Dada Art And Anti Art By Richter Hans:

Dada Hans Richter, 2016-11-22 One of the best and most consistently interesting documents on this extraordinary movement that has been published The Sunday Times Where and how Dada began is almost as difficult to determine as Homer's birthplace writes Hans Richter the artist and filmmaker closely associated with this radical movement from its earliest days Here he records and traces Dada's history from its inception in wartime Zurich to its collapse in Paris in the 1920s when many of its members joined the Surrealist movement to the present day when its spirit reemerged in the 1960s in movements such as Pop Art This absorbing eyewitness narrative is enlivened by extensive use of Dada documents illustrations and texts by fellow Dadaists To celebrate one hundred years of Dada Thames Hudson is reissuing this unique document exactly as it first appeared in an expanded centenary edition This edition features a new introduction telling the story of how the book came about and an extended commentary that identifies Richter's sources and brings the study up to date for a new generation of readers

Dada Hans Richter, 1970 **Harmony and Dissent** R. Bruce Elder, 2008-10-02 R Bruce Elder argues that the authors of many of the manifestoes that announced in such lively ways the appearance of yet another artistic movement shared a common aspiration they proposed to reformulate the visual literary and performing arts so that they might take on attributes of the cinema The cinema Elder argues became in the early decades of the twentieth century a pivotal artistic force around which a remarkable variety and number of aesthetic forms took shape To demonstrate this Elder begins with a wide ranging discussion that opens up some broad topics concerning modernity's cognitive and perceptual regime with a view to establishing that a crisis within that regime engendered some peculiar and highly questionable epistemological beliefs and enthusiasms Through this discussion Elder advances the startling claim that a crisis of cognition precipitated by modernity engendered by way of response a peculiar sort of pneumatic spiritual epistemology Elder then shows that early ideas of the cinema were strongly influenced by this pneumatic epistemology and uses this conception of the cinema to explain its pivotal role in shaping two key moments in early twentieth century art the quest to bring forth a pure objectless non representational art and Russian Suprematism Constructivism and Productivism Dada and After Alan Young, 1983

Dadas on Art Lucy R. Lippard, 2007-01-01 A select anthology of the Dada movement focusing mainly on visual artists features prose poetry and polemics from such notables as Marcel Duchamp Max Ernst Tristan Tzara Hanna H och George Grosz and Jean Cocteau **A Cultural History of the Avant-Garde in the Nordic Countries**

1925-1950 , 2019-02-04 A Cultural History of the Avant Garde in the Nordic Countries 1925 1950 is the first publication to deal with the avant garde in the Nordic countries in this period The essays cover a wide range of avant garde manifestations literature visual arts theatre architecture and design film radio body culture and magazines It is the first major historical work to consider the Nordic avant garde in a transnational perspective that includes all the arts and to discuss the role of the avant garde not only within the aesthetic field but in a broader cultural and political context the pre war and wartime

responses to international developments the new cultural institutions sexual politics the impact of refugees and the new start after the war

The Dada Painters and Poets Robert Motherwell, 1989 Presents a collection of essays manifestos and illustrations that provide an overview of the Dada movement in art describing its convictions antics and spirit through the words and art of its principal practitioners

Anti-Tales David Calvin, Catriona McAra, 2011-05-25 The anti fairy tale has long existed in the shadow of the traditional fairy tale as its flipside or evil twin According to Andr Jolles in *Einfache Formen* 1930 such Antim rchen are contemporaneous with some of the earliest known oral variants of familiar tales While fairy tales are generally characterised by a spirit of optimism Tolkien the anti tale offers us no such assurances for every happily ever after there is a dissenting they all died horribly The anti tale is however rarely an outright opposition to the traditional form itself Inasmuch as the anti hero is not a villain but may possess attributes of the hero the anti tale appropriates aspects of the fairy tale form and its equivalent genres and re imagines subverts inverts deconstructs or satirises elements of these to present an alternate narrative interpretation outcome or morality In this collection Little Red Riding Hood retaliates against the wolf Cinderella s stepmother provides her own account of events and Snow White evolves into a postmodern vampire tale The familiar becomes unfamiliar revealing the underlying structures dynamics fractures and contradictions within the borrowed tales Over the last half century this dissident tradition has become increasingly popular inspiring numerous writers artists musicians and filmmakers Although anti tales abound in contemporary art and popular culture the term has been used sporadically in scholarship without being developed or defined While it is clear that the aesthetics of postmodernism have provided fertile creative grounds for this tradition the anti tale is not just a postmodern phenomenon rather the postmodern fairy tale is only part of the picture Broadly interdisciplinary in scope this collection of twenty two essays and artwork explores various manifestations of the anti tale from the ancient to the modern including romanticism realism and surrealism along the way

The Invention of Art Larry E. Shiner, 2001 Larry Shiner challenges our conventional understandings of art and asks us to reconsider its history entirely arguing that the category of ine art is a modern invention and that the lines drawn between art and craft emerged only as the result of key European social transformations during the long eighteenth century Publisher s description

Believing and Acting G. Scott Davis, 2012-03-15 How should religion and ethics be studied if we want to understand what people believe and why they act the way they do In the 1980s and 90s postmodernist worries about led to debates that turned on power truth and relativism Since the turn of the century scholars impressed by cognitive science have introduced concepts drawn from evolutionary biology neurosciences and linguistics in the attempt to provide naturalist accounts of religion Deploying concepts and arguments that have their roots in the pragmatism of C S Peirce Believing and Acting argues that both approaches are misguided and largely unhelpful in answering the questions that matter What did those people believe then How does it relate to what these people want to do now What is our evidence for our interpretations Pragmatic inquiry into these questions recommends an approach that questions grand theories advocates a critical pluralism about religion and ethics that defies disciplinary boundaries in the pursuit of the truth Rationality on a pragmatic approach is about solving particular problems in medias res thus there is no hard and fast line to be drawn between inquiry and advocacy both are essential to negotiating day to day life The upshot is an approach to religion and ethics in which inquiry looks much like the art history of Michael Baxandall and advocacy like the art criticism of Arthur Danto

