends and patterns The contributors also project the likely course of developments for the rest of the 1970s Throughout the book the twin themes of an aggregation of the Sino Soviet conflict and the spread of nationalism point to the conclusion that the communist states are now in disarray The contents Patterns of Political change Teresa Rakowska Harmstone Polycentrism in Eastern Europe Adam Bromke The Sino Soviet Dispute John W Strong Czechoslovakia H Gordon Skilling East Germany Melvin Croan Rumania Gabriel Fischer Yugoslavia John C Campbell Albania Peter R Prifti Outer Mongolia Paul F Langer North Korea and North Vietnam Paul F Langer Cuba C Ian Lumsden Patterns of Economic Relations Philip E Uren External Forces in Eastern Europe Andrew Gyorgy **Public Affairs Information Service Bulletin** ,1970 *The Crisis of Marxist Ideology in Eastern*

Europe Vladimir Tismaneanu, 2023-03-31 First published in 1988 The Crisis of Marxist Ideology in Eastern Europe states that since de Stalinisation began in Eastern Europe the dead hand of institutional Marxism has been eroded by revisionist Marxism with the turn to young Marx and the philosophy of human emancipation to undermine prevailing orthodoxies But this revisionism clung to the old socialist dogmas and refused a total break with the system and the effort eventually failed The result was the emergence of a dissident counterculture rejecting the system entirely Independent social movements such as unofficial peace groups and trade unions like Solidarity have given this counterculture a major role in Eastern Europe whilst the ruling elites have responded with confusion Tismaneanu concludes that the only hope for the anti totalitarian intellectuals of Eastern Europe is to oppose the regimes with non Marxist ideas otherwise they will be permanently reduced to the status of a hopeless albeit heroic minority This book will be of interest to students of economics political science and international relations

Creating the New Man Yinghong Cheng, 2008-12-31 The idea of eliminating undesirable traits from human temperament to create a new man has been part of moral and political thinking worldwide for millennia During the Enlightenment European philosophers sought to construct an ideological framework for reshaping human nature But it was only among the communist regimes of the twentieth century that such ideas were actually put into practice on a nationwide scale In this book Yinghong Cheng examines three culturally diverse sociopolitical experiments the Soviet Union under Lenin and Stalin China under Mao and Cuba under Castro in an attempt to better understand the origins and development of the new man The book's fundamental concerns are how these communist revolutions strove to create a new morally and psychologically superior human being and how this task paralleled efforts to create a superior society To these ends it addresses a number of questions What are the intellectual roots of the new man concept How was this idealistic and utopian goal linked to specific political and economic programs How do the policies of these particular regimes based as they are on universal communist ideology reflect national and cultural traditions Cheng begins by exploring the origins of the idea of human perfectibility during the Enlightenment His discussion moves to other European intellectual movements and then to the creation of the Soviet Man the first communist new man in world history Subsequent chapters examine China's experiment with human nature starting with the nationalistic debate about a new national character at the turn of the twentieth century and Cuban perceptions of the new man and his role in propelling the revolution from a nationalist to a socialist and finally a communist movement The last chapter considers the global influence of the Soviet Chinese and Cuban experiments Creating the New Man contributes greatly to our understanding of how three very different countries and their leaders carried out problematic and controversial visions and programs It will be of special interest to students and scholars of world history and intellectual social and revolutionary history and also development studies and philosophy
