DeLue,2016-03-16 Arthur Dove often credited as America s first abstract painter created dynamic and evocative images inspired by his surroundings from the farmland of upstate New York to the North Shore of Long Island But his interests were not limited to nature Challenging earlier accounts that view him as simply a landscape painter Arthur Dove Always Connect reveals for the first time the artist s intense engagement with language the nature of social interaction and scientific and technological advances Rachael Z DeLue rejects the traditional assumption that Dove can only be understood in terms of his nature paintings and association with photographer and gallerist Alfred Stieglitz and his circle Instead she uncovers deep and complex connections between Dove s work and his world including avant garde literature popular music meteorology mathematics aviation and World War II Arthur Dove also offers the first sustained

account of Dove's Dadaesque multimedia projects and the first explorations of his animal imagery and the role of humor in his art Beautifully illustrated with works from all periods of Dove's career this book presents a new vision of one of America's most innovative and captivating artists and reimagines how the story of modern art in the United States might be told

Subjects Kathleen Canning, Kerstin Barndt, Kristin McGuire, 2010-08-01 In spite of having been short lived Weimar has never lost its fascination Until recently the Weimar Republic's place in German history was primarily defined by its catastrophic beginning and end Germany's defeat in 1918 and the Nazi seizure of power in 1933 its history seen mainly in terms of politics and as an arena of flawed decisions and failed compromises However a flourishing of interdisciplinary scholarship on Weimar political culture is uncovering arenas of conflict and change that had not been studied closely before such as gender body politics masculinity citizenship empire and borderlands visual culture popular culture and consumption This collection offers new perspectives from leading scholars in the disciplines of history art history film studies and German studies on the vibrant political culture of Germany in the 1920s From the traumatic ruptures of defeat revolution and collapse of the Kaiser's state the visionaries of Weimar went on to invent a republic calling forth new citizens and cultural innovations that shaped the republic far beyond the realms of parliaments and political parties *Art in the City, the City in Art* Elisha

Masemann, 2024-03-31 This Book examines an interplay between discourses on the city that stress the need for rational functional order and art's imaginative deviations from the topdown structures of urban life Moving between theory and praxis the book situates the city as both a concept and physical construct through which lives and possibilities are shaped or defined In response certain modalities of art create spontaneous non rational and playful interludes that risk escape from the urban apparatus and a hyper valorisation of rational order A three part framework is used to discuss this push pull dynamic and to assess the strategies of shock performative embodiment and intervention that emerged in post war art movements and in contemporary performance and participatory art practices The book examines how the disturbances introduced by artists throw the city construct into sharp relief making it visible and activating momentary encounters where new modes of expression can emerge This Book offers a new approach to interdisciplinary studies of art and urbanity The book aims to delineate how the city as concept and construct is made visible through artistic practice and in turn challenged or interrogated Students researchers and professionals with an interest in the interaction between art and urban studies will discover a new perspective on how urban conditions and issues have been addressed through artistic practice The book contributes to an evolving discourse in the urban humanities through an exposition of the city's default construct that is made visible or reimagined through visual art in public spaces **Cannibalizing the Canon**, 2024-02-06 This rich in depth exploration of Dada's roots in East Central Europe is a vital addition to existing research on Dada and the avant garde

Through deeply researched case studies and employing novel theoretical approaches the volume rewrites the history of Dada as a story of cultural and political hybridity border crossings transitions and transgressions across political class and gender lines Dismantling prevailing notions of Dada as a Western movement the contributors to this volume present East Central Europe as the locus of Dada activity and techniques The articles explore how artists from the region pre figured Dada as well as actively cannibalized that is reabsorbed and further hybridized a range of avant garde techniques thus challenging Western cultural hegemony

Reanimating Regions James Riding, Martin Jones, 2017-05-12 Writing regions undertaking a regional study was once a standard form of geographic communication and critique This was until the quantitative revolution in the middle of the previous century and more definitively the critical turn in human geography towards the end of the twentieth century From then on writing regions as they were experienced phenomenologically or arguing culturally historically and politically with regions was deemed to be old fashioned Yet the region is and always will be a central geographical concept and thinking about regions can tell us a lot about the history of the discipline called geography Despite taking up an identifiable place within the geographical imagination in scholarship and beyond region remains a relatively forgotten under used and in part under theorised term Reanimating Regions marks the continued reinvigoration of a set of disciplinary debates surrounding regions the regional and regional geography Across 18 chapters from international interdisciplinary scholars this book writes and performs region as a temporary permanence something held stable not fixed and absolute at different points in time for different purposes There is as this expansive volume outlines no single reading of a region Reanimating Regions collectively rebalances the region within geography and geographical thought In renewing the geography of regions as not only a site of investigation but also as an analytical framework through which to write the world what emerges is a powerful reworking of the geographic imagination Read against one another the chapters weave together timely commentaries on region and regions across the globe with a particular emphasis upon the regional as played out in the United Kingdom and regional worlds both within and beyond Europe offering chapters from Africa and South America Addressing both the political and the cultural this volume responds to the need for a consolidated and considered reflection on region the regional and regional geography speaking directly to broader intellectual concerns with performance aesthetics identity mobilities the environment and the body

Looking for Bruce Conner Kevin Hatch, 2016-02-12 A new perspective on the enormously influential but insufficiently understood work of San Francisco based artist Bruce Conner 1933 2008 In a career that spanned five decades most of them spent in San Francisco Bruce Conner 1933 2008 produced a unique body of work that refused to be contained by medium or style Whether making found footage films hallucinatory ink blot graphics enigmatic collages or assemblages from castoffs Conner took up genres as quickly as he abandoned them In this first book length study of Conner s enormously influential but insufficiently understood career Kevin Hatch explores Conner s work as well as his position on the geographical cultural and critical margins Generously illustrated with many

color images of Conner's works Looking for Bruce Conner proceeds in roughly chronological fashion from Conner's notorious assemblages BLACK DAHLIA and RATBASTARD among them through his experimental films populated by images from what Conner called the tremendous fantastic movies going in my head from all the scenes I'd seen his little known graphic work and his collage and inkblot drawings

Anarchism and the Advent of Paris Dada Theresa Papanikolas, 2010 Anarchism and the Advent of Paris Dada sheds new light on Paris Dada's role in developing the anarchist and individualist philosophies that helped shape the cultural dialogue in France following the First World War Drawing on such surviving documentation as correspondence criticism periodicals pamphlets and manifestoes this book argues that contrary to received wisdom Dada was driven by a vision of social change through radical cultural upheaval The first book length study to interrogate the Paris Dadaists complex and often contested position in the postwar groundswell of anarcho individualism Anarchism and the Advent of Paris Dada offers an unprecedented analysis of Paris Dada literature and art in relation to anarchism and also revives a variety of little known anarcho individualist texts and periodicals In doing so it reveals the general ideological diversity of the postwar French avant garde and identifies its anarchist concerns in addition it challenges the accepted paradigm that postwar cultural politics were monolithically nationalist By positioning Paris Dada in its anarchist context this volume addresses a long ignored lacuna in Dada scholarship and more broadly takes its place alongside the numerous studies that over the past two decades have problematized the politics of modern art literature and culture
