Dada The Avant Garde In Print 3rd Portfolio:

Historic Avant-Garde Work on Paper Sascha Bru, 2024-03-13 This book examines the many functions of paper in the fine art and aesthetics of the early twentieth century modernist or historic avant garde Expressionism Cubism Futurism Dadaism Surrealism Constructivism and many more With its many collages and photomontages the historic avant garde is generally considered to have transformed paper from a mere support into an artistic medium and to have assisted in art on paper gaining a firm autonomy Bringing together an international team of scholars this book shows that the story of paper in the avant garde has thereby hardly been told The first section looks at a selection of canonized individual avant gardists work on paper to demonstrate that the material and formal analysis of paper in the avant garde s artistic production still holds much in store In the second section chapters zoom in on forms and formats of collective artistic production that deployed paper to move around reproductions of fine art works to facilitate the dialogue between avant gardists to better promote their work among patrons and to make their work available to a wider audience Chapters in the third section lay bare how certain groups within the avant garde began to massively create monochrome works because these could be easily reproduced when transferred to or reproduced as linocuts In the last section of the book chapters explore how the avant garde s attentiveness to paper almost always also implied a critique of the ways in which paper and all that it stood for was treated and labored in European culture and society more broadly The book will be of interest to scholars working in art history modernism and design

Dada Magazines Emily Hage, 2022-12 Dada magazines made Dada what it was diverse non hierarchical transnational and defiant of the most fundamental artistic conventions This book the first of its kind to critically examine the place of Dada periodicals within the art movement redefines the story of Dada by demonstrating the centrality of these graphically inventive provocative periodicals Dada New York Dada Dada Jok and dozens more that began crossing enemy lines during World War I Anchored in close material analysis within a historical and theoretical framework Dada Magazines models a novel multifaceted methodology for assessing many kinds of periodicals The book traces how the Dadaists Marcel Duchamp Tristan Tzara Dragan Aleksic Hannah Hoch and many others compiled printed distributed and exchanged these publications At the same time it recognizes the journals as active agents that engendered the Dada network and its thematic chronological structure captures the constant exchanges that took place in this network With in depth scrutiny of these magazines and 1970s Dadazines inspired by them Dada Magazines is a vital source in the histories of art and design periodical studies and modernist studies

El Lissitzky on Paper Samuel Johnson, 2024-06-12 An examination of the importance of paper in the work of Soviet artist designer and architect El Lissitzky Russian artist El Lissitzky s work spans painting photography theatrical and exhibition design architecture graphic design typography and literature He was active in the Jewish cultural renaissance formed an artists collective with Kazimir Malevich was a key figure in the dissemination of early Soviet art in Western Europe and designed propaganda for the Stalin regime With such a varied history and body of

work scholars have often struggled to identify the core principles that tied his diverse oeuvre together In El Lissitzky on Paper Samuel Johnson argues that Lissitzky's commitment to creating works on paper is a constant that unites his endeavors Paper played a key role in the utopian projects that informed Lissitzky's work and the artist held a commitment to print as the premier medium of immediate public exchange Johnson analyzes and contextualizes this idea against the USSR's strict management of this essential resource and the growth of new media communications including the telephone telegraph and film With this book Johnson presents a significant contribution to scholarship on this major artist revealing new connections between Lissitzky's work in architecture and visual art and bringing to light sources from largely unstudied Russian archives
