Dae Ye Min Langsyne A Pot Pourri Of Games Rhymes And Ploys Of Scottish Childhood:

Dae Ye Min' Langsyne? Amy Stewart Fraser,1975-01-01 *Games, Rhymes, and Wordplay of London Children* N. G. N. Kelsey,2019-02-26 This book presents a unique annotated collection of some 2000 playground games rhymes and wordplay of London children It charts continuity and development in childlore at a time of major social and cultural change and offers a detailed snapshot of changes in the traditions and language of young people Topics include starting a game counting out rhymes games without songs singing and chanting games clapping skipping and ball bouncing games school rhymes and parodies teasing and taunting traditional belief and practice traditional wordplay and a concluding miscellany Recorded mainly in the 1980s by primary schoolteacher Nigel Kelsey transcribed verbatim from the children s own words and accompanied by extensive commentaries and annotation the book sets a wealth of new information in the wider historical and contemporary context of existing studies in Britain Ireland and other parts of the English speaking world This valuable new resource will open new avenues for research and be of particular interest to folklorists and linguists as well as to those working across the full spectrum of social cultural and educational studies Deictic Imaginings: Semiosis at Work and at Play Donna E West,2013-08-05 This work represents the first integrated account of how deixis operates to facilitate points of view providing the raw material for reconciling index and object The book offers a fresh applied philosophical approach using original empirical evidence to show that deictic demonstratives hasten the recognition of core representational constructs It presents a case where the comprehension of shifting points of view by means of deixis is paramount to a theory of mind and to a worldview that incorporates human components of discovering and extending spatial knowledge The book supports Peirce s triadic sign theory as a more adequate explanatory account compared with those of Bühler and Piaget Peirce s unitary approach underscores the artificiality of constructing a worldview driven by logical reasoning alone it highlights the importance of self regulation and the appreciation of otherness within a sociocultural milieu Integral to this semiotic perspective is imagination as a primary tool for situating the self in constructed realities thus infusing reality with new possibilities Imagination is likewise necessary to establish postures of mind for the self and others Within these imaginative scenarios consisting of overt and then covert self dialogue children construct their own worldviews through linguistic role taking as they legitimize conflicting viewpoints within imagined spatial frameworks *Scottish Life and Society: Oral literature and performance culture* ,2007 **Catalog of Copyright Entries.