Avant Garde Film Alexander Graf, Dietrich Scheunemann, 2007 This volume on avant garde film has emerged as part of a wider reassessment of 20th century avant garde art literature and film carried out in the framework of a research project at the University of Edinburgh It paves the way for a fresh assessment of avant garde film and develops its theory as an integral part of a newly defined conception of the avant garde as a whole by closing the gap between theoretical approaches towards the avant garde as defined on the basis of art and literature on the one hand and avant garde cinema on the other It gathers contributions by the most esteemed scholars in the field of avant garde studies relating to the classical avant garde cinema of the 1920s to new trends emerging in the 1950s and 1960s and to the impact that innovative technologies have recently had on the further development of avant garde and experimental film The contributions reflect the broad range of different moving image media that make up what we refer to today simply as film at the same time as reconsidering the applicability of the label avant garde to offer a comprehensive and updated framework that will prove invaluable to scholars of both Moving Image Studies and Art History disciplines

The Artist as a Dramatic Character Majeed Mohammed Midhin, 2025-09-10 The use of the artist does not necessarily reflect the playwrights themselves it may be further used to talk about social economic and political situations It has acquired deep significance as it is used as a veneer to criticise the political ruling party throughout its history This book represents a significant contribution to the literature in general and that of theatre and performance in particular by using a tranche of previously unused primary source material to examine the use of the artist and the key role he she has played in those three decades Its findings are

heavily based on new primary sources including interviews with the three playwrights themselves Its unique selling points are therefore that it will be the only book to have examined three playwrights over three decades with reference to some more recent artists from the Middle East especially Iraqi The book s primary audience will be academics particularly students of English literature history and performance studies It will prove a useful secondary text across undergraduate and postgraduate courses on the politics of text analysis which are offered by most US British Australian and Middle Eastern universities and which continue to attract large numbers of students **Else Lasker-Schuler** Betty Falkenberg,2003-07-25 Else Lasker Schuler a pivotal figure in German Expressionism presided over avant garde cafe life in pre World War I Berlin in much the same way Gertrude Stein did in Paris around the same time While her work is not yet very well known in the English speaking world it has been enjoying a critical and popular revival in Germany This full length biography of Lasker Schuler the first in English explores her poems plays prose and graphic works in light of her life It begins with her fleeing to Switzerland after Hitler s accession to power in 1933 looks back at her childhood in Wuppertal then follows her life through to its end in Jerusalem in January 1945 As a Jew a woman and a bohemian Lasker Schuler defied every category Her two marriages first to Dr Berthold Lasker then to Herwarth Walden founder of the leading avant garde periodical gallery and publishing house Der Sturm The Storm as well as her interactions with Karl Kraus Franz Marc Gottfried Benn Martin Buber and Gershom Scholem are documented in letters and poems many included here both in the original and in translation

The Flight Into Inwardness Timothy J. Lukes,1985 In his more recent works Herbert Marcuse has come to appreciate the liberatory potential of the aesthetic practice This book traces the development of that appreciation A discussion of Kant s aesthetic theory and Marcuse s improvement of it is included **Body, Space, Expression** Vera Maletic,1987 No detailed description available for Body Space Expression Eisenstein on the Audiovisual Robert Robertson,2011-03-24 The pioneering film director and theorist Sergei Eisenstein is known for the unequalled impact his films have had on the development of cinema Less is known about his remarkable and extensive writings which present a continent of ideas about film Robert Robertson presents a lucid and engaging introduction to a key area of Eisenstein s thought his ideas about the audiovisual in cinema which are more pertinent today than ever before With the advent of digital technology music and sound now act as independent variables combined with the visual medium to produce a truly audiovisual result Eisenstein explored in his writings this complex exciting subject with more depth and originality than any other practitioner and this is an accessible and original exploration of his ideas Winner of the Kraszna Krausz Foundations And Or Award for Best Moving Image Book of 2009 Eisenstein on the Audiovisual is essential reading for students and practitioners of the audiovisual in cinema and related audiovisual forms including theatre opera dance and multimedia Uncommon Sense Craig Leonard,2022-09-27 An examination of Herbert Marcuse s political claim for the aesthetic dimension focusing on defamiliarization as a means of developing radical sensibility In Uncommon Sense Craig Leonard argues for the

contemporary relevance of the aesthetic theory of Herbert Marcuse an original member of the Frankfurt School and icon of the New Left while also acknowledging his philosophical limits His account reinvigorates Marcuse for contemporary readers putting his aesthetic theory into dialogue with antiracist and anti capitalist activism Leonard emphasizes several key terms not previously analyzed within Marcuse s aesthetics including defamiliarization anti art and habit In particular he focuses on the centrality of defamiliarization a subversion of common sense that can be a means to the development of what Marcuse refers to as radical sensibility Leonard brings forward Marcuse s claim that the aesthetic dimension is political because of its refusal to operate according to the repressive common sense that establishes and maintains relationships dictated by advanced capitalism For Marcuse defamiliarization is at the center of the aesthetic dimension offering the direct means of stimulating its political potential Leonard expands upon Marcuse s aesthetics by drawing on the work of Sylvia Wynter going beyond Marcuse s predominantly European and patrilineal intellectual framework while still retaining his aesthetic theory s fundamental characteristics toward a human dimension requiring decolonial feminist antiracist and counterpoetic perspectives
