International Maritime Committee,1899 Shaping the Sciences of the Ancient and Medieval World Agathe Keller,Karine Chemla,2024-05-14 This book contributes to a worldwide history of textual criticism and critical editions of ancient scientific texts It first looks at ancient editorial practices and at their impact on modern editions Contributions analyze how through time the perception of what a text was may have changed and influenced how scholarly texts were made accessible The second section looks at the historical political and social contexts within which editions and translations of ancient scientific texts were produced Finally the last two parts examine the specificities of editions and translations that bore on scholarly documents Not only is there a focus on how the elements specific to scientific texts such as diagrams and numbers were treated but case studies analyzing the specific work carried out to edit mathematical and astronomical texts of the past are also offered to the reader The scholarship displayed in this work lays the foundation for further studies on the history of critical editions and raises questions to those who make scholarly translations and critical editions today Egyptian
Deportations of the Late Bronze Age Christian Langer,2021-09-20 Egyptian Deportations of the Late Bronze Age explores the

political economy of deportations in New Kingdom Egypt ca 1550 1070 BCE from an interdisciplinary angle The analysis of ancient Egyptian primary source material and the international correspondence of the time draws a comprehensive picture of the complex and far reaching policies The dataset reveals their geographic scope economic and demographic impact in Egypt and abroad as well as their interconnection with territorial expansion international relations and labour management The supply chain profiting institutions and individuals in Egypt as the well as the labour tasks origins and the composition of the deportees are discussed in detail A comparative analytical framework integrates the Egyptian policies with a review of deportation discourses as well as historical premodern and modern cases and enables a global and diachronic understanding of the topic The study is thus the first systematic investigation of deportations in ancient Egyptian history and offers new insights into Egyptian governance that revise previous assessments of the role of forced migration und unfree labour in ancient Egyptian society and their long term effects

Artists and the Arrière-garde Natalie Adamson, Toby Norris, 2020-06-12 Academics Pompiers Official Artists and the Arrière-garde Defining Modern and Traditional in France 1900 1960 is a collection of eight essays and a scholarly introduction by established and emerging scholars that challenges the continuing modernist slant of twentieth century art history The intention is not to perpetuate the vulgar opposition between avant garde and reactionary art that characterized early twentieth century discourse and has marked much subsequent historical writing but rather to investigate the complex relationship that both innovative and conservative artists had to the concept of tradition How did artists and art critics conceive of tradition in relation to modernity What was the role of an artist's institutional positioning in determining expectations for his or her art What light is thrown on the structure of the French art world by considering artists from abroad who worked in Paris How did the war alter modernist and avant garde paradigms and force crucial changes upon art production in the postwar period to 1960 Particular attention is paid to the terms academic pompier official and arrière-garde originally used to situate the more conservative artists and works as second rate or as the negative foil to the assumed radicalism of the avant garde By re-evaluating the work of artists pushed to the historical margins by such polemical descriptors and by proposing alternative understandings of the aesthetic economic institutional and political factors that drive our ideas of avant gardism and the modernist narrative in France this collection of essays offers new routes to explore the terrain of twentieth century art in France *D.
