Bogle,2014-08-29 But why do stories like these find such media traffic exploiting parents worst fears How do these rumors get started and how do they travel around the country and even across the globe In Kids Gone Wild best selling authors Joel Best and Kathleen A Bogle use these stories about the fears of the growing sexualization of childhood to explore what we know about contemporary legends and how both traditional media and the internet perpetuate these rumors while at times debating their authenticity Best and Bogle describe the process by which such stories spread trace how and to where they have moved and track how they can morph as they travel from one medium to another Ultimately they find that our society s view of kids raging out of control has drastic and unforeseen consequences fueling the debate on sex education and affecting policy decisions on everything from the availability of the morning after pill to who is included on sex offender registries      *Life Lines* Jean Bacon,1997-01-02 Asian Indians figure prominently among the educated middle class subset of contemporary immigrants They move quickly into residences jobs and lifestyles that provide little opportunity with fellow migrants yet they continue to see themselves as a distinctive community within contemporary American society In Life Lines Bacon chronicles the creation of a community Indian born parents and their children living in the Chicago metropolitan area bound by neither geographic proximity nor institutional ties and explores the processes through which ethnic identity is transmitted to the next generation Bacon s study

centers upon the engrossing portraits of five immigrant families each one a complex tapestry woven from the distinctive voices of its family members Both extensive field work among community organizations and analyses of ethnic media help Bacon expose the complicated interplay between the private social interactions of family life and the stylized rhetoric of Indianness that permeates public life This inventive analysis suggests that the process of assimilation which these families undergo parallels the assimilation process experienced by anyone who conceives of him or herself as a member of a distinctive community in search of a place in American society
