Stalin in Russian Satire, 1917-1991 Karen L. Ryan, 2009-11-24 During Stalin's lifetime the crimes of his regime were literally unspeakable More than fifty years after his death Russia is still coming to terms with Stalinism and the people's own role in the abuses of the era During the decades of official silence that preceded the advent of glasnost Russian writers raised troubling questions about guilt responsibility and the possibility of absolution Through the subtle vehicle of satire they explored the roots and legacy of Stalinism in forms ranging from humorous mockery to vitriolic diatribe Examining works from the 1917 Revolution to the fall of the Soviet Union in 1991 Karen L. Ryan reveals how satirical treatments of Stalin often emphasize his otherness distancing him from Russian culture Some satirists portray Stalin as a madman Others show him as feminized animal like monstrous or diabolical Stalin has also appeared as the unquiet dead a spirit that keeps returning to haunt the collective memory of the nation While many writers seem anxious to exorcise Stalin from the body politic for others he illuminates the self in disturbing ways To what degree Stalin was and is in us is a central question of all these works Although less visible than public trials policy shifts or statements of apology Russian satire has subtly yet insistently participated in the protracted process of de-Stalinization

Modern Russian Theology Paul Valliere, 2000-11-01 This volume is an introduction to the three great thinkers of the Russian school of modern Orthodox theology It includes biographical sketches of the three and examines the creative ideas they devised or adapted including free theocracy *Dutch Contributions to the Twelfth International Congress of Slavists*, 2023-12-04 The BRILL series Studies in Slavic Literature and Poetics occupies a unique place in the academic and intellectual book market due to its emphasis on theoretically informed and interdisciplinary approaches to the study of Slavic literatures and cultures The series welcomes book proposals for monographs or edited volumes discussing questions of Slavic culture identity and history as expressed in literature film and other forms of cultural production Authors are cordially invited to submit proposals and or full manuscripts to the publisher at BRILL Masja Horn *Permanent Liminality and Modernity* Arpad Szokolczai, 2016-10-04 This book offers a comprehensive sociological study of the nature and dynamics of the modern world through the use of a series of anthropological concepts including the trickster schismogenesis imitation and liminality Developing the view that with the theatre playing a central role the modern world is conditioned as much by cultural processes as it is by economic technological or scientific ones the author contends the world is to a considerable extent theatrical a phenomenon experienced as inauthenticity or a loss of direction and meaning As such the novel is revealed as a means for studying our theatricalised reality not simply because novels can be understood to be likening the world to theatre but because they effectively capture and present the reality of a world that has been thoroughly theatricalised and they do so more effectively than the main instruments usually employed to analyse reality philosophy and sociology With analyses of some of the most important novelists and novels of modern culture including Rilke Hofmannsthal Kafka Mann Blixen Broch and Bulgakov and focusing on fin de siècle Vienna as a crucial threshold chronotope of modernity *Permanent Liminality and Modernity* demonstrates that all seek to investigate and unmask the theatricalisation of modern life with its progressive loss of meaning and our deteriorating capacity to distinguish between what is meaningful and what is artificial Drawing on the work of Nietzsche Bakhtin and Girard to examine the ways in which novels explore the reduction of human existence to a state of permanent liminality in the form of a sacrificial carnival this book will appeal to scholars of social anthropological

and literary theory **Revolutionary Experiments** Nikolai Kremmentsov, 2014 Kremmentsov examines a particular fascination with the dream of immortality and the place of science and fiction in its pursuit in Russia during roughly a decade that followed the country's political revolutions of 1917. It argues that contemporary scientific experiments aimed at the control over life, death, and disease inspired many Russian writers to conduct their own literary experiments with the ideas and techniques offered by experimental biology and medicine, which found expression in both popular science writings and a new literary genre: science fiction.
